# THE BRITISH ROYAL FAMILY AND THE JEWS By Richard Crowhurst

**B**RITAIN HAS BEEN INTENSELY LOYAL TO HER MONARCHY'S, most ancient origins. However, the Queen has favoured the multi racialists, and turned her back on the more conservative and loyal, true White Britons. It is therefore no surprise to learn that the British monarchy is today surrounded by Jews and Jewish influence, and that Prince Philip also has Jewish blood.

In 1851, Alexander, son of the Grand Duke of Hesse - that same family who raised the Rothschilds to power and hired out their subjects as mercenaries to fight the American colonists in their revolt against George III of England-contracted a morganatic marriage with the daughter of a wealthy Polish Jewish commoner who had grown rich as a supplier of arms to the war ministry. Since she had been baptized a Christian, the family permitted the marriage, and revived an old family title for Alexander and his Jewess. The title was the Count of Battenburg. This was the beginning of the Battenburg line.

The Hesse family later , made Alexander Prince o f Battenburg, and his eldest son by his Jewish wife was Prince Louis of Battenburg. Prince Louis came to England to join Queen Victoria's Court, where he became an

## The British Royal Family and The Jews

Admiral of the British Navy and a personal friend of King Edward VII. During World War I, because of the German propaganda, he decided to disown the German side and changed his name to Mountbatten, and he also received an English title, Marquess of Milford Haven. His son, George, who bore the same title, was best man at Queen Elizabeth's wedding to Prince Philip and led a very free and easy going pleasure loving existence which earned him no small reputation.

Prince Louis, second son (the grandchild of the Polish Jewess) was the late Admiral Louis Mountbatten, last Viceroy of India (who handed India over to Indian rule) and First Lord of the British Admiralty. He was also been a close life long friend of several socialite, intellectual Fabians, a great "democrat," close friend of Churchill, and a power behind the throne. Who became Lord Louis Mountbatten's wife? A daughter of Lord Mount Temple (previously Mr. Wilfred Ashley, a Tory MP. of some forty years standing). Mr. Ashley married the daughter of Sir Ernest Cassell, the son of the Cologne Jewish banker, who was a friend and financier to Edward VII. Cassell left a fortune of £7 1/2 million to his daughter the mother of Earl Mountbatten's wife.

Lord Louis Mountbatten is the Uncle of Queen Elizabeth's consort, Philip, Duke of Edinburgh, (Left) who is the son of Lord Louis Mountbatten's sister, Princess Alice. Princess Alice married into the Glucksberg family (the Danish Greek line of direct Hesse, ancestry). Thus Prince Philip is one eighth Jewish. His son Charles, is heir to the British throne.

Prince Philip was educated at the unorthodox and progressive school of Gordonstoun in Scotland, founded by the Jew Kurt Rahn who fled from Germany in 1933 when Nationalists took over power in Germany. Prince Charles, heir to the British throne, was also educated at Gordonstoun.

There is very little written evidence available to support the widely rumoured story that Prince Albert, husband of Queen Victoria, was half

Jewish, despite the widespread prevalence of this story in continental aristocratic circuits for two generations. The legend is that Queen Victoria visited Coburg, the seat of the ancient and illustrious Saxe-Coburg family, with the object of marriage to the eldest son, but instead fell in love with and married the second son. The Duke, of Saxe-Coburg was supposed to have strongly opposed this marriage, as he is said to have suspected that his second son was the illegitimate child of the Duchess by the Jewish Court Chamberlain, but she married the second son all the same. The last Duke of Saxe-Coburg, incidentally, was a keen Nazi, and one of the few members of the German aristocracy who openly played a leading role in Nazi Germany.

Reference to the "Albert Scandal" is to be found in the biography of Queen Victoria entitled "*Queen Victoria Born to Succeed*" by the Countess of Longford: The, two little brothers, Ernest and Albert, had been shut up in their nursery with whooping cough when their lovely young Mama, in tears, rode out of the courtyard and out of their lives forever. It was a painful story. Tiny, sprightly, bubbling with spirits, Princess Louise, (Prince Albert's mother) had married at sixteen the much older Duke (of Saxe-Coburg) who neglected her shamefully while continuing to pursue his habitual

debaucheries. After the birth of Prince Albert on August 26, 1819 she consoled herself elsewhere. Duke Ernest separated from her in 1824 and divorced her in 1826. She married again but fell ill and died seven years later."

## The British Royal Family and The Jews

A story survived her into the reign of Queen Victoria and was believed by many of her Court that Prince Albert (Left) was illegitimate, probably with a Jewish father. His extraordinary unlikeness to the two Ernests, father and brother, both in character and looks, may partly account for the insistency of a tradition without apparent foundation.

This apocryphal legend is, however, unsubstantiated by any acceptable evidence. As such, it would be very wrong to give credence to such a story. Let us prefer, instead, to adhere strictly to facts.

Among the facts, however, we have to mention that Prince Albert's son, Edward VII, had a definite penchant for Jewish company and Jewish jokes and his personal association with German Jews in Berlin shocked the German Kaiser and helped to estrange the two monarchs who, if they had been good friends could have prevented he war which subsequently broke out between the two nations in 1914.

Coming down to modern times again, we must state that there is no reason to suppose that there is any significance whatsoever In the fact that the Royal family employed a Jewish doctor to circumcise Prince Charles - right (although circumcision is less usual among British Aryans than it is in America). What is significant is that, the Royal family should employ Jewish medical advisors, and move every day among Jews and half Jews.

So close is their association with Jews that it was no great surprise when Princess Margaret Rose decided to marry a half Jew Anthony Armstrong Jones. Anthony, a professional photographer, whose previous girl friend had been a Eurasian actress, was given the title of the Earl of Snowdon.

## The British Royal Family and The Jews

Anthony's mother was the sister of Oliver Messel, that well known Jewish interior decorator. It is rumoured though the present writer has not confirmed this that on his father's side there is also Jewish blood. His Jewish blood is very apparent in his features which are distinctly indicative of mixed racial origins.
