**T**RULY, HISTORY REPEATS ITSELF WITH MONOTONOUS REGULARITY --- for the reason that those who will not learn the lessons of history are condemned to re-live it. There is no evil existing today, no threat of calamity over us today, which is really new: our ancestors faced the same thing, in basic principle, many times. Each time, they proved by agonizing, bloody experience, that there is only one way to peace, prosperity and liberty; and all other ways lead only to horrible disaster. And each time, the lesson was forgotten with the passing of the generation which had paid the bitter cost, and the drift toward disaster was resumed.

You will find the story in your Bible in the Book of Judges, which records that "the people served the Lord all the days of Joshua, and all the days of the elders that outlived Joshua, who had seen all the great works of the Lord, that He did for Israel, but all that generation were gathered unto their fathers, and there arose another generation after them, which knew not the Lord nor yet the works which He had done for Israel. And the Children of Israel did evil in the sight of the Lord and served idols." Naturally, this brought its inevitable consequences: military defeats, finally conquest and years of servitude under another nation.

In the bitterness of their slavery, they remembered the God they had abandoned, and prayed to Him for deliverance—which He mercifully gave them. But the lesson lasted only 40 years, and again the people were disloyal to their God, again resulting in 18 years of servitude to their enemies before the awful lesson brought them back to their God. And so the process was again repeated, through seven such periods of defeat and servitude; because each time God rescued them, the lesson was not impressed upon their children, who repeated the old mistakes and paid the old penalty.

The warning was given, to study the course of history before going off the deep end. "Remember the ways of old, consider the years of many generations: ask thy father, and he will show thee; thy elders, and they will tell thee." (Deuteronomy 32:7) But it was in vain: those not yet dry behind the ears always pursued what they thought was a "new frontier"--ignorant of the fact that it was only the oldest of mistakes.

If you ask, "How could this be? Harvard didn't yet exist." The answer is that in those days they were taught by the ancestors of the very men who now repeat the same teachings in our great universities. Yet we never learn that the truth does not change according to which party is corrupt enough to win an election: it is eternally the same. There is a God; and there is only one God; and obedience to Him is the only possible road to peace or prosperity. Every time we let ourselves be told that loyalty to our God and His laws is "old-fashioned," and it extreme right-wing, and that some bright young men who haven't been able to earn a living on their own have nevertheless discovered a brand new way to run our civilization—every time we fall for this we start down the steep and slippery road to disaster.

All history is a huge junk pile of the wreckage of nations which had to prove this the hard way; there is not one exception. They corrupted large numbers of people, and thought they were big; they armed their vast numbers of men, and thought they were strong; they stole the wealth which others had gained by hard work, and thought they were rich; they conquered their unfortunate neighbours, and thought they were mighty empires. But the degeneracy of character, which is the only thing which can flourish in such an atmosphere, Invariably carries the seeds of its own destruction. Six thousand years of history teach but one lesson; and only the wilfully blind can fail to read it.

We have nationally violated practically all of God's laws—and have made these violations the essential principles of our major party platforms, in order to capture the votes of admittedly alien Minority Groups which loudly proclaim that their aims and principles are different from and

contrary to those of the great White Christian majority of our nation. They hate our God, our traditions, our customs and American Way of Life which has made us great, and they want to destroy these and substitute another way of their own—a way which never brought them anything but poverty, disease and degradation in the lands from which they came; but they think that they can reduce us to this sordid level, while they will prosper on the wealth which only we can produce. And yet, we continue to follow politicians who have shamelessly sold out to these Minority Groups; we put in their hands the power to wreck the civilization which made us great.

In the past, this same conduct has been tried repeatedly In the history of all nations, and its end has always been disaster. If we had not forgotten the God to whom we so loudly give mere lip-service, we would read our Bible, and see there the lesson so plainly stated, I have spoken to you before on the Laws of God, and how obedience to them will bring peace, prosperity and liberty; violation of them has always brought war, poverty and tyranny. But in what other church will you find these Laws of God taught: Like most politicians, most of the clergy have found that more popularity and money is to be had by serving God's enemies.

The people who trust them to teach the word of God are being misled: some ministers even teach their congregations that they should deliberately violate the Biblical laws, "to show that they are now under grace, not under law." But this is deliberate sin: I John 3:4 reminds us that, even under the New Testament, "sin is the transgression of the law." And in Romans 6:1-2, Paul warns us, "What shall we say, then? Shall we continue in sin, That grace may abound? God forbid!

We are violating the Laws of God which forbid integration and mongrelization of the races; we are violating the Laws of God which forbid yoking our nation together with Christ hating pagans in the United Nations—doubly bad, because the enemies of our God out vote us and rule us in the United Nations; we are violating the Laws of God when we bleed ourselves white to strengthen His enemies; we are violating the Laws of God when we seek to make them prosperous and powerful in their

paganism, instead of teaching them that these good things come only as gifts from the one true God; we are violating the Laws of God when we allow unassimilated Minority Groups among us to gain power and rule us in our own land. But these deliberate insults to our God are the highest principles of the "liberal" politicians. Do you think we can violate God's Laws and yet escape the consequences of our own actions? Never! Our punishment is to receive the natural, inevitable consequences of our own wrong doing.

**Proverbs 1:31** says it: "Therefore shall they eat of the fruit of their own way, and be filled with their own devices." Hosea 10:13 bluntly warns us: "Ye have ploughed wickedness, ye have reaped iniquity; ye have eaten the fruit of lies." Our integration bears its natural fruit In the Juvenile delinquency which it favours. Do you say, "But we find Juvenile delinquents among children from good homes?" Who taught it to them? "One rotten apple can spoil the barrel full." It will bear its terrible fruit when succeeding generations become mongrelized, reduced to the level of the lowest. Internationally, our government's violation of God's Laws has destroyed our honor, betrayed our friends while helping our enemies, brought us to the brink of complete disaster. Must we wait for the final crash before we set the brakes?

It is time for us all, politicians, clergymen, congregations and voters, to face the most fundamental question of all: To whom are we loyal? To our God, or to the pagan ideologies which alien Minority minority groups have imported? The prophet and leader Joshua put the question directly to our ancestors, in Joshua 24:14-19: "Now therefore, reverence the Lord, and serve Him with sincerity and in truth: and put away the gods which your fathers served on the other side of the flood, and in Egypt; and serve ye the Lord. And if it seem evil unto you to serve the Lord, **CHOOSE YOU THIS DAY WHOM YE WILL SERVE:– BUT AS FOR ME AND MY HOUSE, WE WILL SERVE THE LORD.**" In times of apostasy, serving God always meet opposition: the popularity and the money is on the side of apostasy. But we are not envious of them: we know how little thirty pieces of silver will ever buy. It is this church's
