MARGARET THATCHER: MICHAEL HESELTINE (LABOUR) ON THE LEFT, IS CREDITED WITH BRINGING DOWN MRS. THATCHER, but he could not have done this without some help from within her own party. It is conceded that Mrs. Thatcher as Prime Minister took Britain out of the 'Welfare State' which Heseltine's party had placed her, and moved Britain away from Socialism, and in the process since the choices were hard, she acquired the nickname, 'The Iron Lady'. Behind the scene was the problem as to whether Britain would join the New Unity of Europe.

It is said that Mrs. Thatcher did not approve of this Great New One World of Europe, and would not take Britain into this organization. Besides this Mrs. Thatcher was said to rub the 'Ego' of some members of Government the wrong way. After all they said: She was only a Shop Keepers daughter. Then too, she was no colourless. 'Yes Minister', no grovelling 'Yes Minister', thus she had her enemies. The financial side of this picture plays a great role in what has happened since behind the scene the ECU (European Currency Unit) was putting great pressure on the British Government to join the European Common Market (ECM). Mrs. Thatcher was said to have dug in her heels and was gazing back-ward at history, as if with enraptured nostalgia while the ECU is moving into the future with the courage of their own convictions, if not with any sure idea of the final destination.

The ECU for a moment has won, and Mrs. Thatcher steps down although all agree that she did what she thought was best for British Sovereignty. She however left office with all the Grace, Style and Wit that has characterized her 11 1/2 years in office, the longest tenure of a British Prime Minister. Then just as the Left was rejoicing over her downfall, the young man she had groomed for her replacement was elected Prime Minister instead of Mr. Heseltine who conceded defeat on the second

ballot. May this young man find the strength to keep Britain a Sovereign Nation.

The election over, other strange things are taking place. The Press tried to make of this past election, a national one which it was not. The Republicans lost 3 governorships in the South, and gained three in the frost Belt. In Kansas the Governor lost because of the Reappraisal which he did not start but which the people voted for. In the National scene the incumbents were not thrown out.

The defeat of the Martin Luther King holiday in Arizona, the 44% rolled up for ex-Klansman David Duke in Louisiana, the victory by Jesse Helms on the strength of late ads slamming affirmative action demonstrates that a tough stance against 'racial favouritism', and 'preferential treatment' is a winner for the GOP, at the time when this same party has been driving away the 'Reagan Democrats' by abandoning its opposition to new taxes. The Press predicted that the GOP would pay a big price as their President vetoed Ted Kennedy's Civil Rights Bill, or Quote Bill.

And the Big Green of the Political Left made Pete Wilson Governor of California. People coming out of the voting booths voted no as to Mario Cuomo for the next President, who will also have to raise taxes in 1991. They also said no, to Jesse Jackson's Candidacy. I believe that Pat Buchanan is right when he says that the nominating process of the Democratic Party will drag their Candidates to the Left which is the historic kiss of death. When the democrats endorse Liberal-ism they rescue the Republican Party and build it up again.

When Congress gave Dr. King a Federal Holiday putting him on a par with George Washington, the father of our country, this was the case of what happens when an Affirmative action program gets out of control. For years it has been well known that Dr. King, although a Civil Rights Leader, and a powerful Orator, was a very flawed man. His demagoguery caused millions to see him as a very divisive figure on the Left. At one time he attacked America as the Greatest purveyor of violence in the world. In 1960 President J. F. K.'s attorney, General Robert Kennedy, and even LBJ thought that Dr. King's fraternization with Communists justified

wire tapping and F.B.I. surveillance. Even the Washington Press Corps which uncovered Dr. King's many faults as womanising, plagiarizing and racist attitude as well as being of a dubious moral character now turns to demand that Arizona 'bow the knee' to Football politics.

Actually Arizona has a King Holiday, just not a Federal one, but moving the State of Arizona out of competition for the 1993 Super Bowl because the State voted down a Federal workers paid holiday for Dr. King, has now injected football into Politics and politics into football injuring both. There are many Americans out there who will never bow the knee to the Liberal Ideology of being a bigot if you do not set the King Holiday as a National event, when on the other hand they would knock out the celebration of every thing Christian in our nation.

Times Magazine has finally told us that F.D.R.'s Administration was filled with Soviet Agents. The most important being Harry Hopkins in the White House, Alger Hiss in the State Department, Louchline Currie in the White House, and Duncan Lee in the office of Strategic Services (the Predecessor to the CIA), Henry Morgenthau as Treasury Secretary and Harry Dexter White helper who gave the KGB the engraving plates and ink, so that the Soviets could counterfeit the U.S. money thus giving a massive subsidy to the Soviets by way of the American Taxpayer.

It is also now exposed that the movement of Drugs into the Western Christian civilization and especially these United States was a planned offensive by Red China and then the Soviet Union. Castro of Cuba was ordered to build routes for this chemical warfare upon the youth of the West. It was a deliberate program, knowing that Drugs would be a demoralizing influence not only on the family life of America, but the moral, military life as well. Henry Kissinger and General Haig are mentioned in the book 'Red Cocaine' as being the ones who persuaded Presidents to ignore the Drug threat when reaching out for Detente with the Communist Nations.

One way to end the Fiscal nightmare of the U.S. Government, Remember that Congress after 'Watergate' passed the legislation called the '1974' Congressional Budget and Impoundment Control Act'. This legislation

gave Congress more control over the Budget, and limited the Presidents ability to curb spending. In this process 535 members of Congress, each secure funding for pet projects, and duck the blame for the resulting deficits. Since 1976 Congress has inflicted on the U.S. Taxpayer one fiscal wound after another. Federal Revenue has nearly doubled but spending has increased double the rate of inflation.

Because of their inability to produce a budget **ON TIME**, the Congress has passed 46 Emergency stop gap spending bills forcing the President, either to sign the bill or shut down the government. Driven by special Interest demands for increased funding, and an abiding passion for re-election, Congressmen cannot say 'no' to more Federal spending. They took away the line veto power available to every President from George Washington to Gerald Ford, and now see the results.

GLOBAL AIRCRAFT INDUSTRY: Being planned for 1995 by a new company headed by Armand Hammer is in the works. The Soviets would build the airframe, the U.S. would supply the engines, and Israeli would supply the electronic equipment known as Avionics. In the planning is links between the U.S. giant corporation and other countries with an International Labour Organization to control Labour. Thus the One World Planners are at work.

A LANDMARK NEW FEDERAL LAW: applies to all public schools since all receive some federal money. Under this new law which President Bush signed into law, Dec., 12, 1989, it is now required that you must teach students, not just about drugs, but teach them that the use of illicit drugs and the unlawful possession of Alcohol is wrong and harmful. No later than October 1, 1990 the Drug Prevention program must be taught in all grades through the 12., grade of every federally assisted school.

The current 'Drug Ed' course in schools is not actually Drug prevention courses, rather no-directive and psychological. If your school will not show you the drug educational material, or if the material is not teaching that drug use is wrong, then report this violation to, Mr. William Wooten, Drug Free Schools, and Task Force U.S. Department of Education, 400 Maryland Avenue, S.W. Washington D.C. 20202. According to Phyllis

Schlaflly if we can make the schools obey this law and finally teach our children that something is wrong, we might then be able to teach them that illicit sex is wrong. Eagle Forum will take up this crusade once more, perhaps this will be a turning point in the drug war in the schools.

America 1990-1991, is the only power in the World today that is a political power, and economic power, and a cultural communications power with Global reach, and Global impact. As we win the cold war can U.S. Leadership win World Peace with the Rising Kingdom of God taking over from the Powers of Darkness and the Kingdom of Light although our people hardly seem to realize this. I notice as I read many publication that the Identity people are not calling attention to the fact that the Arabs are our 1/2 brothers in this Gulf Crisis, they call them Barbarians and so forth. We believe that America has now found her place as the only Super Power, and is the Air Age Leader.

Yet none see the Emerging Kingdom and yet they call themselves Identity. We feel that America must rise as the leader of this emerging Kingdom. Perhaps I am looking for fulfilment of prophecy instead of just identifying the crimes of the Jews. They are only doing what you would expect them to do, and we need to point out what we should be doing as the Kingdom Rises. Perhaps I am dreaming the Impossible Dream, but I am looking for that Stone Kingdom not made by hands, to rise and rule.
