THE MOSCOW SUMMIT IS OVER, THE EFFECTS OF IT, OR THE ACCOMPLISHMENTS WILL NOT SOON BE KNOWN. Is he through with using the Soviet Union with 'Hooks in their jaws', controlled for a definite purpose? Time will tell. I noticed that Mrs. Reagan was able to call attention to the fact that Russia was once christian, even though Mrs. Gorbachev passed quickly over that part of the exhibit they were looking at. Mrs. Reagan was able to call attention to the part that religion played in the development of Russia before it became the Soviet Union.

I also noticed that those men in America who have played the Soviet Union and the United States against each other for many years, such as Henry Kissinger and those who follow his lead are now against this treaty signed by the two nations. One would think that they were worried about the power of this nation to defend herself, after all these years they have worked to disarm America. Perhaps since they are against the treaty then it will work out to be good for us.

Now; Mr. Will Loy sees the world situation as though we here in America are in the 'eye of a hurricane'. Remember there are three stages to such a storm, and we then have passed through the outer ring of that storm and in that passage had Bank Failures, Stock market crash, the drug problems and much racial unrest as well as the loss of morals and so forth, and now we are in the centre of the storm which is usually a 'deceiving calm'. Mr. Loy feels that as impatient as we usually are as a people, that we may believe our troubles are all behind us and forget that with the hurricane this calm most times means that the storm is building up strength. And we are to remember that we have to make this trip out from the centre of the storm and it may be far rougher than the entrance into it. (We feel however that perhaps the exit will also bring on the Kingdom administration). Mr. Loy sees a 'Dark time' yet for America, and he has

been told in his vision that, 'it is justly deserved'. However he also sees a 'Bright Shinning Light' in the midst of this 'Dark night' for America. This 'Light' is something most people will not be looking for because this is 'Spiritual Light'. Thus Mr. Loy suggests that we look away from sex, money, lust, drugs, sports and all temporary things, that now enslave the soul of America, and look toward this New Spiritual Beacon. Those who do this will find not only new spiritual doors opening for them, but also 'physical doors', in fact doors they did not even know were there.

As to the coming election, Mr. Loy thinks that most people mistakenly believe that it makes no difference who is elected, and in their ignorance we find the Presidential Election 'boring'. But the outcome of this race could end as being the single most important development of the century. The very fate of the nation, and much of the world hangs in the balance, with millions of lives. Mr. Loy believes that this election is already 'sealed by fate' that it will be a very close vote, perhaps only a few thousand votes will elect the next President. He also believes that the voters of America are going to make a big mistake in November which will put us into this 'Dark night' of Despair.

Mr. Loy was told once in a vision: 'Bless the Peace Makers for they shall destroy the earth (we would say, the world order) and all those who worship IT.' Mr. Loy also predicts local Weird Weather patterns. And he says that something will happen in the Soviet Union in July of 1988 that will set the course of the Soviet Union. So be watching to see if we can figure out what. He also says that the real war on drugs will be fought and won after we pass through this coming 'valley of Dark Despair', which also holds this Bright Shinning Light. From the Revisionist Publication: The word NAZI, as used today is the Yiddish pronunciation of the word, National. Remember the Government of Germany under Hitler was termed, 'National Socialist'.

From Scripps Howard News Service: Headline, NAACP wants Statute down in a hurry. Memphis: It is hard to be a statute of a Civil War General. Birds sit on your head, sandblasters make your life the pits, pranksters smear you with whitewash, thieves steal your sword, and civil rights leaders demand you be removed from the park which bears your name

The Statute of General Nathan Bedford Forrest has stood in the Forrest Park near downtown Memphis for more than 80 years. The NAACP now has plans for protests aimed at removing this 9,500 lb., statute, renaming the park and even removing the earthly remains of the General and his wife from the park.

This attack on General Forrest, one of the South's Greatest generals is based on the fact that at one time he was the leader of the KKK. What is forgotten is that General Forrest was not the villain they now try to make of him. He was a compassionate man who refused to break up Black families, or sell them to cruel owners. He opposed the secession of Tennessee from the Union. When the war broke out he and 45 of his own slaves served his land. 18 months before the surrender he gave those 45 their freedom. After the war came the Klan which served its purpose of saving the South. Then he disbanded the organization as it began to turn roudy. The modern Klan was not formed until after W.W.I.

The reason they want to move the Statute is because his bones lie under that statute. (unquote)

The conduct of House Speaker Jim Wright is to be investigated. We have watched the rush to Independent Prosecutors, and the spending of lots of tax payers money on investigations, for months at a time, in the Iran Contra affair, what will we see now?? Keep watching for how fast this will be buried.

Jesse Jackson has a new top advisor, none other than Bert Lance, remember Him??

The unseen government is at work again through the State Department and in Central America. On the Island of Jamaica, just below Cuba, the capital is Kingston, and this island has one of the world's great harbours. Back in 1980, a man by the name of Manley was the ruler of this island. We found that he was sending young Jamaicans to Cuba for guerrilla training. The country was infiltrated with Cuban intelligence forces and several thousand military personnel disguised as construction workers. Andrew Young, U.S. ambassador to the United Nations was a great friend

of Manley and acted as his champion in the U.S. Congress, misrepresenting and excusing his extensive human rights violations, which included political murders.

In December of 1980 a man by the name of Seaga was elected and he has brought that country out of a Marxist economic disarray and into a western political orientation. In fact Seaga has become the leader of the Democratic forces in the Caribbean and has helped countries like Guyana to throw off the Cuban embrace. Now, an election will soon be held and from all reports, Seaga will win IF the U.S. State Department will stop supporting Michael Manley. Even though Manley heads the party out of power, and is challenging the President of that country, he is being invited to Washington and widely courted. On the other hand, assistance to the existing government already in the picture is being cut drastically.

Now; Robert Morris, the chairman of the National Committee to restore Internal Security, a long time National Advisory Council member who did this investigation tells us that the Drug Dealers are quite open in their support of Manley. But the people who like the economic stability, low inflation, and substantial growth in GNP that Seaga has brought to their Island are afraid that because of the U.S. State Department economic and political blight that existed in the 1970's will return to haunt this important Caribbean nation.

There is now being asked this question: is Noriega of Panama the total bad man portrayed or is he but another like Marcos of the Philippines being used as a cover? We are beginning to wonder. Are these now baying at the heels of General Noriega suspect? Is there a fear gripping the Eastern Liberal Establishment and their major Wall Street banks that Noriega might expose their drug connections, and the vast sums of dirty money flowing like a stream through those Panamanian Banks.

Remember the Panama Canal Treaty was brought to the table for signature by the massive power of the American and British Banking houses, namely the Rockefeller-Chase Manhattan Bank, and the Sasson owned banks of Britain. As we have told you before 'The Rockefeller's Caribbean Basin Initiative' is a CFR organization which behind the scenes pushes the sale

of drugs from the Islands. They pay for Nicaraguan Students to attend the Jesuit training school at Loyola University in New Orleans, this is a principal training ground for students to be indoctrinated and sent back to Nicaragua, and Guatemala. Most of the referrals to Loyola came via the drug carrier, 'United Brands'.

Nicaragua thus became exactly what the CFR intended as has Panama, and the President of the U.S. was outfoxed by his advisors and today Noreiga is what he was built up to be, but it seems he has rebelled at being asked to take the heat and leave the cover on the Drug Racket. Senator Kerry held a hearing which took the form of a 'witch hunt', the chief witness, Jose Blandon lied, contradicted himself left, right and centre. It turns out that he was a paid CFR informer.

Dr. Coleman then tells us that he has learned that General Noriega is preparing documents which show he had the absolute backing of the Drug enforcement agency (DEA), and that he was lavishly praised for his anti-drug work in Panama, by no less a person than the DEA head, John Law. Noriega is supposed to be in possession of documents that will blow wide open the heavy involvement in the Drug trade of certain U.S. Banks in Panama, which are believed to involve several prominent U.S. politicians. (Possibly those who scream for his hide????) However Henry Kissinger, David Rockefeller and Max Fisher of 'United Brands', will not stand idly by and watch Noriega wreck havoc. Dr. Coleman says that if Noriega caves in and resigns then this upper level CFR wing of the U.S. Government will once again have triumphed over the American people.

When Robert Morris was in Nicaragua he was surprised to learn that Jimmy Swaggert was holding a revival in the shadow of the old Catholic Cathedral that was destroyed by an earthquake in 1972. Mr. Morris attended the meeting where mostly women and children attended, about 5,000 of them. Then he was taken to a 'Revolutionary mass' and instead of scripture reading of the mass, a woman reader intoned for 10 minutes on the life of Padre Camilio Torres, in Columbia in the 1960's. He was allied with the notorious terrorist Che Guevara, who died in Bolivia at about the same time. Parde Camilio is considered to be the Patron saint of 'liberation Theology'. When the time came for the first hymn, then in

both English and Spanish the people sang: 'We shall overcome'. This is a portion of the problems in the Caribbean, the T.V. ministers, the big bankers, the drug ring operators care nothing for the people of any nation, their god is money.

Have you noticed the drive for a Federal Administration set up to control Baby sitting, with layers of bureaucracy handing out subsidies only for children who are put in special federally regulated, secular institutions. Meanwhile the Federal busybodies would regulate all day care, including the family, church based, and for profit day care, even though they get no benefits. Phyllis Schalafly has a much better idea, which is, 'The Holloway child care Bill number HR 3944. This bill would give a cash credit of \$150.00 to \$400.00 to every preschool child. The parents would then have 100% freedom of choice to select the kind of child care they favour, mother care, relative care, in family neighbourhood care, church based care or for profit care. That's the **AMERICAN WAY**.

We are coming to the end of the Reagan Presidency, and we have looked at the hindrances thrown in the way of other presidents to accomplish their goals. We think we should tell you how, the program was put in force to counteract the so called 'Reagan Revolution' which was to build the defence of America, to bring back a feeling of Patriotism and respect for this great nation. We find that hundreds of new organizations were formed to minimize the United States defence establishment. These left wing organizations make no bones about their purpose, which was to stop the build up of defence of our nation.

They formed an Anti-defence Lobby, and then moved to infiltrate all old organizations to bend them to their philosophy. The Religious Left, the Hierarchy of America's mainline Protestant churches joined the Anti-Defence Lobby and their Clerics came to Capitol Hill and had a great impact. Outside the mainline churches of this nation are also so called religious organizations, who collaborating with the Hierarchy are also opposed to our Foreign Policy and Military policy, especially with that in Central America. There are also Catholic orders as well actively assisting the enemy in Central America, many of the Sisters organizations have been infiltrated and turned in their thinking.

One of the most remarkable Academic opponents of a strong defence is a small centre at Harvard, this professor, Gene Sharp, called for unilateral disarmament by the west with a subsequent takeover and occupation by the Soviet Union forces. Ralph Nader has worked always at College Campuses for the Rockefeller influence, on the left which resulted in youth of the 60's and 70's who are now executive directors, and advisors of Anti-defence organizations, thus as older leaders die off new ones take their place.

The money for these Anti-Defence organizations come from the, Carnegie Endowment for International Peace, based in Washington D.C., and from the 'Ford Foundation' and the 'Rockefeller Foundation', same old gang. Pro Communist congressmen such as Christopher Dodd (D-Ct.) and Charles Mathias (R.-Md.) support the philosophy, as does the Congressional Black Caucus, and such women's groups as Peace Links, set up by wife of Senator Dale Bumper of Arkansas.

Even a small number of retired military and Naval figures, are for arms control, and the Anti-Defence Publications play a large part also in the Anti-Defence movement. Communist money also pours into these organizations for they want SDI ended entirely. It scares them, this idea that America be able to protect herself. History will probably record that the 'Boland Amendment' vote to outlaw Contra aid was probably the most telling blow struck by the Anti-Defence Lobby in all its campaigns to influence American public opinion.

Now; perhaps the biggest piece of what we would call folly was the notorious 'Dear Comandante' letter addressed to the Chief of the Sandinista Junta in 1984. It was signed by 10 influential Democratic members of the House of representatives: Jim Wright, Michael barns, Bill Alexander, Matthew McHugh, Robert Torricelli, Edward Boland, Stephen Solarz, David Obey, Robert Barcia, and Lee Hamilton. Then Ortega rewarded these men by traveling to Moscow to ask for arms and funds. Senator John Kerry (D-Ma.) is the keynote Speaker for organizations to promote nuclear weapons freeze concept. He is a most outspoken congressional opponent of a strong National defence in U.S. policy in Central America.

In the Philanthropy world advocates of social change and in minimizing or elimination of American military strength have made it their business to infiltrate and obtain seats on the boards of old line Charitable institutions to influence the spending of the money taken in.

The West German radical Red, Rude Dutschke gave the slogan for taking over all communications to be used for the 'Left' cause. He said: We must, like Mao Tse Tung, make a long march through the institutions, and those institutions are listed as, the church, the school and the media. Today what do we find after this intensified drive? Look around, in each field, anything to keep America divided, by creating every kind of trouble so as to keep our minds busy while they move to morally degenerate our society because the more morally degenerate our society becomes, the more morally degenerate we become, as our high standards and honour falls, then the rulers of our society are changed until everything rests on fleshly desires. The Christian principals we had which the strong spirit of the pioneers hoped to leave as an American Legacy, is by work of the Left, believed to be gone.

We however think it is not really gone, just hidden for a time. The Zionist using the serpent and the globe have planned for the head of the snake to gradually proceed around the globe until it reaches its tail which they believe means the grand and permanent completion of their program, according to the Protocols of the Learned elders of Zion. Thus divide and conquer is the historical program of International power. Play black against white, red or Oriental against each other, use disputes over religion to divide and if all else fails then use the ploy of 'anti-Semitism'. Turn Christians against Christians when they interpret scriptures for both, these are all tactics which have been stepped up in these last 8 years. President Reagan failed to bow at Reykjavik but the pressure was still on, and we will have to wait for the outcome of this last Summit, but we also wait to see what **YAHWEH** has in mind.

A 2,000 year old ancient scroll has been found along the banks of the Dead Sea and it predicts the course of human events until the time of the end. So claims Dr. Konrad Dick who found the scroll on February 26, 1988. He calls it the most important archaeological discovery since Grench

soldiers stumbled on the key to Egyptian hieroglyphics, the Rosetta stone. This scroll is reported to have told of the influence of Jesus Christ long before he was born. It also predicted the discovery of America by Columbus and both world wars. It is written in Hebrew, it is one prediction following another until what they interpret as the end of the world to pass, and says that this scroll is more accurate than Nostradamus the famed 16th. Century psychic.

The main things we are interested in is that they say they hope to publish a full scientific report as early as next fall, and we will be watching for that then maybe we can tell more about these predictions given here. So please be on the lookout for this and if you find anything let me know. Of course you will see certain people race to interpret it since it is in Hebrew but maybe we can take that into consideration and still get something out of it.

Wonder if the so called Pentagon scandal is a cover for the investigation of the Speaker of the House, it sure knocked that out of the news??

**Until next time may YAHWEH Bless,
