## **The National Health Service Corps, Scholarship program from Insight**

**T**HE IDEA WAS FOR THE FEDERAL GOVERNMENT TO PICK UP A SUBSTANTIAL AMOUNT OF A MEDICAL STUDENTS BILLS in exchange for a promise that the young Doctor will serve in poor areas short on Medics. This is how the program worked for one doctor, Sheila E. Carroll. By the time she was through school the taxpayers were in, to the tune of \$94,000.00 for expenses at Georgetown Medical School. The trouble then was that Dr. Carroll was assigned to an Indian Reservation to work, and she did not care for that location. She chose a poor urban area in New York, or Washington D.C. These areas would be within commuting distance of some of the nicest neighbourhoods, where Doctors live such as Scarsdale NY, or Rockville Md.

Dr. Carroll did not care for the idea of paying back the loan plus interest, and being free from the program, so she took her case, and her \$100,000.00 annual income to Bankruptcy court, but the Judge dismissed the case calling it an abuse of the Bankruptcy code. Now; the good news is that Dr. Carroll owes the taxpayers \$719,000.00. The bad news is that there are more than 500 former medical students in default on loans like this.

From Buchanan on the Right. The Great Society handouts led to permanent dependency, and permanent resentment. The Great expectations of the Civil Right Revolution, and the Great Society were wildly oversold. The Government could remove barriers and did open doors, and for millions of blacks the world opened up. They became Doctors, Lawyers, Journalists, Generals, and Governors, and TV Anchors, but for millions of others who lacked the skills or capacity to keep up in the most competitive society on earth, then there was only the Great Society handouts to try to raise them to the same positions, and it did not

work. Demonstrations do not bring self-esteem; and while dignity is something a government can take away, it is not something government can give back with a green check. This keeping track or score keeping on how far behind the Afro-Americans are in Income, as also the Hispanic-American is scored has been seized upon by racial demagogues and hyped to portray the blacks as victims of society. All these have led to this startling number of stories in the press today as to racial conflict in the U.S. We are thus heading for big trouble in the U.S., we seem to now be divided into two countries. And those who have subsidized this program of The Great Society are growing weary of throwing money at a problem which does not seem to end. Jack Kemp used the figure of 2 Trillion dollars for the cost of all Great Society. War on poverty programs over the last quarter century. And what did it buy for us?--Look at the cities, the inner cities of this country today for your answer.

### **From Insight Magazine:**

Infant death rate in the U.S. is dropping but not among Blacks. Buried under Political Orthodoxy, are troubling indications that the major Federal programs aimed at helping the children are not working, and may even be undermining child welfare.

The 2.3 Billion Federal Food program for women, infants, and children reaches 1/3 of all babies born in the U.S. It has now been determined that the behaviour of the mothers, smoking, drinking, using drugs during pregnancy is more important than inadequate nutrition. Louis W. Sullivan, Sec. of Health and Human Services, says the top 10 causes of premature death in our nation are seriously influenced by present behaviour and life-style choices. This seems to be the opinion of most reviewers.

### **What Kitty dragged in, by John Podhoretz**

Speaking of the book unauthorized Biography of Nancy Reagan, is like taking a bath in a Dumpster. Last year the publishers Simon and Shuster cancelled the Publication by Bret Easton, Ellis's novel 'American Psycho'. Having read both books John Podhoretz said: without reservation Kelly's is far more shameful, the people who run Simon and Schuster should be

genuinely ashamed of releasing such a defamatory piece of trash. After all there is no back way to the White House, and especially during the security days of the Reagan Presidency after the shooting of the President.

## **Insight Magazine**

Donald Kagan, Yale's dean of under graduates stands at the heart of a raging storm on America's Campus's. A battle over the very essence of Academic freedom now rages. Kagan a respected scholar who sees Universities as a marketplace of ideas, has met the limit of his vision. He finds himself an enemy of the PC (Politically correct) self styled progressives, who vie for a place where words offensive to certain people will never be uttered.

At the opening of the school year when the new students (1,400 freshmen) with their parents were gathered, the second speaker was Donald Kagan. He called their attention to the fact that Yale University once was an all male shock, but now has a student body that reflects American variety more than ever before, and said that Yale's diversity is a source of strength, and should be a source of pride as well.

Then the Dean moved into a more dicier territory. He urged the students to study Western Civilization, since this was something they had in common, and that the West had developed democracy, and established laws to protect individual freedom, and was the source of scientific revolution which made life easier for everyone. He also acknowledged that there was a down side to Western Civilization such as slavery, still we must not fail to learn the great traditions that are the special gift of Western Civilization, which is the main foundations of this University, and our country.

Racist, Sexist, screamed the students in response to the Dean's speech. Black student leaders denounced Kagan's remarks as 'obnoxious' and called for a complete review of Yale's 'racist curriculum', to root out any vestiges of WHITE superiority, and hegemony (a favourite word these days). The women's groups were also very vocal.

The Dean was accused of emphasizing the West at the expense of the World's other cultures, but 'no one has a monopoly on the truth'. The Dean had violated two of the most closely held taboos on Campuses today: 'Thou shalt never say anything good about the West; and also never suggest that students study such a thing.'

This battle began as you know in the 60's; its goal remains the same, to make Universities conform to leftist notions of Utopia. In other words to transform American Universities so they will be places. 'Safe for women and people of colour, where **WHITE** men no longer set the rules.' Many of the groups profess to represent the Radical Feminists, Gay Activists, and those who claim to represent African-Americans, Asian-Americans, and other ethnic groups.

The P.C. wants a University that creates an atmosphere in which they will never hear a word that offends them, (racial or sexual epithets for example), but where they are free to be themselves. This of course is not education, it will not prepare them for the real world. An assistant Dean, Melvin Wade who is director of the African-American Yale Cultural Centre had this to say: (quote) In the Eighties I realized that sometime at the end of the next century, people of colour will be a majority in this country. What is called for then is a total educational experience in living together, in the classroom, and out of it. Multi cultural education is thus the answer, it will help Americans to learn to live in the next Century. (unquote)

Today we find that Yale is besieged by high crime rates. One student was murdered in February, and rape is common. Conservative and moderates find it hard to voice an opinion, so great is the contempt for those who will stand for the P.C. Actually this group of P.C., activists is not large only about 200 or 300 students out of 5,100. But they are so vocal, they can count on the vague assent of a majority of the students. They can count on a large segment of the faculty as well, especially those fields such as social sciences, humanities, or area studies; African-American studies and Women's studies and so forth. With this in mind it is not surprising to find a Witches Coven at Yale, with membership of about a dozen who under

a full moon wander across campus as the Spirit moves them to explore their deepest feelings as Women, according to their publication.

Dean Kagan has stood firm against approving openly, 'Gay Counsellors' for freshmen. ROTC is also no longer on Campus, and last year several students tried to bring ROTC back to the Yale Campus but posters went up and Gay activists and their sympathizers objected because the Armed Forces refuse to allow Gay men and women to serve in the military. In fact the Gay activists may be the most strident of all with their chapters on campus, the ACT-UP, and the Queer Nation, the most vocal and radical Gay groups in the U.S. scream about inadequate government funding for AIDS research and care.

In spite of its many successes P.C. is not as vigorous and potent at Yale as it is on other campuses, such as Duke University, or at Amherst (Massachusetts) or the University of Connecticut. The reason, more faculty like Donald Kegan will not bow. The President, Schmidt, also stands firm in favour of free speech, and those like Kagan back him up. Professors however teach a feminist-Marxist interpretation of such as Shakespeare's Macbeth, as an anti capitalist parable. Macbeth according to this interpretation is a play written, at the Historical dawn of present self-cantered Capitalistic culture. But the P.C.'s are worried that Kagan is out to make changes in the achievements they have won in the last recent years.

### **The Associated Press:**

Three Archaeologists crept over rocky precipices, past dozing rattle snakes and through rooms deep in the wilds of Arizona to make the first discovery of American Indian Catacombs. One of the Archaeologist says: 'it is absolutely mind numbing.

These underground chambers dating back to 800 years ago include tombs, and graves along with massive ceremonial chambers. It will change a lot of what we believed about the Indians in the South West. (Ha) They may have been far more advanced than we believe.' The idea of a very elaborate form of Ceremonial chambers being built underground hundreds of years

ago is surprising to those (who do not realize there were Aryans who came out of Mexico as we have outlined for you before.)

This 15 acre settlement known as Casa Malpais was discovered about 100 years ago. It was known to have a 3 story masonry Pueblo, a large complex used for religious ceremonies, stone staircases and sacred chambers. Several hundred graves have been found, including some under the floor, under stone cairns, and in wall tombs. Hohmann said none of the burial sites will be disturbed. Perhaps this is best for if it was discovered these were Aryans buried here these Catacombs might be destroyed. We say leave them a little longer until our own people awake.

It is becoming more clear every day that the program of the One World Order manipulators was to pull back Saddam Hussein's forces which they knew could not stand before American leadership and Allied forces. Then as we moved toward Bagdad the civilians would be used as a shield before the salvaged Red Guard.

The Helicopters and Planes saved back would be used to deploy the Chemical warfare, and civilians and Allied forces would be wiped out in that Valley of death along the Euphrates River. The Soviet Forces have no place to go as they leave the eastern European countries, there is no food or homes for them in Russia. What better place for them than to be thrown in on the side of Iraq, and perhaps in Iran and American troops would have been trapped? Could it have been YAHWEH who convinced the President to stop the war when he did, even though he knew not?? The Press then began to blame the President for the plight of the Kurds, ignoring the fact that they had ignored the plight of the Kurds before. As you watch this situation, think back to the history of this old land as it pertains to Scripture. When the Right God was followed in the beginning, what a change.

I think that the story that linked the President to the Iran-Contra affair at the time that Jimmy Carter was being denied a second term in the White House is going to die on the vine. Politics is dirty, this we know, but this story was simply built on innuendoes and hearsay, as a desperate gamble that it might produce fruit.

Guess who Kitty is going to write about next: so Human Events says. Kitty who wrote the story about Mrs. Reagan is now said to be planning on writing about Teddy Kennedy, how about that? She will be busy with that story for some time I would think. Some of the Kennedy's friends say that they are encouraging him to stop drinking, it appears that he is going to have to do something to win another election, maybe this will be the route and then sympathy will win the day.

### **By Dan George Associated Press Writer: Athens Tenn:**

This Tennessee church drops Baptist heritage to study Judaism. Rev. J. David Davis looks and sounds like a typical Baptist preacher, but when he steps to the pulpit he is discussing passages from the Bible as they relate to Judaism. He believes that the Talmud's seven laws of Noah contain the core of God's intended religion for non-Jews. This Emanuel Baptist church which he heads has abandoned its fundamentalist heritage to seek spiritual guidance in Jewish thought.

The congregation known as Children of Noah, their pastor says that in 1986 they came to grips with the fact that Christianity is Paganism. Thus they now reject the concept of the Virgin Birth of Jesus, and the idea that He raised Himself from the Dead. They believe that Jesus was just an important Rabbi. They removed the Church steeple and cross in 1989 calling them pagan symbols, and removed the words Baptist and Church from the sign in front. This movement seems to be growing. There are informal study groups in Houston, Kansas City, Mo., and Minneapolis, as well as in Belgium and England. Every month Davis mails out hundreds of newsletters and cassette tapes to an increasing number of inquirers.

## Dr. Wesley A. Swift

Dr. Wesley A. Swift, the son of a Methodist minister, was called to preach in his teens. He was a dynamic, inspired speaker who taught uncompromising Biblical truths ignored by modernist ministers.

His anointed preaching brought forth a high spiritual dimension of understanding to the Kingdom Identity message, giving “life” and “power” to the Sacred Word. Even the antichrists acknowledge that, “Wesley Swift is considered the single most significant figure in the early years of the Christian Identity movement in the United States.”

Dr. Swift founded the Church of Jesus Christ – Christian in the 1940’s, a ministry that spread the Kingdom Identity message nation-wide to YHVH’s Children, the White spirit-race known Scripturally as “sons of God”. By teaching these truths

to true Israel, this warrior-priest put fear in the hearts of the enemies of Christ. Following Dr. Swift’s death in 1970, his widow Lorraine Swift faithfully carried on the Church of Jesus Christ – Christian. We are highly honoured to be able to continue Dr. Swift’s work, by placing those works that we have in print here on our web site ...preserving and earnestly contending for “the faith which was once delivered unto the saints”...for any and all to read.

We, at the Covenant Church of Yahweh hope that you will study, enjoy, and appreciate Dr. Wesley Swift’s works.
