Subjects:

- 1. The Great Pyramid of Giza**
- 2. The Seal of the U.S. and the Pyramid**

QUESTION: The Great Pyramid of Giza, is there a connection of this Pyramid and the one of the U.S. Seal, and what about the Sphinx?

ANSWER: This is a three part question, and before we consider the Pyramid we should study the Sphinx, for the two are connected in symbolism, and the same people built the Pyramid, the city of ON with its Temple, and the Sphinx. First then, the Sphinx.

This is a symbolic Temple, it has its relationship to the Masonic order which originated in the ancient Mystery Schools founded by Enoch and Job. The Sphinx is an incumbent Lion with a human head. Symbolically this is YAHSHUA the 'Lion' of Judah who would be the ruler of the nations of Israel. The Sphinx marks the end of the Zodiac as well as the beginning, for a figure of the Sphinx was placed in the Star Map on the dome of the Temple in the city of ON, between Virgo and Leo, thus beginning with Virgo and ending with Leo, is the story in the heavens.

The symbolism in the Sphinx is also contained in the Pyramid but in greater detail. The incumbent Lion with the human head carrying forward the symbolism of the chambers inside the Sphinx which come together in the Pyramid in the areas known as the Chambers of the Kingdom.

At one time there was a temple between the paws of the Sphinx, some traces of this Temple still remain. It was to this Temple that Joseph and

Mary took the baby YAHSHUA (Jesus) for safe keeping. Here they stayed under the protection of the White Priesthood until they returned to their home in Nazareth. You used to find Christmas cards with the picture of Joseph, Mary and Jesus between the paws of the Sphinx, that was the reason for them.

Now; there is a hidden Temple under the Sphinx, there are 33 steps down to the doors of this hidden Temple. The 33 steps portraying the years for YAHSHUA to walk on earth for the atonement. Inside this Temple is a large amphitheatre held up by 10 pillars. There is also two entrance pillars. There is a smaller circular room at the rear of the large amphitheatre with a door opening into it. And in the smaller room are two pillars. Notice the symbolism, the two pillars of wisdom, the division of the House of Israel into the ten tribes and the two, with Levi not counted, but scattered through all the tribes. Remember this Temple was built by Enoch and Job, and their great company almost 5000 years before The Christ. They have not opened this Temple under the Sphinx as yet, but that is what they will find. George Washington was a master Mason in his day, and knew about this symbolism, and wrote a paper about it, as he did also for the Pyramid. Thus this knowledge came down through the race, even to this day.

There is an underground passage from the back of the Sphinx up into an area of the Pyramid known as the Kingdom area. This passage has been sealed from the time of its beginning, and there is no way we can force its entrance. At one time sand had filled in almost up to the paws of the Sphinx, but they have excavated down almost to the level of the entrance chamber. There is a small door at the back of the Sphinx also, but for some reason the Egyptians do not let anyone enter that door.

Yes, the Sphinx is more than meets the eye. It is not just a great massive idol monument, but in symbolism it is the ultimate reign of YAHWEH as YAHSHUA of the Universe, as King of Kings over the earth.

Also found in its symbolism is the destiny of the tribe of Joseph with their part of the Kingdom story. Joseph spent a good part of his life in Egypt and the two Obelisks marked his two sons. In London, England where the one Obelisk which marks the path of Ephraim rests, they also have a

Sphinx on either side of it. I do not find that to be the case with the one in New York which marks the path of Manasseh.

Moses was also raised in Egypt, and schooled at the city of ON, and knew of these monuments and their symbolism. While Isaiah would later record: 'A virgin would conceive and bear a son'. He was to come of this line of Judah. Thus the incumbent Lion with the human head as also the capstone of the Pyramid, it had to be perfect stone.

In fact a pyramid itself was all that would fit on the pyramid, and must weigh more than any individual block in the pyramid. The builders were not able to cut such a stone, or for a reason they understood, they did not put the capstone on the pyramid. The Swift library contained many volumes on just the Sphinx alone, and there is much more to this fabulous building, but I am only trying to give you a short summary of these measures so that you will want to study the old markers of the race with their Gospel stories portrayed in symbolism so long before enacted in the physical.

As for the 33 steps down into the underground Temple, you have also saw these portrayed before, even in the heavens Enoch saw 33 steps leading up tot the Throne of YAHWEH, with Seraphim on each side of the steps and around the Throne. Then in ancient China after the Lucifer established his kingdom in earth, he also fashioned a throne and it had 33 steps leading up to it, but along the side of those steps he placed Dragons.

Napoleon went to Egypt and he is the one who shot at the Sphinx and chipped an ear. The British government then became interested, and began working with the Egyptian government to preserve these ancient monuments of Egypt.

NOW AS TO THE GREAT PYRAMID:

Isaiah 19:19 records: 'And in that day shall there be an altar to YAHWEH in the midst of the land of Egypt; a pillar at the border thereof'. Some will say that the Pyramid is not mentioned in some versions of Scriptures therefore this has no meaning for us, it was just a burial tomb for some Pharaoh as are the other pyramids.

We will just say that the Great Pyramid of Giza is still there. It is the only one of the Seven Wonders of the World still standing. The Pyramid was built in the time span of 4900 B.C., to 4500 B.C., in the life span of Enoch and Job who were the Master Builders of the race. Master of Egyptology and Masters of the British Museum recognize that the date for the building of the Great Pyramid, the Sphinx, and the city of ON with its Temples was long before the flood of Noah's time.

Some Pyramidologists try to date it after the flood using a date supposed to be found in the circumference on the outside of the Pyramid, but Enoch and Job were the Master Builders, the two Pillars of our race with the knowledge to produce these wonders, and they lived much after the flood. Then also some Pyramidologists refused to accept the fact that there were people on earth long before the Adamic race, and thus miss the symbolism and the promises which belong to this race. The word 'Cheops' found inside the Pyramid was just a Greek word for Khufu, the name for many Egyptian Pharaohs, and no Egyptian Pharaoh built the great Pyramid for a funeral chapel, that was built outside the Pyramid, long after the Pyramid was erected.

Job talked of what he hoped to do, which was to transcribe, to carve in the rock and seal it forever that His Redeemer liveth, and would stand on the earth in the latter day. (Job 19:24-27) This is exactly what Job helped to do there in Egypt for as the Pyramid was built, all those casement stones, all those indentations were sealed, and the sockets were sealed in lead.

Since most of you are familiar with the dates found in the interior of the Pyramid as they have been published at least through Identity, I won't touch much on those dates, but will try to tell you other things about this wondrous symbolic Temple.

The Great Pyramid was built as a spiritual measuring instrument of the heavens. Not only just to measure the equinox processions as they relate to factors of earth, but to also measure the progression of measures as they related to prophetic time measures of earth. In it was the measure of one inch to the year, and thus given measures would start at given points in history to take on their significance forward and backward. Thus the

Pyramid Inch of Measure and the Enoch Circle are something given to the Adamic race, and must not be abandoned for the World Order Metric system which they are trying to push over on us.

Men not understanding the basic identity of the Adamic race cannot then understand that there was a source of Light Power available to Job and Enoch for the building of these great memorials, laying out the symbols and identification of a race of people from heaven who came to earth to bring this portion of the Universe back to its place in orbit of the circle of YAHWEH'S Universe. They don't realize the symbolism which is laid out in the Gospel of the Stars, that is tied to these monuments built in the early days of this race. But these symbols tie heaven and earth together in this march to establish YAHWEH'S Kingdom in earth, then develop it until it is 'as it is in heaven'.

Now; the Pyramid covers 13 acres, carrying out the symbol of 13 tribes after both sons of Joseph were counted by Jacob-Israel. Later YAHWEH ordained Levi not to be counted, but to be His Ministers forever, thus the Divine number 12 would still be in place. But then this number 13 is used much in the story of symbolism, and even in the Star Bible.

This Pyramid is the worlds most massive edifice symbolically and by measurement, declaring the great Divine Plan of the ages, from the beginning of the Adamic race until their work is finished in earth. If measures be right this was to be accomplished in 8400 years with Adam out of the Garden 5407 B.C.

The Great Pyramid stands ten miles southwest of Cairo, Egypt of today. It stands on the northern edge of the Giza Plateau. Its weight is 5,500,000 British tons. The largest and heaviest building in the world. With the large dazzling white casing stones in place on each side it had an area of 21 acres of this reflecting surface like great beams of light as the sun shown on this marvellous structure, and those beams went out for miles around. The ancient Egyptians gave it the name of 'Light' and 'Glorious'. The Hindu called it the 'Golden Mountain'. But to our race it was built as the Bible in Stone. The Glorious Light. And contrary to what you might have heard or read there was no slave labour used in building the Pyramid. No, the

Savants were Master Stone Artisans, and under the guidance of Enoch and Job, and with the power of Light from the box given to Enoch in the Heavens, these great stones were moved and set in place.

There are 12 different statistics revealed by the Pyramid, some of these are: The Sphere shape of the earth with allowances for the flattening at the poles, the procession of the equinoxes, the length of the earths axes of rotation, the weight of the earth and so forth.

The Pyramid is scientifically placed on the earth, its four sides face accurately north, south, east and west. It is built in the geographical canter of the land mass of earth, and it stands on the longest land contact Meridian on the earths surface. It is designed on the basis of Pie-ratio, this being the mathematical ratio upon which the whole physical Universe is designed. The word 'Giza' is an Arab word meaning: edge, or border, thus it is called the Great Pyramid of Giza.

There are thus two types of altars, those for sacrifice, and those for witness. Thus the Great Pyramid is in the midst of Egypt and yet at the border of the great desert, and yet it 'shall be a Witness'. Today it speaks with its wondrous story of Resurrection, and so much, much more. The top Stone was not put in place by the builders although they left stones as tho they considered them, but this top stone has to be a perfect Pyramid itself, and a model for the whole edifice. In the Scripture you are reminded of 'The Stone which the builders rejected, the same is to become the head'. Or as we would say: The Chief Corner Stone. In other places this stone is referred to as a 'Stone of stumbling, .a Rock of offence', and of course they were referring to YAHWEH, WHO CAME AS YAHSHUA to gather unto Himself, 'gather in one' all things in heaven and earth.

Some will say: but does not the Bible tell us that the Scripture is sufficient, that the man of God may be perfect and thoroughly furnished, so why bother with studying the Pyramid? We answer that in studying the Pyramid you are not going outside the Scriptures. It is only that the time has come for this Great Witness to speak. This is the Bible in Stone, and helps round out our story. Remember the ancients called it the Pyramid of Light, and today we need all the Light or truth we can find, for much has been discarded.

The Pyramid has descending passages connected with Satan, the grave, death and so forth. And it has ascending passages symbolizing great and wonderful things. Both slope at the same angles but operating in opposite directions. The one ascending to Life where both chambers have air vents. Those in the downward quarters had no need for air vents for what they symbolized.

Now; as the Pyramid was built, looking out from the descending passage you would have seen the Polar Star. At one time this was in Dragonis calling attention to the fall of Lucifer from the heavens, and his confinement in the pit. This descending passage was the symbol of 'The wages of sin is death', the grave, the place in the Netherworld for the Adamic spirit. But overhead at the Zenith, the Apex of the Pyramid, at that time was the Constellation of Taurus, which later marked the House of Joseph, while in the shoulder of the Great Bull was the Pleiades shining through as those carried by the Bull.

And scientists were to discover that all the heavens seemed to be moving in majestic cycles around this Constellation of the Pleiades, with El Cyone the centre of the group, and the area of the Throne of YAHWEH, so named from the beginning of time. Thus this Pyramid, this wondrous witness standing at the center of the earths surface was pointing upward to the sun, the centre of our planetary system, but still more grandly upward to El Cyone, the centre of the Pleiades themselves, the centre Constellation of the Universe.

As men of our race in the 1800's began to see this wondrous structure called the Great Pyramid, and learned the accurate reading of the Stars, they found that it embodied the Astronomical knowledge of Enoch, foretold even before the erection of the Pyramid, and that it still fulfils times and seasons.

There is a story connected with the Kings Chamber that comes from the lore and ancient writings of the race, and it would be hard to prove to a doubting Thomas, but it makes sense and rounds out our story. We are told that when Adam died his body was thoroughly embalmed and put in 'The Cave of Treasures' where other things of the race was kept. Then his

body as well as the treasures of the Cave were with Noah and his group on the Ark. It seems that Shem was instructed later to take the body of Adam down into Egypt where he would find that earlier sons of YAHWEH had built a Mighty Temple, and inside that temple was a Sarcophagus place there which would hold the body of Adam until he, YAHWEH as YAHSHUA would come and raise the other Saints and take the body of Adam, bodily resurrected into the heavens, leaving no trace of decay in that Sarcophagus, just like there was no trace of decay later in his tomb.

This was the doctrine taught our race in earlier days. So after the flood, so the story goes, Shem came into the areas of Old Palestine with his father, and they established again the 'Cave of the Treasures', then Shem took the body of Adam into Egypt and placed it in the Sarcophagus in what is now called the Kings Chamber. Then on leaving the Pyramid, Shem and his men dropped the stones into place sealing the upper passages. They replaced the outer casing stone and the Pyramid was again sealed.

The Witness in Stone then stood there for many years as one of the Seven Wonders of the World. Then the Arabs begin removing the outer white casing stones and using them many places, as in their homes and business and etc. Then an Arab finally succeeded in blasting his way into the upper passage looking for treasure, but only found an empty Sarcophagus. Then in the 1800's men of our race became again interested in this Great Pyramid and its secrets.

And they finally entered the Pyramid and found the empty Sarcophagus, but they also found that there was a hole torn upward from the descending passage way right up to the ate line of the Resurrection of YAHSHUA. It is as though torn with a mighty force right up through all that stone, thus symbolizing the power of the Resurrection. You will remember that the spirit of Adam as well as the spirits of the other Adamites were held in the Netherworld symbolized as the lower parts of the downward passage, and the hole thus was torn right to the point where the Queens Chamber passage starts. Men were amazed at the dates they were uncovering in this Witness of Stone, but the most powerful message they found was RESURRECTION.

But look, Enoch and Job knew of this symbolism and the promise almost 5000 B.C., and they were looking forward to the Atonement and the Resurrection. After all, Enoch did his work so well in earth, that he didn't die, but just returned home, bodily.

Now; another story showing the symbolism which Enoch knew was to be found in the Staff he carried. For on this staff was an Eagle with its tail feathers pointing downward, and the head looking down because in both talons was the tail of a serpent hanging head down, and the serpents were entwined around that staff, but with their heads hanging down. And on the back of the Eagle with the wing tips curled up to hold it was a cup. Here again was the symbolism pointing forward to the cup of clear water which YAHSHUA would drink in the garden for the Atonement. In the Egyptian Book of the Dead, in Book two you find that Enoch was Hermes, the Dragon Killer, and he carried such a staff. Of course the Dragon and the Serpent were one and the same.

Now; the fact is that from the time of the Resurrection, the Pyramid was not meant for a tomb. The deterioration of the coverings of the little air vents in both the Kings Chamber and the Queens Chamber allowed fresh air to enter both Chambers. And since the Resurrection then Israelites, as the physical body dies, the spirit returns to HE who begat it, nor more are they held in bondage in the Netherworld. Thus in symbolism, in the Great Pyramid, an escape route has been provided.

You ask about Eve, what about her? Well I don't know for Israel history does not always reveal the part played by Israel women. But Adam and Eve were one flesh. Audaum was both male and female until YAHWEH separated them into Adam and Eve. Besides YAHWEH loses nothing, so will let this part of the story rest right there. But the great story for you is that we are the only race whose religion has an empty tomb.

Now; the Kings Chambers and the Queens Chamber were not named that to begin with. They only carried those names because some thought at first that it must be some kings tomb, and of course if you had a kings chamber then you would also have his queens chamber. But both tell the story of Resurrection. So let us go further and see if these two chambers

identify with the symbolism of the Star Bible as did the other memorials here in that land.

Remember now that the position of the stars move also in their cycle and in the year 1492 as Columbus sailed West, an entire different Meridian Belt culminated at the Great Pyramid with the Autumnal Equinox. These, a set of stars which at the original marking date had been far to the West. In their progress East toward the Pyramid this place called 'The place of Light', the very stars that at the dawn of the Pleiades cycle marked the Eastern confines of the Western hemisphere now held the Zenith and the Meridian of the Pyramid itself. As this expedition of Columbus crossed the terrestrial dividing belt which they had dominated at the down of the cycle marking the Eastern confine of the Western hemisphere, and now held the Zenith, and the Meridian of the Pyramid.

And now the Phoenix Bird took its place in history marking the 1/2 time, then as you left the Phoenix Constellation and travelled along the Meridian until you came to the Zenith of the Pyramid you found the Star Bible, Andromeda, the lady chained. But now is the time of her liberation and Perseus her companion follows closely, and in a few moments will take her place upon the Zenith. But continue still further to the North and we find in the latitude of 60 degrees, midway between the Zenith and the Pole star this Constellation of Cassiopia. This is the seated goddess of Liberty, now free and combing her golden hair. And equally distant from the Pole itself, and below, occupying the Northern Horizon is the grandest of all Northern Constellations, Ursa Major, the Great Sheepfold.

Israel people of today because of their blindness caused by the take over of our communications, both written and spoken words, fail to look back at the whole story of the heavens. Of Andromeda the lady chained, and of Cepheus and Cassiopia, the lady now free, and all those with her. And their deep significance which were brought into prominence by the appearance of the sky in 1492. Note that Cassiopia consists of 13 stars, and was compared by the Arabians to an Open Hand which has always been an emblem of power and omnipotence. Other stars upon the right and the left tell their story, but the sign of the House of Joseph with the symbols as of the pushing of their people to the ends of the earth, even to

this great land in the latter times also speaks. Thus all this was marked at the beginning at the Pyramid. This land of ours was also marked by Lyra, and its wondrous story in the heavens, marked by her 13 stars as well.

But there was the Great Sheepfold, that we see in this Star picture, and we call it the big dipper. And there is also a Lesser Sheepfold that we call the little dipper, and these are tied in symbolism to the two chambers of the Pyramid, now called the Kings Chamber and the Queens Chamber. The Lesser Sheepfold is tied to the Queens Chamber, and the Greater Sheepfold is tied to the Kings Chamber. In the Lesser Sheepfold, the little dipper, the last star in the handle is now the Polar Star.

It took the place of the Star in Dragonis which was the Polar Star when the Pyramid was built. In the heavens this Polar Star is most important, but now this Polar Star is with the Lesser Sheepfold. In the Pyramid with the Queens Chamber portraying this Lesser Sheepfold, this symbolizes the Adamic Race in earth struggling to build the kingdom. The passage way is low and narrow marking this struggle. But the point where the resurrection is marked is also at the entrance to this passage thus showing the promise of resurrection. In the Star Bible the name of the star which is the Polar star is marked as meaning, 'The turned on', or 'the ridden on', quite appropriate don't you think? In the blessing of Abraham, and the promise of the multiplication of the seed comes this addition: 'And thy seed shall possess the gates of the enemy'.

Thus the important position of the Polar star is now in possession of the Adamic Race, and rides highest in the heavens, and the Dragon of course has been cast out. Still he harasses the kingdom people here in earth, but even that is to end. Oh, this little flock, only 1/6th of the worlds population has not as yet received all the promises, but by Faith they struggle on, and confess that they are but strangers and pilgrims in earth. (Hebrews 11:13) But in due time the redeemed will inherit the kingdom completely. As you approach the Queens Chamber of the Pyramid the roof of the passage is higher and inside the Chamber the air vents are now open and fresh air enters. This then is a chamber of life, and spirit is sometimes symbolized as breath, or air. Thus this people will finally stand and raise the standard of the kingdom here on earth. The date of 1979 marks the entrance into

the Queens Chamber in Pyramidology, and only time will tell us whether it is right, but I am inclined to think so. In ancient times the Queens Chamber was referred to as the Chamber of the moon, or the rising, and the renewing of Paradise, thus it connected to the race, and the promises given.

Now; the Greater Sheepfold, this big dipper of the heavens, what does it portray? Yes, in some star maps these sheepfolds are portrayed as bears but that cannot be right for the bear is one of the symbols in earth of the enemy who comes against the kingdom. Thus the name Sheepfold fits much better in the symbolism of the Star Bible. The Greater Sheepfold is a large Constellation. And in the Book of Job 9:9., and 28:31-21., this is rendered as Arcturus, and his sons in the revised version. The Arabs still call it the Assembled together, or 'sheep in a fold', and every star in the Constellation is named to carry out this theme.

Thus we see here, the innumerable seed gathered by HIM who scattered (Jeremiah 31, Ezekiel 34:12-16). Thus in the Pyramid is the Grand Gallery moving ever upward to the Kings Chamber. We see the advancement of the kingdom here, and the destiny toward the promises of restoration, all Israel being gathered to him, and you find the fall of Babylon, the tares removed, and YAHSHUA, His presence felt in earth as a short work of Righteousness occurs with the manifestation of sons and daughters, and the kingdom rule set in place. Yes, after the 1979 date there is still a low space showing this struggle, but also now things are moving fast for the time of awakening has come. The march will continue until victory, total rule by the kingdom administration and YAHSHUA, thus is symbolized here as joining his people. The march to victory is this kingdom rule over the earth, and eventually further in the promises, is the restitution of all things. Always now the promises point outward and upward.

But what is ahead of this race after the kingdom administration is perfected in earth? Remember the Adamic race took over the Polar star in the sides of the north, then the sign of Lyra with its 13 strings marked the U.S. of A. in 1492. Today scientists (1983) are amazed that Vega the brightest star in the Constellation of Lyra seems to have something around it as though a Solar system???? But Col. Totten told us in 1892 that Lyra would

in time be circumpolar with Vega perhaps taking over the place of the North Polar star. There is lots of open Universe out there in the sides of the North since Lucifer and his hosts have been driven to earth, and since we have been promised that 'of this kingdom there will be no end', thus of this race there will be no end, then we wonder, what our Father has planned for us next?

THE SEAL OF THE UNITED STATES

The Pyramid on the seal of the United States does not look like the Great Pyramid, and it has 72 blocks of stone. But George Washington remember knew about the ancient passages, and the monuments built in Egypt. Knew from the knowledge handed down through the ancient Wisdom Schools, or the Mystery Schools as they were sometimes called. He knew about the 'All seeing eye' of YAHWEH, and he knew of the chief cornerstone, and that the civilization of Gods kingdom was living stones simply framed together in which the chief corner Stone Seals the whole building and makes it complete.

In other words he knew the symbolism of this race, and knew that no other foundation can any man lay but that which is laid in YAHSHUA, The Christ, and that the chief corner stone is a Pyramid, thus a Pyramid on top of the Pyramid. This cannot be a rectangle or a square. The only building which can have a chief corner stone is a Pyramid. This is a apex stone, and it has to be a perfect stone with all the angles and all the planes exactly the same. The chief corner stone thus has to be the image of the whole thing, complete. Even as the whole people make up the body of The Christ in the world today, the whole kingdom was thus symbolic of the fact that they are a reflection agent, and HE seals the whole thing in. Therefore the Pyramid was symbolic of the fact that the only stone that will fill the caption would be Christ Himself. Only under the perfect reign of The Christ could this destiny be consummated, so now we come to this emblem on our seal.

Peter said: 'All ye who are of me are stones, simply framed together to grow into a Holy Temple unto YAHWEH'. The Swift library contained all the material, some very ancient volumes about the formation of the

seal, the acceptance and the measures, the things that were done, the discussions by Ben Franklin and George Washington, and others who prepared and passed on this design such as engineers and engravers. They were Master Masons of our race, and they knew what they were doing, for they knew that the Pyramid was the ideal symbol of the Messianic building because it was the Temple symbol of the kingdom of YAHWEH.

They knew about the ancient lore, they knew about things which related to ancient Egypt, and that is the reason why, and in full knowledge of this that they said they would adopt this messianic symbol because America had a prophetic destiny, and here eventually would be gathered a representative number of the children of Israel under the symbol of the outstretched wings of the Eagle. Here then in America leaders saw this would be 'One out of many' and He prospered our beginnings.'

These early Americans knew what they were doing and they did it wisely. They put the 'All seeing eye' in the capstone and surrounded it with Glory. And all through the Old Testament I can show you of your destiny, and these Scriptures were used, selected by these men because they understood them.

Now; of course there were forces that hated George Washington, and they were trying to gain control of America to destroy us from our beginning. They worked in the order of the Masons always, but the Master Builders who understood these things from the old mystery schools resisted. As long as George Washington was alive they were never able to warp the order of the Masons in the U.S.

This then is the relationship of the symbol of the Pyramid to America and 72 times the covenant God made with the race through Abraham concerning the kingdom, 72 times there are passages of Scripture to confirm this, thus 72 is the exact number of stones in our Pyramid. Thus these early Americans declared that as the Pyramid was the ideal symbol of the Messianic building, that YAHWEH confirmed the covenant to Abraham, whose seed we are, then our seal should conform to prophecy. The 'All seeing eye' was used by Enoch and Job as they went into Egypt. Those great polished discs with 'the eye' in the centre were their weapons.

No man or beast could stand against them as the sun shown on them. Thus our forefathers by these symbols marked our nation and our people. And with Lyra and her star Vega marking in time the very Pole position of the heavens, what thoughts arise at facts like these. Could it have been the influence of this group of stars as they anticipated that dominion of the Pole that so disturbed the compass of Columbus? Who then shall predict the future of America when all Adamic eyes are fixed upon that Constellation in full possession of all the treasures of the North? Col. Totten asked this question back in 1892 where as our scientists only discovered Vega in 1982, and now in 1983 are so excited at what they see.

Professor Totten of Yale University was commissioned by the U.S. Congress to research the symbolism of our history in the search for the design of the seal for the United States. He wrote many volumes tracing the migrating Israelites to the West. Two of these volumes in the Swift Library are considered the two most valuable books in the U.S. They are two of those by Col. Totten on the research of this design of the Seal. Also in the Swift library was the Masonic charts for the Temple of the Sphinx, and for the Pyramid. Thus this knowledge came down through the generations of our race. Always we were looking forward to the promises. Thus the life symbolized by both Chambers in the Great Pyramid as well as on our Seal speak of an empty tomb and thus Eternal Life.

Now; this is also an interesting experiment: if you were to take a map of the world drawn to the circle, and the square of the Pyramid, considering the diameter of the earth, then superimpose the Pyramid and the Sphinx over the world map drawn to such a scale you would see the whole picture of the migration of YAHWEH'S people in their march to build a kingdom. From the Apex of the Pyramid, from the Eastern angle you see the place of the crossing of the Red Sea, Bethlehem, then far up in the Tarim Basin that Adamic people came out of.

On the West you find that the Kings Chamber has to be in the British Isles, and of course there is where you find the Throne, as well as many things connected to the race, but the Pit is still in Africa with its symbolism of darkness. And further West to match the angle of the extreme East is our

nation with the outstretched wings of the Eagle. Yes, one day we shall see that which Zechariah speaks of, the capstone set in place with the 'eye of YAHWEH', and His Glory showing to the world. But isn't it also wonderful that our forefathers had the knowledge to put these symbols on our Seal.

CALLING THE PEOPLE OF BRITAIN

At last the bible makes sense!

At last we know its meaning.

Its the book of the RACE
