GENESIS, XXXV-10/11.

EXPLANATORY NOTES

Arc 1. The Tribal sequence is that used by the Patriarch Israel in Genesis, XLIX: and not apparently, in order of birth as told in Genesis, XXIX-31 to XXX-25 with XXXV-16/18. - The colouring symbolises sin, the immaculate white light of the HOLY TRINITY is broken-up into its rainbow/spectrum/components. By the sinful Houses of Israel.

Arc 2. these are the emblematic "standards"(not emblems) as referred to in Numbers, II-2. Every standard, after some research, appears as a result of having "two witnesses": to justify establishment here.

Arc 3. The Tribal names in Hebrew and their English meanings. Authority for all such on this chart is Doctor James Strong.

Arc 4. The "emblem" as mentioned in Numbers, II-2. Doctor E.W.Bullinger (backed by sundry authorities) speaks in his "The Witness of the Signs" that the Signs of the Zodiac were these emblems. It is interesting to note that he calls Manassah and Ephraim, "the horns of the bull" (Taurus). The red dots are the chief stars in each sign.

Arc 5. The stones of the "breastplate of judgment, Exodus, XXXIII-36, in which chapter we read of their association with the "names of the children of Israel";(2:10). The doubt here is, whether the order of mention in Genesis, XLIX corresponds to the order on the breastplate, nor does Revelation, XXI-12 and context apparently help to elucidate. There is no certainty that these illustrations are the ancient equivalents.

Arc 6. Here are the four Matriarchs, with information as for Arc 3.

The Base. The transition from "the supplanter" to "the will rule as God", and featuring the "Stone of Bethel" - their originality of Bethel, but now within Israel's Coronation Chair. See also the reaffirmation of it being, see Genesis, XIV-20.
