

How One Wicked Nation Can Kill Billions Around the World - - With One Lie!

Lorraine Day, M.D.

Such photos as above are published in the mainstream media to frighten a gullible public into accepting vaccination with dangerous substances that cause illness and weaken their immune system.

How One Wicked Nation Can Kill Billions Around the World - - With One Lie! Lorraine Day, M.D.

When the wicked leaders of a wicked nation want to:

Create FEAR and CHAOS and TERROR throughout the world

Take away the rights of citizens in every nation in the world

Create a world-wide pandemic and annihilation of a large segment of a nation's population by forced vaccinations that secretly contain live bacteria and viruses for AIDS, herpes, hepatitis, and small pox, as well as preservatives made from mercury that cause brain damage and autism

Control every country in the world by allowing the World Health Organization (WHO) to enter and take over their emergency medico-political apparatus and place embargos or quarantines on the entire country

Eliminate the Posse Comitatus Act of 1878 which bans the military from participating in police-type activity on U.S. soil. This act specifically prohibits the government from using the military against its own citizens. (This Posse Comitatus Act was severely violated at Waco, when U.S. military troops were used against the Branch Davidians.)

Help create famines in order to annihilate a large portion of the world's population by killing off the food supply of any and every nation, by killing their chickens, turkeys and other birds used for food.

Declare martial Law and suspend the Constitution

All they need to do is create - **out of thin air** – the Bird Flu “Pandemic” **HOAX!**

Almost daily, the newspapers, radio stations and television programs pummel us with news of the coming Avian Flu “pandemic” and the necessity of developing vaccines and instituting mandatory vaccination programs - - - for EVERYBODY!

President George W. Bush has spoken repeatedly of a “Military Takeover In Case Of A Flu Outbreak.” (CNN October 4 & 5, 2005) and possible quarantine of the victims of bird flu! “I’m concerned about what an avian flu outbreak could mean for the United States and the world,” the President told reporters during a Rose Garden news conference.

The Posse Comitatus Act of 1878 bans the military from participating in police-type activity on U.S. soil. It was enacted to prohibit the government from using the military to control or attack the citizens of its own country. Bush began discussing the possibility of changing or eliminating this law in the aftermath of the government's

sluggish response to civil unrest following Hurricane Katrina. If this is done, it would allow the government of the United States to use military troops against its own people (as was already done in the Waco tragedy).

Symptoms of Bird Flu

Let's examine the widely heralded (supposedly) coming Avian Flu Pandemic and what impact it could possibly have on the U.S. and the World!

1. What are the symptoms of bird flu in humans?

According to the web site of the (WHO) [World Health Organization](#) the symptoms of **avian** influenza (Type H5N1) are:

Fever

Sore throat

Cough

And possibly, viral pneumonia

The web site of the (CDC) [Centers for Disease Control](#) gives the following symptoms for **avian** flu:

Fever

Cough

Sore throat and muscle aches

And possibly, pneumonia

Another area of the web site of the [CDC](#) gives the following symptoms for Avian Flu:

documented temperature of >38 degrees C (>100.4 degrees F), AND one or more of the following:

cough,

sore throat,

shortness of breath, AND

History of contact with poultry (e.g. visited a poultry farm, a household raising poultry, or a bird market) or a known or suspected human case of influenza A (H5N1) in an H5N1-affected country within 10 days of symptom onset.

Please note: A temperature of 100.4 degrees Fahrenheit can be generated on a hot day in a totally healthy person who has NO disease whatsoever! This is a medical fact.

A cough can occur from a cold, allergies, asthma, air pollution, certain medications, from smoking, or many other causes.

All these symptoms are non-specific, meaning they can occur in any combination with a host of medical conditions totally unrelated to bird flu OR regular flu.

So it's possible for the government to quarantine a person for an indeterminate period of time, jeopardizing the person's job and income, if he or she has a **cough on a hot day!** (Remember, the symptoms are: a temperature of >100.4 F AND one or more of the following: cough, sore throat, shortness of breath, OR contact with any type of bird.

2. What are the symptoms of **REGULAR flu** (NOT avian flu)? These are also given on the CDC's web site [Here](#). They are the following:

Fever of 100.4 degrees F or higher

Headache

Extreme tiredness

Dry cough

Sore throat

Runny or stuffy nose

Muscle aches

Stomach symptoms, such as nausea, vomiting, and diarrhoea, also can occur but are more common in children than adults.

3. Question: How does anyone differentiate the symptoms of AVIAN FLU (bird flu) from the symptoms of REGULAR FLU?

Answer: As a physician, I can tell you that it is IMPOSSIBLE to tell the difference!

"How many people die each year from REGULAR FLU (NOT bird flu)?"

"The Centers for Disease Control ([CDC](#)) states, "Every year in the United States, on average, 36,000 people die from flu."

But this is a deliberate deception by the CDC!

"Below are the actual number of flu associated deaths from 1999 to 2002 from the CDC National Vital [Statistic Reports](#)

753 deaths in 2002 (page 16 of report)

257 deaths in 2001 (page 16 of report)

1,765 deaths in 2000

1,665 deaths in 1999

"How does the CDC get from 753 flu deaths to its statement that 36,000 flu deaths occur annually?"

“By combining flu deaths with pneumonia deaths. The CDC National Vital Statistic Report for 2002 lists Influenza and Pneumonia as the 7th leading cause of death in 2002. You probably already guessed it – **only 753 of those deaths were flu-associated** and the rest of the 36,000 were pneumonia-associated. If all flu-associated deaths are removed, pneumonia associated deaths still ranks number 7 by itself. The media used the false 36,000 deaths number in its coverage – 50 times the actual 2002/2003 number.

“Are the 257 to 1,765 reported annual flu deaths from 1999 to 2002 even accurate?”

“No. It is not possible to determine the actual number of deaths caused by the flu because the **CDC has no death certificate category** for deaths caused **only** by the flu. The CDC has three basic categories of flu deaths:

1. **influenza plus pneumonia**
2. **influenza plus other respiratory manifestations/symptoms**
3. **influenza plus other manifestations/symptoms (non-respiratory)”**

“Health professionals may try to justify the legitimacy of combining flu deaths with pneumonia deaths with the statement that “influenza leads to pneumonia.” But **the facts do not support** this frequent, broad misstatement by health professionals.

“The American Lung Association (ALA) describes pneumonia as having over 30 different causes (one being the influenza virus). Neither the CDC nor ALA know the specific causes of the pneumonia that resulted in death. However, we do know that influenza is not the major cause.

“Keep in mind that the **influenza vaccine provides no protection from bacterial infections**. The National Institute of Allergy & Infectious Disease as well as other health agencies estimate that the single bacteria – streptococcus pneumoniae – is responsible for 15% to 50% of ALL cases of pneumonia in the US, including up to 40,000 [deaths annually](#)

“Pneumonia is also caused by other bacteria such as Staphylococcus aureus (staph), Pertussis (whooping cough), Streptococci, and Mycoplasma pneumoniae (a common cause of “walking” pneumonia). There are also many non-infectious causes of pneumonia such as asthma, aspiration of fluids, immunodeficiency, etc.

“So, it stretches credibility to assert that the flu causes pneumonia when, in fact, the data shows that it only causes a small minority of cases of pneumonia.”

My Talk With The CDC

Several months ago, I called the CDC and spoke with one of the doctors in the "Flu Division." I identified myself by name and as a physician, and he gave me his name and position. I asked him how a physician like myself could possibly differentiate "Bird flu" from "regular flu." He answered, "You really can't."

I asked him if we physicians were asked to go house to house to check for people with bird flu with the possibility of quarantine of the patient (for how long?) and the potential for the quarantine to cause the person to lose income or even to lose his job, how could we distinguish "Bird flu" from the "regular flu"? He agreed it would be virtually impossible.

Then I asked him why President George W. Bush was publicly contemplating QUARANTINE for these patients? His response was, "He didn't get that from us here at the CDC. That's ALL politics!"

But Now The CDC IS Talking About Quarantine (I guess they got the message!)

Recently, Julie Gerberding, M.D., Director of the CDC, publicly discussed the possibility of quarantine as a method of controlling the "Bird flu" even though, by their own admission, it's impossible to tell "Bird flu" from "regular flu."

Remember SARS? How Does SARS fit into all this? What Are the Similarities Between "Bird Flu" and "SARS"? (according to the CDC's own website)

1. They have IDENTICAL symptoms:

Fever of 100.4 degrees F or higher

Headache

General discomfort and body aches

Possibly a dry cough with mild respiratory symptoms

NOW, the question here, of course, is: How does one distinguish the symptoms of "Bird Flu" from "SARS"?

Answer: **It is IMPOSSIBLE!**

"Bird Flu," "SARS, and Regular Flu ALL have the SAME symptoms!

How Interesting!!

SARS Was "Billed" as a Coming, Frightening Pandemic!

But just how many people have **died** from SARS?

According to the website of the World Health Organization (WHO), as of January 21, 2005, the statistics for SARS are as follows:

a. 8439 people – **worldwide** - have “been affected” – whatever that means! Does that mean they contracted the disease of “SARS” but didn’t die, or does that mean that they were “affected” because they or someone in their family was just **exposed** to SARS but did not get sick? The World Health Organization doesn’t tell us.

(“Been affected” is NOT a medical term and the WHO doesn’t explain what they mean. It sounds like the World Health Organization is trying to make the numbers sound bigger than they really are.)

b. And 812 deaths **WORLDWIDE** - **over a period of the last 3-4 YEARS!** (If, indeed, we can believe ANY of the figures we receive through the commercial media!)

Now Let’s Put This In Perspective!

Are you aware that **EVERY DAY** in the **U.S. ALONE**, more than **1,400 Americans die from Heart Disease?**

Remember, that’s **EVERY DAY!** - - - - In just **ONE country!**

It is absolute **NONSENSE** to classify “SARS” as a potential pandemic! This is NOTHING more than **rank propaganda!** **812 deaths from SARS – Worldwide – over 3-4 years - compared to 1,400 deaths per DAY from heart disease in this country alone!**

But SARS Did not Spread Fast Enough to Produce a Pandemic

Because “SARS” did not spread fast enough from country to country to create the Pandemic that was Predicted (and PLANNED for by the New World Order) – something else had to be done!

They had to develop - -

“SARS” With Wings!! - - -“Bird Flu”!!

Now they (the WHO – run by the New World Order) can have this disease flying from one country to another country wherever they want it to land. In addition, it allows them to destroy a significant portion of the food supply of any country they wish – the chickens, turkeys and other birds used for food by the population of these various countries. The New World Order has found that one excellent way to control a country is to control (or eliminate) their food. (See the United Nations quote at the end of this article!)

Is This Just “Terror Talk”?

How does one discern "Terror Talk"? How does one differentiate Truth from Propaganda?

Pay careful attention to the words in the title of the articles, and the (unfounded) assumptions and pure speculations made by the author both in the title and throughout the article. Here are a just a few REAL examples from some "Bird Flu" articles posted on the internet and in the print media in the last few months:

Indonesia – New Suspected Human Bird Flu Case (Web-Posted 1-8-06)

Notice that this is only a "suspected" Human case. In many, if not most, instances, the "suspected" case turns out not to be Bird Flu. But the public is never informed, leaving the impression that the case is real.

Mystery – Bird Flu Fails to Migrate As Expected (Posted 12-29-05)

The word "Mystery" is calculated to create fear in the reader, fear that no one will know what to do or how to stop the supposed "epidemic." This article also suggests that "bird flu" is NOT travelling with migratory birds. (Maybe that's because it's NOT "Bird" flu!)

Bird Flu: How Worried Should You Be? USA TODAY , Oct 11, 2005

Notice that the title is assuming you should be worried! The ONLY question is HOW worried should you be. This is cleverly crafted to create unwarranted fear in the reader.

Bird Flu Could Pose Enormous Threat To US Economy Posted 12-9-05

Bird Flu "Could" do anything in the world that the author of the article can conjure up in his imagination. The use of the word "could" defines this article as pure propaganda. The article contains projections that have no basis in fact, including exaggerated mortality rates, and a preposterous figure of 30% of the population being affected. NOWHERE in the world, is this happening. This type of propaganda is shameful to the author and offensive to any reader who is a thinking person.

Dangerous Unique H5N1 Mutation in Ukraine? Posted 12-10-05

Notice the question mark at the end of the title. Nothing in the article has been verified. This should not even be reported until it is verified. This type of title (particularly beginning with the word "Dangerous!") is specifically designed to put the question into the reader's brain as though it is a fact. It is not fact. It is irresponsible to headline articles in this way.

Extensive H5N1 Human-To-Human Transmission In Indonesia? Posted 10-22-05

Here again we have the question mark! The information in the title is designed to be planted into the reader's brain as fact – when it is only a question. This is a deliberately inflammatory title. This is irresponsible journalism. In addition, the article refers to only

7 or 8 cases, linked to what is termed four familial “clusters.” The word “cluster” is being used to imply that there are a number of cases of human-to human-transmission. On closer examination of the article, the reader finds that the author is using the word “cluster” to describe only TWO people. “TWO” people cannot be referred to as a “cluster.” Again, this is deliberately misleading, and irresponsible journalism designed to strike fear into the heart and mind of the reader, as well as to imply that this (non) disease WILL cause an epidemic.

Is H5N1 Wild Bird Flu In Canada? Posted 11-17-05

Again, watch for the question mark at the end of the title. The author is deliberately propagandising the reader by implanting the question as a “fact” in the reader’s mind. But it is NOT a fact and should never be reported unless it IS a fact!

Turkey H5N1 Is Recombining With Mammalian Polymorphisms Posted 1-14-06

The average reader would have no idea what this author is writing about and does not have the background to understand anything in the article. All the reader will see is the title, and in the title the words “Turkey H5N1” and “Mammalian.” This is designed to implant in the reader’s mind the idea that “Bird Flu” is mutating into “Mammalian” or Human “Bird” flu. The purpose, again, is to create fear in the reader that the epidemic is getting worse, when, in truth, the article gives NO evidence to support that notion.

Several solid rules for judging whether an article is propaganda, are:

1. Watch for speculative terms. If the title ends with a question mark this is pure speculation. This allows the author to use his wildest imagination in developing a scenario to cause fear and panic.
2. Again watch for speculative terms. If the title contains the word “could”, this is pure speculation. This, again, allows the author to fabricate any outcome he chooses.
3. If the title contains inflammatory words such as “Dangerous” “Suspect” “Mystery” “Worried” “Fear” “Explode”, the chances are extremely high that this is pure propaganda designed to create fear.

Human Deaths From “Bird Flu”

How many deaths from Human “Bird Flu’ have been reported to date?

Approximately 65 deaths in Asia (the main area this “disease” supposedly has affected) from Human cases of “Bird Flu” have been reported by the World Health Organization (WHO).

According to the Internet World Stats (Usage and Population Statistics), the population of Asia is 3,622,994,130. That’s 56.4% of the World’s population.

If we divide 65 (supposed deaths from “bird flu”) into 3,622,994,130 people in Asia, the answer is approximately 54 million. That means that in Asia there has been **ONE death for every 54 MILLION people!** - - - HARDLY the statistics necessary to predict a frightening “Pandemic!” OR to call out the military forces!

That would be similar to declaring an epidemic of “Bird Flu” in the United States with only 5 or 6 deaths in the entire country! That, of course, would be ridiculous!

But why should we be surprised! George W. Bush is talking about declaring martial law and calling out the military when there has been NOT ONE SINGLE DEATH - - - OR EVEN ONE PERSON INFECTED with "Bird Flu" in the entire country!

This is nothing more than Fear-mongering Propaganda!

And What Are Our Sources of Information? Can We Trust Them?

We know that the commercial media, including television and the newspapers, is owned by a handful of people, the vast majority of whom are Zionist Jews. (If you don't believe it, just search the web for the owners and CEOs of the TV networks and the major newspapers.) Here are some of their quotes, demonstrating that we cannot expect to hear truth through their news outlets:

Richard M. Cohan, Senior Producer of CBS political news said: "We are going to impose OUR AGENDA on the coverage by dealing with issues and subjects that WE choose to deal with."

Richard Salant, former President of CBS News stated: "Our job is to give people not what they want, but what WE decide they ought to have."

John Swinton, Former Chief of Staff for the New York Times, called by his peers "The Dean of his Profession" said in 1953: "There is no such thing. . . as an independent press. . . If I allowed my honest opinions to appear in one issue of my paper, before twenty-four hours my occupation would be gone. The business of the journalist is to destroy the truth; to lie outright; to pervert; to vilify; to fawn at the feet of mammon, and to sell his country and his race for his daily bread. . . We are the tools and vassals of rich men behind the scenes. We are the jumping jacks, they pull the strings and we dance. Our talents and our lives are all the property of other men. We are intellectual prostitutes.

Needless to say, Commercial Television and the Newspapers have completely ceased to be repositories of truth. They are not trustworthy in any way.

How about the Internet?

Information on Bird Flu comes primarily from the web sites of the following organizations:

The Centers for Disease Control
The World Health Organization, and
ProMed/ISID (International Society for Infectious Diseases)

How reliable are these organizations?

The Centers for Disease Control (CDC)

This is a highly politicised government organization. For example, the AIDS Information Hotline at the CDC, where one would call to find out how to be safe from AIDS, is run, not by the CDC! - a group that has the HIGHEST rate of AIDS in the country! Obviously, they have not learned – or don't wish to practice – how to prevent AIDS!

If it is true, as it strongly appears to be, that "Bird Flu" is a HOAX, perpetrated by the government on the public to create fear, take away personal rights, make money on vaccinations and drugs for "bird flu", cause real pandemics of disease and death by placement of other disease-causing organisms in the supposed "bird flu" vaccines, destroy huge numbers of turkeys, ducks and other birds to assist in causing massive famine, all of which will help decrease the population of the world, - - - then if a CDC employee, including the Director of the CDC, refused to go along with the government propaganda, he or she would be fired for insubordination.

**So the CDC is not a trustworthy source of information about "Bird Flu."
The World Health Organization (WHO)**

The World Health Organization is the Population Control/Euthanasia/Genocide arm of the United Nations. The WHO has the same problems of bias and oversight as the CDC.

The United Nations ultimate goals are 1) the redistribution of wealth throughout the world, 2) a vast and rapid reduction in the population of the world for "sustainable development", and 3) the elimination of nation-states with the implementation of a One World Government.

In conjunction with Illuminati members such as Prince Philip and Prince Charles of the U. K., they want to return the world to what they term a "Post-Industrial" or "Feudal Society" where there are only three main classes of people – The feudal lords (who own ALL the land), the administrators who work for the feudal lords, and the slaves, who work the land. (If you have any doubts about these issues, use your search engine to find information about the Illuminati, "Sustainable Development", "Feudalism", the "Georgia Guide stones - America's Stonehenge", One World Government, and Population Control. Dr. Stan Monteith's [website](#) has excellent information to get you started.)

One efficient way of reducing the population of the world, the Illuminati has found, is by the **deliberate spread of disease**. Bertrand Russell, and advisor to several presidents, wrote in his book, *The Impact of Science on Society*,

"At present the population of the world is increasing... War so far has had no great effect on this increase... I do not pretend that birth control is the only way in which population can be kept from increasing. There are others... If a Black Death could be spread throughout the world once in every generation, survivors could procreate freely without making the world too full... the state of affairs might be somewhat unpleasant, but what of it? Really high-minded people are indifferent to suffering, especially that of others."

For thousands of years, all the way back to Nero - and probably before, dictators have controlled their subjects by Fear and Terror! It is no different now. The phony "War on Terror," promoted by U.S. President George W. Bush and his "Neo-Conservative" Zionist-Jewish controllers, such as Bill Kristol, Paul Wolfowitz, Richard Perle, Douglas Feith, Dov Zakheim, Natan Sharansky, and others like them, is designed to terrorize Americans into giving up their rights (Read the Patriot Acts – I & II) whereby they will become slaves of the New World Order.

What could possibly be George W. Bush's reason for doing this? Don't he and his controllers like us common Americans? The answer is a firm "No." In fact, they refer to us as "Useless Eaters!" Leaders of countries rarely have the best interest of their citizens at heart. If you doubt this, please read *Death by Government* by R. J. Rummel, a book that exposes genocide and mass murder by government. This extensively referenced book reveals that many more citizens have been murdered by their own government leaders than have been killed in war by foreign powers!X

Recently, General Leonid Ivashov, the former Chief of Staff of the Russian armed forces when the September 11, 2001, attacks took place, said during the Axis for Peace 2005 Conference, and now explains publicly, that "international terrorism does NOT exist and that the September 11 attacks were the result of a set-up. What we are seeing is a manipulation by the big powers; this terrorism would not exist without them." (Posted at www.rense.com 1/22/06)

He explains that this "Terrorism" talk is the weapon used in a new type of war in complicity with the media, which allows modifying international politics and changing existing reality. In other words, "Terrify the people with incessant talk of "Terrorism" so they will give up their rights and become malleable slaves in the hands of the New World Order."

So the World Health Organization of the United Nations, which is also promoting this myth of the "War on Terror" is NOT a trustworthy source of information about "Bird Flu."

What about the Internet News Outlet – ProMed/ISID? Is it trustworthy?

Let's investigate who funds ProMed/ISID.

On their [website](#) and click on "About ProMed-mail), you will find the following:

"ProMed-mail and ISID are grateful to the Gates Foundation, the Rockefeller Foundation, the Oracle Corporation, the Nuclear Threat Initiative, and an anonymous donor for financial support.

Who are these Donors?

The Gates Foundation has been set up by Bill Gates, a Zionist Jew, to promote the Zionist Jewish agenda, which is the same as the Illuminati's agenda. Their agenda includes a vast reduction in the population of the world, including the United States, by war, pandemic disease and famine.

The Rockefeller Foundation has the SAME agenda as the Illuminati and the Gates Foundation. David Rockefeller, a member of the Illuminati, is a founder and member of several organizations such as the Trilateral Commission, The Bilderbergers and the Club of Rome, whose purpose is to a) set up a One World Government, b) control ALL business throughout the world and, c) dramatically and rapidly reducing the population of the world from 6 billion to 500 million, by war, disease and famine. (Verification for this is readily available on the internet and in many fully referenced books.)

The Oracle Corporation

Oracle's CEO is Lawrence Joseph Ellison who is identified as a Jew on the Oracle Corporation website. His biography on that web site states that "Larry Ellison was born out of wedlock to a 19-year-old mother, and raised by her aunt. Oracle Corporation went public in 1986 and was on the verge of bankruptcy by 1990 when it was revealed that its revenues had been "overstated" for several years. . . Ellison's net worth dropped about 3 1/2 BILLION after September 11, as stocks plummeted and Oracle stock lost almost 50% of its value."

It certainly is curious how a little boy, born in the Bronx to a 19 year old single girl could, before the age of 50, amass a fortune large enough to LOSE 3 1/2 BILLION dollars!

The Nuclear Threat Initiative

The Nuclear Threat Initiative is run by Ted Turner who is infamous for wanting to eliminate a large majority of the world's population.

So there we have it. If we're going to evaluate ProMed/ISID, we must realize that its funding (and therefore its control) comes from groups, all of which have the goal of depopulating the earth.

How can we believe anything that comes from ProMed/ISID? Most certainly they would want to promote a Pandemic by propaganda! Nothing could please them more.

Also, anything that comes from the Zionist Jewish-controlled commercial media must be highly suspect!

Others who regularly Post "Bird Flu" Information on the Internet

Two others who regularly post information on "Bird Flu" on the web are: Henry Niman, Ph.D., and a woman with the internet name of Patricia Doyle.

In order to assess the veracity of any individual who posts information on the web or who speaks as an expert, it is necessary to be able to verify their qualifications.

Henry Niman, Ph.D.

Henry Niman received his Ph.D. at the University of Southern California in 1978 and took a post doctoral position at Scripps Clinic and Research Foundation, according to his website. His qualifications are verifiable. He is the Founder and President of Recombinomics, Inc., a company that, monitors viral recombination, a process that can be used to enhance vaccine development and allow vaccines to be prepared before viruses emerge," according to his web site,

Since Dr. Niman's company is heavily involved with the vaccine industry, and therefore, would significantly benefit financially from a "Bird Flu" pandemic, he certainly could have a real conflict of interest in the "Bird flu" situation. Much of the information he posts would be very difficult, if not impossible, to verify, as the cases of supposed "Bird Flu" come from obscure, tiny towns and villages - the smallest "nooks and crannies" on the globe.

How does he get this information?

Where does he get this information?

What are his sources?

It has been over two months now since I e-mailed him, asking him those questions, and to date I have received no response!

Patricia Doyle

Patricia Doyle (she admits that this is not her real name) chooses to remain a mystery. She uses the initials Ph.D. and D.V.M. after her name but she refuses to state where or when she received those degrees. I have e-mailed her directly asking for that information and she has refused to divulge it.

But she has admitted that she has NOT completed her Ph.D., yet she continues to use those initials after her name. This is Scientific Fraud!

She will not state WHERE she received her degrees!

She will not state WHEN she received her degrees!

She will not give her real name.!

This is totally unacceptable in the scientific world, and is insulting to the general public. Why would anyone, especially a "professed" professional person, withhold this information unless she is deliberately lying about her qualifications and whether or not she actually holds these degrees.

Apparently she has shared some of this information with one individual who is not in the scientific world. But again, none of the information can be verified.

Until she comes clean and answers these questions for the entire public, she has no right to be considered an expert of ANY kind, nor should she have a forum on which to espouse her comments.

Her belligerence in deliberately withholding this information from the public, coupled with her promotion of the information on the (Illuminati/Zionist-Jewish-funded) ProMed/ISID website raises serious questions about the possibility that she is an infiltrator and a Zionist-backed disinformation agent.

So how can anyone believe anything she says?

So, How DO We Find Truth?

You may ask, "How can we believe anything? How do we make a judgment on what is really going on?" The answer is, we can learn to evaluate what they are saying about this supposed "pandemic" in the following ways:

1) The media and the New World Order/Zionist Jewish cabal are using all sorts of hyperbole when discussing this "Bird flu," exaggerations that are in no way warranted. (When something is REALLY going on, such as Mad Cow Disease – or AIDS, especially in the 90's – the government was/is covering up and down-playing the truth on both issues.)

2. As mentioned above, the incidence of "Bird flu" in Asia (even if we could believe their figures) is 1 in 54 MILLION – hardly what one would call a "Pandemic"!

3. Even with ALL their efforts, the Illuminati/Zionist Jewish cabal was not able to propagandise the public enough to get them to believe the lies about SARS! So they had to create, out of thin air – "Bird" Flu – which is nothing more than SARS "with wings."

Now they can have this "disease" flying all over the world, wherever they want it to land (and how convenient to have it land in countries that are the enemies of the Zionist Jews, such as the Arab/Muslim nations of Indonesia, Bali, Iraq, Iran, and the City of Mecca, just in time for the Muslim pilgrimage, and in countries like Turkey and Korea who are both causing political problems for Israel and it's subsidiary – the United States.

Isn't it amazing that the birds infected with "Bird Flu" seem to gravitate to the countries identified by George W. Bush as the "Axis of Evil!"?

SARS (remember, it has exactly the same symptoms as "Bird flu") wasn't able to travel fast enough from country to country to create the "world-wide pandemic" the Illuminati had planned, so they had to come up with something with wings! Voila! - - - Bird Flu! SARS with wings!

4. The commercial media is pushing the propaganda of "Bird Flu" about as hard as any propaganda I have ever seen them promote, including the prospect of forced vaccinations. The greatest Weapon of Mass Destruction they can use on this country or any other country is mandatory vaccinations, vaccines that will contain the bacteria and viruses of multiple horrific diseases (a Super Vaccine containing numerous disease-causing live viruses and bacteria - something the CDC already admits they are developing) to be forced on EVERYONE!

Then the Illuminati will be absolutely sure to produce the "Pandemic" they desire, when billions succumb to the very diseases contained in the vaccine injection they received!

5. Real and dangerous diseases like AIDS and Mad Cow Disease, are purposely down-played and covered up by the government, even though they will eventually kill millions, and possibly billions, of people in the U.S. as well as many other countries.

But when a government purposely advertises, promotes, and exaggerates a disease, you can be sure that it's fake!

Why Would the U.S. Government and the U.N. Perpetuate this HOAX on America and the World?

Answer: Look who benefits – and How!

1. Follow the Money: Imagine the profits from forced vaccinations for every person around the globe! Followed by huge profits for the medical/industrial complex from drugs used for treatment, hospitalisations, physician costs, laboratory costs, and medical personnel to enforce quarantines! The pharmaceutical, vaccine-producing, and other medically related corporations are owned by the very same people (or their close associates) who run the world. (See 1) *Bilderberg Profits from Bird Flu*, Christopher Bollyn, American Free Press, Nov. 14, 2005, 2) *World Bank To Put Up \$1 Billion To Fight Bird Flu*)

I have received numerous e-mails from Stock Market Investment companies, showing how an investor can make huge profits on the coming "Bird flu" pandemic!

2. Power and Control: Any individual, group, state or nation that, in any way, resists the formation of a One World Government, can be quarantined, embargoed, or imprisoned. The Rulers of the world can stifle or annihilate ALL dissent.

3. De-population of the world: So the world can belong solely to the rich few who rule in tyranny. They have already begun the de-population the earth by:

War, in almost every country around the globe

Abortion, and its #1 promoter - Planned Parenthood

Infanticide – Soon to come

Euthanasia – physician-assisted suicide, of the elderly and those who are ill

Terminator seeds – Seeds that produce fruit that does not, in turn, produce seeds (such as "seedless" watermelons). These initial seeds have been patented by the mega-corporations, so the farmer must buy new seeds every year rather than being able to save seeds from his own harvest. In addition, the farmer can only purchase the seeds from the owners of the mega-corporations. This becomes so prohibitively expensive that the farmer goes bankrupt.

Patented Genetically engineered food that can be withheld at will – to promote famines

Weather control to make growing areas into dust bowls to engineer world-wide famines (Search the web under "Weather Control.")

Destruction of the food supply of the world by killing off the turkeys, ducks and other birds used for food (because of the irrational fear of "Bird Flu") in addition to the

destruction of cows (because of the REAL threat of Mad Cow Disease – which they are presently down-playing), and sheep (because of the REAL threat of “Scrapie” which is Mad Sheep Disease). This is one of the ways they will bring about massive famines that will starve to death millions of people.

Man-made Diseases, (such as AIDS) bio-engineered in government and military laboratories to cause super-infectious world-wide pandemics.

Mandatory Vaccinations developed to CAUSE (not prevent) horrible, deadly diseases in those who receive them, as well as autism, sudden infant death syndrome (SIDS) and learning disabilities resulting from the mercury and other highly toxic substances vaccines contain. (See *Vaccines: Are They Really Safe and Effective?* by Neil Miller, New Atlantean Press at (www.thinktwice.com))

All of these methods are designed to de-populate the earth so the world can be owned and ruled by the “favoured few”, those who say by self-proclamation, that they have the right and obligation to rule the world.

Here is a quote from the **United Nations**: **“Food is Power. We use it to change behaviour. Some may call that bribery. We do not apologize.”**

Catherine Bertini, executive director U.N. World Food Program, Beijing, China.

U.N. 4th World Conference on Women, September, 1995. In other words,

“Do as we say, or we’ll starve you to death!”

Don’t Be Deceived!

The Government Has Done This Before!

And They Are Doing It Again!

The Bird Flu Hoax is NOT the first time the government, organized medicine and the pharmaceutical companies have lied to the public to bring about fear, carnage and profits. They did it with the Swine Flu Hoax in the 1970’s and the vaccination-created Flu Epidemic of 1918.

Following are excerpts from the book entitled *The Swine Flu Expose* by Eleanora McBean, Ph.D., N.D., written in 1977 by a doctor who was THERE during the 1918 Flu Epidemic.

This booklet on Swine Flu hazards and fakery is part of a larger book on vaccination, titled, *VACCINATION CONDEMNED BY COMPETENT DOCTORS*. It is about time a large and comprehensive book of the long concealed facts about vaccination is brought forth. This is the largest and most informative book on the subject ever written in America. It contains data collected from medical records, army reports, and startling findings from researchers all over the world.

The book is intended to help combat the disastrous effects of vaccine promoters and their deceptive propaganda.

I have seen cancers caused by vaccinations, on the arms of people, exactly where the vaccine was injected. I have also seen paralysis and other tragedies caused by vaccinations. All these are unnecessary and avoidable by the application of information contained in the chapters of this book.

It will be noted that there are many repetitions of certain facts all through the book. There are two reasons for this. One is that some chapters are used as separate booklets like the chapter on SWINE FLU. The other reason is that the wrong information about vaccination has been drilled into the people from early childhood, so it is necessary to repeat the truth many times in order to re-program the thinking from false claims to the truth.

Truth wears no mask, she seeks neither place nor applause, bows to no human shrine; she only asks a hearing.-----Anon

SWINE FLU ANOTHER MEDICALLY-MADE EPIDEMIC

"Take the profit out of the manufacture and administration of serums and vaccines and they would soon be condemned even by those who are now using them"—George Starr White M D.

At the present writing, October 1976, a group of medical opportunists have taken upon themselves the dictatorial authority to declare the threat of a sweeping epidemic of SWINE FLU which they said was similar to or related to the 1918 epidemic of Spanish influenza which wiped out 20,000,000 people world-wide. This declaration was supposed to scare all the people into their vaccination centers to be shot full of experimental vaccine poisons, while they, the promoters, raked in the profits. During the big polio vaccine drive, a spokesman for Parke Davis one of the five drug houses making the vaccine stated "Our company will clear over \$10,000,000 on Salk vaccine in 1955 " Before they were through they had fleeced the people of over \$4 billion dollars on the Salk racket (See the chapter on POLIO CAUSED BY VACCINATION)

Most of the people had their eyes opened during the polio vaccine fiasco so now when the same poison pushers started to beat their drums again for swine flu vaccine customers, they were smart enough to see through the hoax and refuse the shots, even though the scare-head propaganda slogans said *swine flu is contagious and you can die if you don't get the shots*

However, the scare techniques and perhaps other inducements, worked on (the then acting) President Ford who has since been voted out of office—and none too soon. When the high pressure sales committee, Doctors Salk Sabin, Sencer, Mathews Cooper, etc marched into Ford's office in March (76) and told him to hand over \$135,000,000 to support their private money making racket, he handed it over like a simple child without even bothering to ask them for a guarantee that their unproved vaccine would not kill the people—as it did in other vaccine drives—or that their claims were justified.

Their claims of *safety*, effectiveness and need have all been proved to be false during the past few weeks when the vaccine killed 113 people, nation wide, and paralyzed 75 in California alone. We do not have the reports from all 50 states, but if it is the same as in Calif. that would add up to 3,675 cases of paralysis. Many coroners have been

given orders by the doctors not to give out the swine flu casualties. So, we don't know all the facts yet, and we may never know unless we have a "Watergate" investigation.

\$5,000,000 LAW SUIT FILED AGAINST FLU PROMOTERS FOR CAUSING PARALYSIS

A radio newscast (Jan. 77) reported that one of the paralyzed swine flu victims has filed a \$5,000,000 suit against the vaccine promoters for causing his paralysis in December of 1976. His suit is against the instigators of the flu epidemic scare, who are Dr. David Sencer of CDC (Centre for Disease Control) who spearheaded the vaccine campaign, and Dr. Theodore Cooper of WHO (World Health Organization), the Health Departments which promoted the shots and the six drug houses making the swine flu vaccine. (Why not Ford also and his Congress who financed it?) His complaint was that they had put out propaganda promising that the vaccine had been thoroughly tested and was perfectly safe, and that the swine flu was contagious and people could die if they didn't get vaccinated, and that they would be protected if they had the shots, and that the side effects, if any were "inconsequential."

Dr. Edwin Kilbourne, head of the Microbiology Department at Mount Sinai Medical School (L.A. Calif.) said he thought "the cases of paralysis were only coincidence."

Paralysis is known to be a common after-effect of vaccination—any kind of vaccine—and these 75 California cases were paralyzed shortly after their flu shots—and yet, this doctor says (in effect) "forget it—maybe it wasn't the vaccine that did it." If that is the kind of teaching and slipshod guesswork that our young medical students are getting it isn't surprising that the doctors come out of medical college all mixed up and unable to cure anything—not even the common cold or pimples. All they learn is how to suppress symptoms with poison drugs or mutilate the patients with unnecessary operations. 97% of the operations performed by U.S. doctors are unnecessary, according to the admission of doctors, themselves, who met to decide what operations would really be necessary in case of socialized medicine when there would be no profit in it for them. They decided that only about three percent (3%) would be necessary.

All the flu vaccine sales promises were lies—proved later by the deaths and disasters within a few hours after the shots.

The insurance companies which had insured the doctors and vaccine makers down through the years balked at this obvious vaccine swindle game. We wonder why Ford couldn't have taken a tip from these shrewd businessmen and also turned down the whole, questionable vaccine program. We wonder what inducements prompted Ford and Congress to let themselves be talked into financing not only the vaccine but paying the damage costs which could amount to billions of dollars judging by the large number of deaths and disasters already reported, plus those which have been hushed up by the vaccine promoters.

The most common remark we hear on the streets today is, "IT'S THE BIGGEST RIP-OFF OF ALL TIME."

The vaccine promoters and drug insurance companies, no doubt, remembered the multi-million dollar law suits following the devastating polio vaccine campaign of the 1950's when the Salk, Sabin, and Cutter vaccines caused thousands of cases of polio, death, and other disasters. The law suits flooded the courts and the vaccine promoters and drug houses had to pay out damages amounting to many millions of dollars.

The five pharmaceutical houses making the Salk vaccine were called the Rockefeller chain then, and it is the same ones now making the swine flu vaccine, with a few exceptions. The vaccine promoters wanted to dodge all financial loss—the cost of the vaccine and the damage suits, so they could make clear profit, while the taxpayers were saddled with both the payment of the vaccine and the damages, also. I doubt that the crime syndicate could run a more crooked racket than this government sponsored

and financed caper, with all the profits siphoned off into the pockets of the medical and drug concerns.

If those smooth talking con-men had been holding a machine gun on Ford they couldn't have done a quicker and easier job of robbing this simple man who didn't even know enough to do a little investigating before dipping into the public till to finance a private money making scheme.

Ford was not the only guilty one in this conspiracy against the people. Most of the members of Congress gave their supporting vote.

Before leaving office Ford asked the taxpayers to give the Congressmen a substantial raise. We wonder if he wanted to reward them for their part in helping him support organized medical crime.

An AP news report in the Los Angeles Times (Dec. 3, 1976) with a headline: \$129 MILLION FEDERAL RAISE PROPOSED, says in part:

". . . Ford will put the exact rates of pay he thinks advisable into the budget submitted next month. Unless the House or Senate kills the proposals. (Are they likely to turn down a raise?) the members of the House and Senate will receive \$57,500 annually compared to the current \$44,600."

Are they worth it? Another report told us that most of our Congressmen are corporation lawyers with an eye to serving private interests. Their vote for giving \$135,000,000 of tax money to support a private medical racket (swine flu vaccine) would indicate that they are indeed working for "outside interests", and not for the good of the people who hired them to their high positions.

The same AP report also says: "The commission (to raise salaries) made it clear that it hoped to link the raises to a commitment by the three branches of government to come up with a stricter code of conduct on outside income and financial disclosures."

Does this mean that if they are given the big raise they must promise to tell the truth about what "outside interests" paid them extra to swing the "big deals" in their favour?

Public officials like this should not be given any raise at all; they should be given a dismissal and a prison sentence, plus confiscating the bribes they have taken from "big business".

SWINE FLU VACCINE TESTS PROVE UNSAFE

At the same time the vaccine promoters were telling Ford the vaccine was "tested and perfectly safe" they were still testing it on lab. animals, soldiers and little children. The ones who can't defend themselves.

In A REPORT TO THE CONSUMER (Sept., 75) by Ida Honour of, she presents a compilation of data from the National Institute of Health—Division of Biologic Standards, Bulletin of World Health Organization, and Dr. J. Anthony Morris, former Director of a branch of FDA Virus research. Dr. Morris' findings show that the flu vaccine, when inhaled by lab. animals "tended to enhance cancerous tumours."

Pregnant women had been on the preferred list for shots until findings indicated that certain substances in flu vaccine "could pose a serious threat of foetal damage to women who might become pregnant. . ."

In the report she reviews an article by Aurora Reich, Director of Scientific Communications, published in Indianapolis Star, which states:

"The virus itself (flu vaccine) has toxic properties, even after it is killed, which can cause fever and convulsions, especially in children. January Journal of Paediatrics carried the research of Doctors at Atlanta and Sheffield, England working together testing a

purified killed influenza vaccine. They concluded that even the purified killed vaccine is too toxic (poison) to be given to children . . . The study showed 69% of the infants ran high fever 6 to 12 hours after vaccinations, and one had convulsions."

Other studies showed that about 10% had convulsions, and one died. One doctor pointed out that "there are 9 million children under 3 years of age. If 10% of them had convulsions, that would be 900,000 with convulsions.. (and how many deaths?) The routine vaccination of infants and children has not been recommended by the Public Health Service."

How tragic that these helpless little children are being used to test poison drugs—like laboratory animals. I thought that was against the law. It's deplorable to even use animals for this, as practically all the tests are for things we do not need, such as poison drugs, vaccines, unnecessary operations, etc. Yes, all vaccines are dangerous drugs. (See the chapter on HOW VACCINES ARE MADE)

Every once in a while we hear of an honest doctor who is not afraid to speak out and warn the people against vaccines. Such a man is Dr. James A. Shannon, of the National Institute of Health. He stated: "THE ONLY SAFE VACCINE IS A VACCINE THAT IS NEVER USED."

When it was proved that the vaccine was too dangerous to be used on children it should have been condemned and destroyed before it did any more harm, because if it is too dangerous for children or anyone else, it is too dangerous for all people.

Doctors who have been questioned, admit that they are not taking the shots for themselves or their own children.

The old, the ill and the other "high risk" cases are more sensitive to poisons and more readily broken down and killed by them, and yet, the doctors and vaccine promoters advised them to be the first in line to get the shots. I think they wanted to test the risky vaccine first on them to see what would happen and if it caused death and disasters the doctors could blame it on their old age or their various infirmities.

The doctors seem to consider these sick and elderly people expendable commodities of no importance. I saw an example of this when I sat in on a vaccine promotion meeting on USC campus (L.A.) recently, when the promoters were trying to drum up business and get the students to submit to the shots.

People in the audience started to ask questions of the doctor on the stand. They asked about the vaccine death that had occurred a few hours after the shots. He passed it off lightly with indifference saying that "they would have died anyway," or "They were old and probably had ailments that killed them." he made it clear that the vaccine promoters were not going to take any responsibility for their death dealing vaccines. He was one of the teachers at the medical school at USC. God protect us from the kind of doctors he would influence.

These vaccine casualties were not listed as such on the public records. The death certificates were falsified and causes were given other than the vaccine which killed them (See the chapter on FALSIFIED MEDICAL RECORDS.)

NO SWINE FLU EPIDEMIC

The whole swine flu scare was based on the death of only one soldier at Fort Dix, New Jersey (One report said October, 1975 and another said February, 1976). There was never any real evidence that he even had swine flu. There was a wide divergence of opinion among the doctors as to the real cause of his death. Some even tried to blame it on a walk he took when he was ill. An official diagnosis pronounced his death to be from *A-Victoria flu*, and not swine flu. All the soldiers at the camp had been inoculated with *Port Chalmers flu vaccine*, which was claimed to contain antigens to protect against all strains of flu. Shortly after the shots over 500 men got sick with the flu anyway, thus proving that the flu vaccine is a total failure and does not protect from the

flu or anything else. 66 more were hospitalised at Fort Knox about the same time. We do not have the report from all the army camps but, it is quite certain there were a large number of cases of serious vaccine poisoning—no doubt, called by some other name, and death certificates falsified as is usually the case with vaccination deaths. The death certificates of vaccine poisoning usually read, "died of pneumonia" or hepatitis, or meningitis or something else.

The present flu vaccine they are using on the civilian population is just as ineffective and dangerous, and yet, it is being promoted all over the country with disastrous results. No matter how many casualties they have they are determined to use it as long as they can get away with it—because it is profitable. That is its one and only purpose.

Even if the swine flu had been the cause of the soldier's death, one case of a disease is not grounds to stage a nation-wide epidemic. It takes at least 30 cases of the same disease in the same locality to constitute an epidemic.

The vaccine promoters have been frantically trying to find at least one case of swine flu anywhere in the world to justify their custom made vaccination campaign. But they have not found one case—even among the swine. They heard of a man named Larry Hardison in Missouri who had a cold and they rushed to him to try to get a throat sample so they could make a case out of it. But he got well before they got the throat sample. Most of the cases of flu they check are caused by the vaccine itself.

There is no swine flu epidemic in U.S. or anywhere else in the world, and there is not going to be one either unless the vaccine promoters carry out their plan to vaccinate all the people; then there will be a full blown epidemic of vaccine poisoning—not flu.

There are already 113 recorded vaccine deaths and that is enough to be an epidemic of vaccine poisoning.

ALL VACCINES ARE POISON

Vaccines contain decomposed protein such as that which is taken from pustules on sick animals or putrefied eggs mixed with deadly drugs such as carbolic acid (phenol), mercury, formaldehyde (formalin), etc. Decomposed proteins can cause botulism, salmonella or other types of body poisoning. It's no wonder people drop dead after the shots.

All doctors who know the subject know and admit that all vaccines are highly toxic, and the after-effects are unpredictable. No doctor, laboratory technician or scientist can possibly determine the reaction the vaccine will have on each individual. It is impossible to know, in advance, the toleration point for poison which each person has. Therefore it is a deadly gamble—like Russian roulette—as to whether the vaccine will cause instant death (and that sometimes happens), or paralysis a few hours later, or cancer, heart trouble or TB a few years later, or kidney disease, liver damage, insanity (post vaccinal encephalitis—inflammation of the brain caused by vaccines) or some other chronic disease somewhere along the way.

Vaccine is even worse than Russian roulette because that kills only a few and they are usually other crooks, while vaccination kills thousands of innocent and trusting people.

FORD THE PUPPET

After the vaccine promoters "took" Ford for \$135 million, they told him to be a good boy and roll up his sleeve so they could photograph him having a shot to induce all the rest of the people to follow his example. They wanted to use him and his photo and

influence as sales propaganda to sell their poison drugs. He obeyed like a puppet on a string.

No wonder the rest of the world is laughing at us. They see a fake epidemic—a mass poisoning campaign—and our national leaders dancing to the tune of the drug (vaccine) pushers.

Dr G. Nossel of the World Health Organisation said:

'You Americans ought to have your heads examined—No way would we permit it.. . There has been no proper investigation . . . The vaccine has not been properly researched.. . There are too many unknowns.'

From as far away as Australia, there are those in authority who are shocked to see that such a fraud should be permitted—even promoted by the U.S. Government, along with the medical establishment, notorious for their money making schemes.

Dr. Archie Kalokerines, medical superintendent of Colleranebri Hospital in Australia, called the swine flu immunization program "a plan for mass murder . . . If a person is susceptible, the vaccine may act as an immunological insult predisposing that person to things like pneumonia or anaemia . . . If an individual is incubating another flu virus it can cause an immediate and severe attack of that disease.. . We don't know what the long term effects of this drug (swine flu vaccine) will be. It may predispose a person to cancer or other diseases . . ." (See the chapter on **CANCERS CAUSED BY VACCINATION**.)

The above statement is from an exclusive interview with the Glendale News Press (9/24/76) and reprinted *in A report to the Consumer*, by Honour of.

"Harry Nelson, Medical Editor for L.A. Times, reported on an American Cancer Society Seminar for Science Writers, and announced that microbiologists have uncovered new findings that incriminate vaccination. One of the participants was Dr. Robert M. Simpson of Rutgers University, N.J., who stressed that 'Immunization programs against flu, measles, mumps, and polio may actually be seeding humans with RNA to form pro-viruses which will then become latent cells throughout the body . . . Some of these could be molecules in search of a disease, which under proper conditions become activated and cause a variety of diseases including rheumatoid arthritis, multiple sclerosis, lupus erythematosus, Parkinson's disease and perhaps cancer.'" This quote is from the Honour of Report for June, 1976.

The chapter on **CANCER CAUSED BY VACCINATION** shows photographs of vaccine victims with cancers on the arms where the vaccine was injected.

From the **NATIONAL HEALTH FEDERATION** we hear, "The risks of life and health from the high incidence of fever and other side-effects of the swine flu vaccine are substantial. Public health experts estimate that approximately 15% of those inoculated will suffer disabling illness."

Our paid government health agencies who are supposed to warn us of health hazards are not doing it. It has been outsiders who have been busy spending their own time and money to find out facts and warn the people against this colossal medical fraud. One source we need to thank for this is **THE NATIONAL ENQUIRER** and their state-by-

state probe to collect data on deaths from vaccination, cases of swine flu, if any, who started the vaccine hoax and why, etc. In their Nov. 2, 1976 article by Chuck Michelini and Dan Schwartz, they write:

"Blundering government health experts (?) are directly to blame for the trail of deaths in the swine flu program — because they failed to warn people of vaccination dangers. And the mass inoculation program is needless —because there are no cases of swine flu in the entire world.

"Those are the charges levelled by top medical experts — who say the swine flu threat was blown out of proportion, then sold to President Ford and the American public with scandalous "horror tactics."

"Government officials are trying to scare Americans into getting shots with totally misleading TV commercials that say swine flu is contagious — and newspaper ads saying 'you can die' if you aren't vaccinated."

Actually, swine flu is not contagious at all. Like other diseases, it is a cleansing effort of the body to force out the accumulated poisons that have been injected or eaten, breathed or taken in in some other way. Coughing, sneezing, sweating (fever), vomiting, diarrhoea, rashes, eruptions, etc. are the manifestations of the unloading program and should not be interfered with by suppressive drugs or other medical meddling. Most drugless doctors say that most diseases heal normally if the patients stay at home in bed, in a quiet airy room with no food, no medicines, and no drinks except a little warm distilled water.

In case of a cold, most medical doctors say take two aspirins and drink plenty of liquids. That's bad advice because aspirin is a drastic heart poison and should be avoided entirely in all circumstances, and "liquids" — not specific enough. The patient could take that to mean coffee, tea, alcoholics, soft drinks (all of which are poison) or soups, fruit juices, ice water, etc. all of which are harmful in illness. Reasons are given in another chapter.

Although the medical and government propaganda mills sent ads to the major newspapers warning "You can die from swine flu," authorities who were willing to stick to facts were saying just the opposite. For instance, Dr. J. Anthony Morris, one of the government's top experts on vaccines, stated:

"That's absolutely false. There's no evidence that swine flu is a killer . . . It is not contagious . . . There is no evidence that swine flu will spread. It has not been isolated anywhere since it was (allegedly) found in Feb. at Fort Dix, N.J." While addressing a meeting in Los Angeles he said, "...The swine flu vaccine is worthless. There's no evidence that it will protect you against swine flu because there's been no cases of swine flu to test it against."

He also said: "Effectiveness of flu vaccine is comparatively low. Flu vaccine made from inactivated virus particles such as now being manufactured, produces the wrong kind of immunity. It elicits systemic antibody that can be measured in the blood, but does not produce the local antibody in lungs and nose needed to protect against infection to the virus if later infected.

"There is no precise way to measure the potency of flu vaccine that will be offered Americans because the standard units do not measure the mass of virus particles in a vaccine."

Dr. Morris was fired from his job because he opposed the swine flu program and pointed out the defects which showed it could be dangerous as well as entirely ineffective.

Dr. Weidman, of the University of Florida, a recognized virologist, also agrees that the swine flu vaccine is inadequate to do any good. Doctors both here and in England found that their tests on laboratory animals were not encouraging. When the dose was

potent enough to kill the virus it also killed the animals and when it was weakened enough to be safe for animals and people it was too weak to do any good, and was no protection.

"So far, only 25,000,000 Americans out of a total population of 216.2 million have had the swine flu shots. And as Dr. J. Anthony Morris puts it: 'That means 191 million Americans have failed to be taken in by the hard sell propaganda. The swine flu program is a program of incredibly high costs and questionable benefits' " (Enquirer, 12/21/76).

It seems to us that some doctors are slow learners. They should have found out by this time that they can't fight poison with poison, as their poison drugs and medicines only make matters worse in the long run. Most diseases are caused by poisons either generated within the body or imposed upon the body from without such as contaminated, devitalised foods, tobacco, alcohol, coffee, vaccines, fluoride-poisoned water, all drugs, insecticides, radiation, etc. Because vaccines are all poison they do damage in 100% of the cases. The damage ranges all the way from sudden death to chronic diseases in later years.

VACCINE CAN TRIGGER HEART ATTACK

Dr. Selye of the University of Montreal, one of the world's foremost authorities on human stress, stated:

"After inoculations, elderly people and the chronically ill are particularly predisposed to have certain stress reactions such as heart failure." (Enquirer 12/21/76)

In spite of this and other similar findings, the vaccine promoters urged all the senior citizens, the old and ill the high risk cases to be the first in line to get their shots. Because of this mad rush for profits the promoters are guilty of causing all those needless deaths of the elderly people a few hours after they had their shots.

Dr. Cyril Wecht, of Allegheny, Pa. performed autopsies on several of the flu vaccine victims and said:

"People should have been advised to ask their doctor if the shots were safe for them, especially if they'd had heart attacks or high blood pressure — but this was not done."

What good would it do to ask their doctor? Most doctors don't know the dangers of vaccination, and if they did they wouldn't tell their patients, as long as it was profitable to them to keep silent about it. The individual doctors usually do what their medical hierarchy tells them to do, and when they are promoting a vaccination drive the doctors are ordered to comply.

My previous research on vaccination revealed many cases of sudden death from heart failure after vaccinations. As stated many times before, all vaccines are poison and when they are shot directly into the bloodstream they circulate throughout the body including the heart, in a matter of seconds, and continue to circulate and cause corrosion and malfunction of all the delicate tissues of the body. The heart valves are made of fragile membrane which is affected by the poisons, in such a way as to render it incapable of proper functioning, leading to heart failure. At the same time, all other vital organs are impaired by the same poisons.

Most doctors and coroners try to deny the obvious when protecting a favourite money making racket like vaccination. For instance, the Los Angeles County Coroner, Thomas Noguchi performed autopsies on people who had died within 48 hours after being inoculated with swine flu vaccine. His statement, published in Los Angeles Times, Nov. 2, 1976, savoured of both whitewash and sales propaganda when he said: "We do not believe the vaccine had anything to do with their deaths . . . Heart disease of various types was the cause of death in each case The patient with heart disease is clearly at

risk of getting flu if he or she is not protected. Therefore, under guidance of their physician, it is advisable for such high risk persons to get their shots."

If we all followed his advice and got poisoned with the vaccines we would all be dead from vaccine induced heart failure or some other disease of blood contamination.

80% OF ALL MEDICAL DOCTORS ARE UNFIT

In a KABC radio interview, recently, Edgar Berman, M.D., consultant on medical affairs to the White House and associate professor at Johns Hopkins School of Medicine made some startling statements, a few of which are as follows:

"At least some 200,000 M.D.'s practicing medicine today are guilty of incompetence. . . I estimate at least 10% of these are actually fraudulent and corrupt ... And an unfortunately small percentage — certainly less than 15% —are intelligent, hardworking, compassionate, and moral

The scramble for the dollar shows up in statistics. Approximately 1 500 000 (unnecessary) tonsillectomies a year Some 14 000 to 16,000 persons die each year because of the 2,000,000 to 3,000,000 unnecessary operations performed, and God knows how many hundreds of thousands have complications.

"Over the past 50 years doctors have been implicated in producing more infections, crippling and suffering than all the accidents caused by the combustion engine plus every illness foisted on the labourer by industry, from black lung to radiation poisoning.

"Studies at Cornell and Yale have shown that 1,250,000 hospitalisations a year are caused by prescribed drugs. And once in a hospital, you're still far from safe. Our hospitals, even the best in the land, produce over 5,000,000 cases of disease a year."

Dr. Berman wrote a book titled, THE SOLID GOLD STETHOSCOPE. It's a shocker. It "gives the low-down on the high-ups" in the medical field and has the authenticity of a man — a medical doctor — who knows the story from the inside — the seamy side. It's not only informative, it's a million laughs.

There is so much bungling, guesswork, faulty diagnosis and cover-up, both inside and outside of the hospitals, that the doctors conceal their manslaughter cases by calling them "Accidents." There are so many doctor-caused diseases that they have given them a name, "antigenic." It means *doctor-caused* diseases. People think they go to the hospitals to get well — to be healed, but instead, millions of them are made sicker by the treatments, and even killed by the poison drugs, operations and experiments. Most, maybe all, of the hospitals have a separate section set aside for their "iatrogenic diseases." Why are they kept separate? It is probably because the doctors don't want the visitors to see what they have done to them, and also to use them for experimentation. They justify this by claiming they must experiment to find a cure for the diseases they have caused. But they use the same deadly drugs and treatments that caused the diseases in the first place.

The famous Dr. Charles Mayo, in a radio broadcast a number of years ago was honest enough to admit that with all their latest equipment and medical training at the Mayo Clinic, they are able to get only 20% of their diagnoses and treatments right. The autopsies on the dead bodies showed them what they did wrong.

An article in Dr. Shelton's Hygienic Review (Dec. 76) quotes some interesting statements from a group of 18 internationally known scientists. The Chicago Tribune (Dec. 22/76) also carried the article by Ronald Kotulak. Here are a few of their remarks:

The shocking conclusion is that drugs are so widely misused that only 10% of the medications taken in the industrialized world are for disease-related purposes.

"They point out that there is no such thing as a safe chemical, a fact that doctors tend to forget and that most people do not know . . . Doctors frequently prescribe drugs even though they know little about them, and the people eagerly take them. The price which the patients pay in terms of adverse side effects are horrendous.

"Studies in America and England have revealed that, out of every 20 hospital patients, one is admitted because of the harm done by drugs.

"Once in the hospital the risk increases. Up to 18% of the patients suffer from bad side-effects caused by medications prescribed in the hospitals.

"The annual cost of treating this unnecessary and preventable abuse of medications is close to \$3 billion,' said this international Commission of Internal Pollution — a staggering waste of money and health

"Who is to blame for our medicinal extravaganza? The responsibility must be shared by the drug industry, the government agencies that oversee them, the doctors and those who take the drugs.

"Another breakdown occurs when it comes to test new drugs on people. A spot check conducted by the Food and Drug Administration in 1973 disclosed that 20% of the doctors doing these clinical trials were guilty of unethical practices, including prescribing wrong doses and falsifying records."

DRUGS CANNOT CURE

All chemicals and drugs are inert, foreign substances which act as irritants when taken internally. They do not have power to act in the body or cure anything. The only reason why they seem to cause some changes which people like to believe are curative is that the internal defence system tries to eject this unwanted foreign matter, and that sets up a reverse action to remedy the harm done by the drugs or chemicals. This taxes the bodily reserves and delays healing. In the case of some drugs it makes healing impossible.

I talked to a young medical student who said that the med. schools were dominated by the drug houses which are flooding the market with so many new drugs which the students are required to learn that they didn't have time to study anatomy and the things which doctors are supposed to study. No wonder the new doctors don't seem to know anything except how to give drugs, shots and whatever the pharmaceutical houses dish up to them.

The antibody theory collapsed with scientific tests and that leaves the vaccine business without a leg to stand on. (See Chapter on Germ Theory.)

VACCINE PROMOTERS TRY TO DODGE THE BLAME

Now that the vaccine racket is being exposed, the vaccine promoters are trying to squirm out of it by making confessions or trying to lay the blame on others. The day after the scare headlines came out in the papers — "Swine flu can cause death" — and

"the flu vaccine is safe and will protect you. . .", etc., a top virologist for the CDC (Centre for Disease Control) which heads the flu program — admitted that the CDC knew the headlines were false." (Enquirer Probe, 12/21/76).

"An official working with the CDC — Dr. Elmer Spurner, director of laboratories for the Missouri Division of Health, admitted, 'Our tests were not meant to confirm that there was a swine flu outbreak. I don't know how that got into newspaper stories.' "He knows.

He and the other promoters did not issue any denials when the headlines across the country read: "Swine Flu Case is Confirmed," and "Flu Vaccine Rushed to Missouri in Crisis." (Ibid)

After the many deaths, heart attacks, paralysis and other cases of vaccine poisoning began to mount, some of the promoters were asked to justify their widely advertised claims that the vaccine "would protect 85% to 90% of those vaccinated" . . . and that the side effects would be few and "inconsequential." One of the favourite tricks of the guilty was to lay the blame on others. As an example, Dr. John Seal of the National Institute of Allergy and Infectious Diseases said:

"The public should be much more careful in interpreting what we mean when we make such statements." (Ibid) What did he mean?

Another man on the advisory committee admitted:

We don't know what the vaccine will do when it faces the virus." Yet, they all told the people it was "tested and perfectly safe."

In other words, they don't know what they're doing, but they tell lies to lure people into their vaccination centers, and when the deaths and disasters occur, the doctors tell us in effect — "It's your fault for being stupid enough to believe us."

"Dr. Ernest C. Harrmann, associate professor of microbiology at Peoria, Ill., School of Medicine, believes that "*the time has come to ask for resignations of all those behind the swine flu vaccine rip off.*" (Enquirer Probe—12/21/76)

A FEW CONGRESSMEN BLAST THE SWINE FLU HOAX

Not all of our Congressmen are hopeless. Some are actually on our side. Congressman Ron Paul of Texas is also a doctor and is able to see both sides of the swine flu question. Most doctors have tunnel vision and see only one side — the side with the dollar mark.

Congressman Paul, in an interview with the Enquirer (Dec. 21, 76) said: "I am outraged by this program. It has been a shocking misuse of funds ... and an evil political manoeuvre. There are people whose careers are in question because of this program. And I predict these blatant advertising efforts to panic the people into taking swine flu shots will fail.

"I think Congress has wasted more than one hundred million dollars. The swine flu program should be brought back to Congress and discontinued at once. The program should be stopped, and those who were responsible should be held morally accountable to the American public."

Congressman Larry McDonald of Georgia, also a medical doctor, said: "I think the swine flu program is a tailor-made *hoax* that finds its roots in frightening the American people . . . I believe that a full investigation of those in charge should be launched . . . and if it turns out to be a dishonest promotion, everyone responsible should be removed from their jobs."

It's heartening to find that *all* our Congressmen are not corrupt. But where were they, the good ones, when the vote was being taken to endorse and finance this mass poisoning program?

HOW TO PUNISH THE CULPRITS

Removing the guilty from their jobs is not enough. A punishment should be imposed on them which they will feel, and that would be to take away all their money — that's their real love, obviously. If we gathered up all the bribes they have taken from their outside clients, plus all the other millions they have rounded up by using their governmental influence it, would amount to a billion dollars or more —perhaps. With this backlog of funds we could establish some good non-medical schools which would teach the people what to do to take care of their own ailments — even how to avoid all illness. That is possible because many are now living the health life and have no ailments whatsoever. These schools should be kept free from medical domination and political strings.

Health doctors with the right kind of non-medical training get at least 90% more successful "cures" than do the medical doctors with drugs. This project should be carefully supervised to make sure that a lot of pseudo schools do not spring up parading under the guise of the authentic, well trained schools of natural healing.

The present day medical doctors are 30 years behind the well trained health doctors. Medicine is on its way out. It is a failure method which leads the people astray.

LAW SUITS AGAINST THE VACCINE PROMOTERS

When our President and Health Departments joined bands with our mortal enemies-- the poison pushers (vaccine promoters), and failed to warn the people against hazards of the oncoming poison raid, the people were left unprotected, with no use of the mass media (TV, radio, press etc.) and no help from City Councils, Mayors, Congressmen, County Supervisors, or police, because all our paid protectors had given their allegiance to the public poisoners. When the vaccine was causing death and disaster soon after the campaign was launched and the trusting unwarned, people were walking blindly into the vaccination centers, the few "do-gooders" who knew what was going on tried to reach as many as possible with WARNING leaflets and meetings. But that was not reaching enough people. It is a helpless feeling to see all our tax supported public officials working against the people and supporting a killer racket.

A few tried to go through legal channels with law suits against our derelict president and the heads of **the** vaccine campaign. But that is a slow and expensive procedure, and besides, these hard working "do-gooders" were not making any money at their self appointed task of warning the people of the deadly hazards of the vaccines.

Three suits were filed from California. One suit which is progressing well was filed by Lewis E. Cook Jr. of San Diego, Calif. He charges that the inserts that appear in the vaccine packages produced by Merck, Sharp and Dohme, Wyeth, and Park Davis (firms making the swine flu vaccine) do not state the vaccine "might be in any way effective in Preventing influenza . . ." which is supposed to be its purpose and its only justification...

"The claims that influenza vaccine will or can prevent influenza cannot be made legitimately since there is no evidence anywhere in the world which would suggest that influenza vaccines have ever prevented even one case influenza.

"The data indicates that the entire mass immunization program is fraught with unknowns, suppositions, speculations, assumptions and little or practical and sound scientific validity---conceived and implemented in a most amateurish, haphazard and irresponsible manner, which poses a threat to the health -lives of the American public....

"Antibodies (supposedly) produced by the injection of the inactivated and disrupted whole virion and subvirion flu vaccines manufactured for swine flu cannot be shown to be effective in preventing swine flu ... The whole mass immunization program is fraught with dangers and risks without sound scientific data. The immediate, short, and long term adverse effects of the vaccines could not have been adequately determined during the brief period of only 3 or 4 months during which experiments on a few humans were conducted prior to publication" (of drug inserts).

It usually takes the drug companies several years to test vaccines before trying them out on people.

The third suit was filed by Ida Honour of representing People Against Political Inoculations, and of The National Health Federation. They joined forces to file suit in the U.S. District Court to stop the misuse of public funds for a vaccination campaign that has not been proven safe or effective. They assert that the mass inoculation program violated the U.S. Constitution--First Amendment. They request that the whole program be discontinued "unless and until grave doubts and hazards associated this massive vaccine program are disclosed and fully known to the public." Honour of contends that the swine immunization program has been "a series of lies, deceptions -and errors of judgment. We're asking Ford, and Education and Welfare (HEW) that they terminate the program at once. The greatest danger is not flu but vaccine itself." (Published in VANGUARD, Sept. 76)

AMERICAN MEDICAL ASSOCIATION HAS BEEN OUTLAWED

The A.M.A. was found guilty in a U.S. Court of Law for violating the Anti-trust act a number of years ago. Dr. Morris Fishbine, President of the AMA, at that time, was sentenced to a prison term and the AMA was fined and admonished to cease and desist from their illegal activities. Fishbine didn't serve his prison term and the fine was not heavy enough to worry the association so they have continued to operate in violation to the law ever since then. Therefore, they are an "outlaw gang."

NEW ANTI-TRUST SUIT AGAINST A.M.A. FILED BY CHIROPRACTORS

On Oct. 12, 1976 an anti-trust suit was filed in Chicago, U.S. District Court, against the American Medical Association. This suit was filed by a group of Chiropractors who have proof that the AMA has, for years, boycotted, libelled, and tried to destroy and eliminate the whole chiropractic profession. Details in an article in SPEARS HOSPITAL NEWS, (Denver, Dec; 1976).

The AMA has not only carried on a continuous fight against Chiropractors, but all drugless fields of healing, most, if not all of which have safer and more successful methods of healing. Some of the drugless methods are not as good as others but, at

least, they don't use poison drugs and knives, so they cannot do the harm that medical methods do.

The medical profession has no safe and sure cure for any disease. I know because I have worked with medical doctors. They hired me for what I knew that they didn't know. But, in spite of their lack of ability to cure anything, they used dictatorial powers to put out of business and into prisons many drugless doctors who could "cure" what they couldn't cure.

I know several highly successful health doctors who were practicing under Chiropractic licenses, but were sent to prison for "practicing medicine without a medical license." This was in a state where the medical dictatorship held sway, and they would not allow any other school of healing to practice there, although the drugless doctors achieved better results than they did.

Medical doctors call all other healers "quacks." A quack is one who claims to be able to cure diseases, and takes money for it, and does not "cure" the patients. Doesn't this description of "quack" fit practically all the medical doctors? They can't cure cancer; they can't cure arthritis; they can't cure colds or anything, but they treat the patients and take their money.

The better drugless doctors have "cured" all these diseases without drugs.

When President Ford rolled up his sleeve and had a shot for advertising purposes, he was making it clear that the government endorsed the vaccine program and he wanted all the people to follow his example and be vaccinated. When a person tells others to take a certain medication he is prescribing medicine. Technically speaking, Ford was practicing medicine without a license. The AMA likes to put people in prison for practicing medicine without a license. The medical associations usually pick on their business rivals, the drugless doctors. Will they put Ford in Prison for committing the same crime they have convicted others for? Or, is there one law for those who oppose the harmful medical methods and another law for those who help promote medical crimes?

2,000,000 DOSES OF DEFECTIVE SWINE FLU VACCINE CONDEMNED

The haphazard and slipshod methods used by the vaccine makers has produced vaccines that have killed and paralyzed hundreds of people already, and no one seems to be supervising them. There are no safeguards, no tests and no proof of safety and effectiveness required of the vaccine makers except what they, the manufacturers, set for themselves.

The Los Angeles Herald Examiner (June, 3/76) published an AP report stating that the experimental "vaccine ready for testing on elderly and high risk cases was found to be defective. As a result, the program would be delayed 6 weeks. The Public Health Service said that 2,000,000 doses will be held in reserve for use if the correct vaccine is in short supply."

They admit it is a bad batch---too dangerous to use---and it is condemned, yet they didn't destroy it as they should have done. They intend to use it anyway--if they can get away with it---who would know the difference, (seems to be their attitude) as long as they can sell it and make money.

Who will know which of the unlucky people will get the bad vaccine? The vaccinators are not going to tell. Were all those 113 people who died a few hours after the shots given some of the condemned vaccine? Or was it approved vaccine? They're just as dead with one or the other, as *all vaccines are poison*---they are purposely designed to cause illness.

The bad batch was not discovered by government inspectors or by the lab technicians making the vaccine, but by another doctor not assigned to that task. We wonder who is supervising the supervisors. Is there another "outsider" sleuthing in all the laborato-

ries which make the vaccine, looking for mistakes that pass as safe vaccine? We think not, as there have been too many casualties for that possibility.

Mistakes are also being made in other laboratories making different vaccines. This has been going on for years. Back in the days when the polio vaccine was being high-pressured on the public, the same Dr. Anthony Morris who is trying to warn us against the dangers of the swine flu vaccine, was doing the same then. He found that some of the polio vaccines were contaminated with SV 40, a virus known to cause cancer in monkeys and hamsters.

It's frightening to think that all this uncertainty, careless, unscientific guesswork with its deadly hazards passes for safe and scientific vaccination, approved by the government, the schools, the medical boards, the press and then passed on the people as something that they must not question or criticize.

The only way to be safe from these blood poisoning, money making vaccine campaigns is to refuse all shots. Prevention is better than cure; and much can be learned by reading good health books written by qualified health researchers. A few are listed in the bibliography. Don't be fooled by medical books with *health* titles. They have misled and mistaught the schools and the general public, for over a century. Medicine is not health. It is a health destroyer. "Preventive" medicine should actually "Prevent" medicines and drugs, and then it would be doing some good.

People are often fooled by, **SO** called "scientific findings" which are not scientific at all, but are manipulated by schemers, and then bought and paid for to be used as propaganda. The following is from an article in the Los Angeles times (11/26/76). The survey was run by Dr. Ian St. James-Roberts of London. (See page 42)

"MANY FAKE FINDINGS BY SCIENTISTS SEEN"

"Many scientists may be faking their findings, according to a report published Thursday in New Scientist magazine.

"The magazine asked scientists in a questionnaire whether they knew of cases of 'intentional bias'--- faking results to make experiments appear well conceived and important.

"90% of 200 replies reported knowledge of such cases.

"University scientists proved the worst offenders. Most cheaters were discovered by other scientists trying to duplicate the experiments. But those who replied said the gains from such frauds were often nothing, but in a few cases resulted in promotion.

"Some scientists implied that drug companies encouraged them to cheat by being obsessed with getting positive results, for one forensic scientist said it was not unusual for the police to indicate the sort of forensic (legal procedure) evidence they would prefer."

We wonder what pressures, bribes or other inducements were offered the, so called, scientists to say that the swine flu vaccine was properly tested and safe. Dr. Wecht said people should have been warned that the vaccine could trigger heart attacks, "but this wasn't done."

Many people who saw through the fraud from the start tried to get warnings in the papers and on TV. and other channels of communication, but the media turned a deaf ear.

SWINE FLU PROMOTERS TRIED TO CON THE SWINE RAISERS

In the planning stage, the vaccine promoters expected to round up a few cases of flu and stampede the whole world into the vaccination centers like they did for the 1918 flu epidemic. That would be a multi-billion dollar profit, like their lucrative polio vaccine drive. But the world didn't take the bait this time, and most of the Americans didn't

either. So the promoters thought they would have a ready market with the swine raisers because they had named the vaccine "swine" flu vaccine. They tried to sell 80,000,000 doses of the vaccine to the swine raisers, but they saw through the fraud and turned it down without hesitation, not that hogs don't have ailments sometimes --they do when they are fed wrong and medicated. But the hog raisers had learned through bitter experience that shots, in previous years, had disastrous effects on their herds and they lost hogs and money from it.

If the hog farmers had enough common sense to refuse the poison shots for their hogs, why couldn't our high priced President and Congress use some of that common sense and do the same? Aren't our leaders as interested in Protecting us from the commercial poisons as the farmers are in protecting their pigs?

When the opportunists see a weak president on the "throne" they plan to "use him". When they staged massive polio vaccine drive in the 1950's they worked on the smiling, affable President Eisenhower and got \$9,000,000 to start with, then kept twisting his arm until they wrenched \$63,000,000 from him (the taxpayers) to support their killer vaccine campaign.

President Franklin Roosevelt was another "touch." He even let them use him and his infirmity to advertise and sell their polio vaccine.

The same drug houses and vaccine promoters got \$100,000,000 from Nixon.

After the polio vaccine drive was over the promoters bragged that they had raked in \$5 billion dollars over the several years they kept polio vaccine sales going.

PRESIDENT COOLIDGE UN-SWAYED BY MEDICAL PRESSURE

We need strong, intelligent leaders. Where are they now when we need them? President Coolidge set a good example. When the Jones-Parker Bill and the Randall Bill (bills to set up a medical dictatorship within the government, raising the head potentate to the official status and salary of the Surgeon General of the Army) were rushed through Congress in 1928, and were brought before President Calvin Coolidge, he was unmoved by the high pressure medical lobbying. *He looked at the bills and stopped them with a Presidential veto.* He gave as his reason for this action:

"These bills give a military status to men supposed to be engaged in scientific research."

The plot of medical establishments to set up a medical dictatorship in U.S. goes way back to the Founding Fathers when they were framing the U.S. Constitution. There were quite a number of medical doctors in Congress at that time trying to high pressure a constitutional decree to set up a medical dictatorship. But the wise opposition won. Dr. Benjamin Rush and Dr. Josiah Bartlett were the opposing forces. They convinced Congress that one branch of healing in control would be as bad as one religious sect dominating all the others. That's exactly what we were fighting against.

George Washington was also a strong President. Even that long ago in 1775 he knew more than our present day doctors do about the harmful effects of vaccination. He issued an order that no man in the Continental Army was to be inoculated. Any enlisted man or officer who submitted to that blood contaminating practice would be dishonourably discharged. He had seen the devastation of smallpox caused by the practice of arm-to-arm inoculation which was introduced from Europe. Edward Jenner and his cow pox abomination did not begin until 1791--16 years later. Both methods caused widespread disease, disability and death until compulsory vaccination was abolished all over the world except in about three backward countries and the U.S. armed services. These are the places which still have outbreaks of the same diseases they vaccinate against. And the diseases are in the vaccinated.

George Washington had enough problems without a lot of vaccine induced disease. Vaccination and inoculation was practiced by the unenlightened as far back as 1,500 years B.C. (See the chapter on HISTORY OF VACCINATION).

What is wrong with our leaders of today. Are their heads turned by bribes or can't they tell the difference between false propaganda and facts. They are being paid by us to do some home work and investigate before putting our lives and our money on the line.

The following poem sounds a clarion call:

GOD GIVE US MEN

"God give us men! A time like this demands Strong minds, great hearts, true faith and ready hands Men whom the lust of office does not kill; Men whom the spoils of office cannot buy; Men who possess opinions and a will; Men who have honour; men who will not lie; Men who can stand before a demagogue and damn his treacherous flatteries without winking. Tall men, sun-crowned, who live above the fog In public duty and in private thinking; For while the rabble, with their thumb-worn creeds Their loud professions and their little deeds, Mingle in selfish strife, Lo, Freedom weeps, Wrong rules the world, and waiting Justice sleeps. —Josiah Gilbert Holland

WHAT OUR LEADERS SHOULD HAVE CHECKED ON BEFORE THROWING US TO THE KILLER (VACCINE) SHARKS

(1) First of all, Ford, Congress and the other leaders paid to look after our interests and safety, should have required a guarantee that the vaccine was safe--not deadly. The propaganda of the sales crew said it was safe, but they gave no proof and no guarantee. The sales crew are not authorities; so Ford should have demanded a money back guarantee from the pharmaceutical houses making the vaccine. There should have been written proof of safety and effectiveness before the \$135,000,000 was paid. But, the drug houses could not give any proof of safety because they knew it was not safe. Their lab. tests and field tests proved it killed test animals and people. This was not made public.

A number of years ago when the diphtheria toxin-anti-toxin was being promoted, some suspicious people went to the laboratory making the vaccine, and asked for a written guarantee. The lab. refused to give any statement of safety, and admitted that "all vaccines are unstable and unpredictable in their effects, and could never be declared safe."

If Ford and the rest of the government had taken care of that necessary bit of business (making a careful check) before transacting the questionable \$135,000,000 deal, then the flu vaccine would have been rejected and the taxpayers would not have been swindled out of the \$135 million. Besides that, all those people who were killed by the vaccine would still be alive and happy today.

(2) The promoters said that the vaccine would prevent flu. It didn't; it caused it.

(3) They said the flu was contagious and the vaccine would protect people. Flu is not contagious. It is caused by the blood poisoning effects of the vaccine itself as well as other kinds of body contamination. Viruses and germs cannot cause disease. (See the chapter on WHY GERMS CANNOT CAUSE DISEASE.)

(4) The vaccine promoters said the blood samples from the man who died at Fort Dix showed viruses like the blood samples from the 1918 flu epidemic and that it could trigger a widespread, deadly epidemic like the previous one.

This is not true because there are no virus-bearing blood samples from the 1918 flu epidemic. That epidemic was 58 years ago and viruses were unknown then. The first swine virus was discovered by a U.S. man in 1931. A British science team isolated the

first virus in man in 1933. But, viruses have never been proved to be the cause of disease anyway, although the vaccine makers try to use them as a scare tactic, knowing that they are so small that people can't see them or prove one way or another if they have any. One dictionary definition of virus is "a morbid poison." A poison is an inert substance. It cannot move about and attack people.

If any blood samples from the 1918 flu epidemic are still on record they would be so dried up and changed in structure that they couldn't prove anything. Certainly no germs or viruses would be seen.

I have examined fresh blood samples under the microscope in college and saw how rapidly the blood changed in color and structure as it dried on the plate in just a few seconds. A sample 58 years old is a poor excuse for the vaccine promoters to try to rely upon for proof.

Viruses would not have even been mentioned in the medical or lab. reports for the 1918 period because they were unheard of. And besides, they couldn't be seen with the kind of microscopes they had then.

The flu of 1918 was caused by the conglomeration of diseases which the sinister variety of vaccines brought on. Practically everyone in the world had been propagandised into submitting to all the vaccine that were invented---the surplus stock left over from World War I which was the first war in which all the vaccines were used. The vaccinated got the flu and the unvaccinated didn't. I was one of the unvaccinated and I didn't get the flu. I didn't see an unvaccinated person who got the flu.

QUESTIONS THAT SHOULD HAVE BEEN ANSWERED BEFORE CONSIDERING ANY VACCINATION DRIVE

Ida Honour of, head of PEOPLE AGAINST POLITICAL VACCINATION, tried to get the Los Angeles Board of Supervisors and certain other officials to put pressure on David Mathews of Health, Education and Welfare, and other promoters of the vaccine to answer some important questions before they embarked on the questionable vaccination drive. Mathews was in LA to give a talk and his mind was already made up to promote the vaccine. Honour of, confronted him and presented him with the list of questions, but he didn't answer them and the Supervisors didn't request him to.

The questions are as follows:--

(1) Can you define any benefits derived from the swine flu vaccine? According to the law the benefits must outweigh the risks. (They don't.)

(2) Will the swine flu vaccine prevent swine flu? (It never has.)

(3) Is it true that if one gets the "shot" will he get an even more severe case of flu? (Yes, and death 113 cases.)

(4) Why were Dr. Morris' test animals in 4 laboratories destroyed? His test results would have shown the efficacy or hazards of the vaccine.

(5) Did Health, Education and Welfare submit any testimony before the sub-committee on Health and Environment.....at their scheduled hearings, relating to possible hazards of the swine flu vaccinations, names of persons submitting opposing evidence and how many witnesses were heard that opposed the program?

(6) Is there any evidence that a high percentage of those who have the shots will receive no benefits?

(7) Claim is made that 70% of the people who get vaccinated would be protected. Among the unvaccinated 75% would be protected. Explain these contradictions.

(8) Can you give any evidence that a swine flu epidemic exists? (None)

(9) It takes approximately 10 years of testing and research to approve any substance, drug or biological which is to be administered into the human body. If the same standard applies to vaccines why has not the swine flu vaccine been subject to the same tests which the FDA says are necessary before injection into human beings?

(10) Even though the Pharmaceutical insert accompanying the flu vaccine cautions against "*injecting intravenously*," isn't it true that there *is no control with the jet injector*, which explodes the vaccine into the skin with 1,300 pounds pressure--- into tissue space, tissue cells, directly into the arteries, veins, lymph vessels (and right to the heart) thereby producing great destruction, and eventually ending up in the blood stream?

(11) Each of the vaccine manufacturers making the swine flu vaccine (Park-Davis, Merrell, Wyeth, Merck) use a mercury derivative as a preservative. The danger of (the highly poisonous) mercury injected into the body--or inhaled or ingested, etc. is well documented.

(12) Why is the printed form which is presented to persons to sign before getting their shots, read "registration," when Public Law 94-390 specifically stipulates that it be a "consent" form. This was strenuously objected to by the National Commission for the Protection of Human Subjects of Biomedical and Behavioural Research, and they asked that said forms be destroyed and not used, since they are definitely not "consent" forms, and are gross violation of the act.

(13) What is the detailed definition and description of swine flu?

(14) Is there really a disease called "swine flu"?

(15) Why wouldn't vaccine manufacturers produce and distribute the vaccine without indemnification from all the liability for vaccine-caused sickness, disabilities and deaths?

(16) Why did the insurance companies refuse to provide such insurance?

(17) Why were the people and public tax money, made responsible for all liabilities and claims resulting from the sickness, disabilities and deaths caused by the swine vaccine?

(18) Who benefits from the mass vaccination of 215 million Americans?

(19) Is it really necessary or advisable for everyone to get a swine flu vaccination? (No)

So far, the flu promoters have not answered the questions.

DEATH COUNT MAY NEVER BE KNOWN

Up to January 7, 1977 the death count from swine flu vaccine was 113 (people) and paralysis was 139. We have reason to believe that this is only a fraction of the actual casualties. During the polio vaccine drive in the early 1950's when the shots caused so many deaths and cases of paralysis, Dr. Dale, of the Los Angeles Epidemiology Department, said that for every case that was reported there were an estimated 15 unreported cases. Many vaccine deaths were recorded as from other causes, to conceal the hazards of the vaccine.

During my 30 years of research and writing I have uncovered facts that prove the medical records and death certificates are sometimes deliberately falsified and changed to cover up guilt of doctors and lab. technicians. **(See the chapter on FALSIFIED DEATH CERTIFICATES AND MEDICAL RECORDS.)** -

All vaccines are poison, and therefore, cause death and disease. This is a known fact, and every vaccination campaign has brought on a large number of disasters. Those of us who knew this, tried to warn the people and ward off the vaccine drive. But the din of the well financed vaccine juggernaut drowned out our cry, and the high pressure advertising scare campaign panicked millions into the vaccination centers. We knew death and disease were inevitable — but none were announced in the papers at first. Therefore, Ida Honorof (head of Citizens Against Political Vaccinations) decided to do what the health officials should have done; she went to the L.A. County coroner and made a check on the deaths. She found that five people there had died within 48 hours after their flu shots. Some were young and didn't have other ailments that could be blamed for their deaths. The vaccine promoters including the health departments had intended to cover up the vaccine deaths and disasters. But Honorof brought it out in the open. She contacted the National Health Federation (a non medical group which tries to protect the people from health hazards from medical, commercial and political sources. They called a public meeting in Glendale, Calif. where they aired some startling facts about the vaccination campaign and the mounting disasters caused by the poison vaccine. Some of the relatives of the flu victims were there and gave account of the state of health of those who were killed by the vaccine.

After this expose' the papers had to announce some of the deaths as it was no longer possible to conceal them. The coroner and doctors tried to gloss over it by saying that the deaths were all from heart trouble and they would have died anyway without the shots. Naturally, the heart stops when a person dies from any cause, so heart failure is an "easy out" for the coroner.

For a few days, deaths were announced in the papers until the count rose to 52. Then suddenly the death reports stopped. People got suspicious because the vaccinations were continuing and we knew that all vaccines are poison and that means that people do die from the shots.

Honorof did a little more detective work and learned that Dr. Shirley Fannin, Chief of Acute Disease Control Centre of LA had met with the vaccine promoters and medical boards to decide what they could do to keep the people from finding out how many

were being killed by the vaccine. They decided among themselves not to count as vaccine casualties those who didn't die suddenly within 48 hours after getting the shots.

This was a shocker. The idea that these poison promoters who were killing the people with wild abandon, had set themselves up to be so high and mighty that they could lay down the law as to what hour people could die, and if they happened to die 49 hours after the shots they would not be dead from their poison vaccine. Dr. Fannis then wrote a letter to the Coroner ordering him to not announce the deaths as vaccine casualties unless they died within her 48 hour time span. This gives us an idea of the tricky business they have been carrying on all through the years, and we didn't suspect a thing.

The 48 hour "cut off time" of theirs, cuts out those thousands who died a little later. It also cuts out Private David Lewis, the man who died at Fort Dix, New Jersey of what the doctors diagnosed as swine flu. *He died more than six weeks* after his vaccinations at camp. He was the one and only case of swine flu the doctors have found in the whole world. He was all they had to hang their whole nation-wide swine flu scare on. And now, their own medical decree that it isn't swine flu unless he dies within 48 hours, knocks out their one and only case. Actually, the official diagnosis by military doctors was that Pvt. Lewis died of A-Victoria flu (vaccine), not swine flu.

Now, without one authentic case of swine flu and without any epidemic except the epidemic of vaccine poisoning, the vaccine promoters and all the doctors who participated in giving or endorsing the shots, as well as the political heads who financed it, *are all guilty of hundreds of vaccine deaths--murders*. What are we going to do about it? Are there enough honest and concerned officials to prosecute them and make them pay all the damages and then put them out of circulation?

WHO POCKETS THE MONEY?

The arrangement was that the \$135,000,000 of the people's money was for vaccine doses for all the 215 million people in this country, at 50c a shot. So many people were killed and paralyzed by the vaccine that the campaign had to be stopped before a riot broke out to kill all the doctors and vaccine promoters--and a few others. So only a few in the country were vaccinated. Even if we stretch a point and estimate that there were 50,000,000 who had shots, that would be only 25,000,000 dollars used out of the \$35,000,000. That leaves \$110,000,000 of our money which they, the promoters, still have. Do those doctors and various other crooks intend to pocket the \$110 million? It should be returned immediately to the treasury and the vaccine promoters billed for the rest of the \$25,000,000 which they took under false pretenses, because there was no epidemic and the vaccine was not safe and all their promises and claims were false.

COMPULSORY ARMY VACCINATIONS ARE UNCONSTITUTIONAL

Private David Lewis who died at Fort Dix, supposedly of swine flu, would be alive today if the Army had not violated the law by forcing the poison shots on the soldiers. Our U.S. Constitution gives us the "*right* to be secure in our persons." Therefore, all enforced vaccination (mass medication) is a violation of our legal rights.

According to Blackstone (the "Bible" of the lawyers): "No laws are binding upon the human subject which assault the body or violate the Conscience."

The U.S. Supreme Court ruled that:

"No right is held more sacred or is more carefully guarded by the common law, than the right of every individual to the possession and control of his own person, free from all restraint or interference of others

Judge Cooley stated: "The right of one's person may be said to be a right of complete immunity; to be let alone."

In the official code book of the U.S. Armed Services titled, UNION CODE OF MILITARY JUSTICE, we find that there *is no compulsory vaccination law* in any of the branches

of our military services. Therefore, as there is compulsory vaccination law in United States or the military establishment, the enforced vaccinations on our recruits is against their legal rights. Because vaccines are proved to be poisonous and harmful in all cases, the military forces are *guilty of* malpractice and subject to the laws governing that offence.

One woman I talked to has already sued the Army for \$1,000,000 for causing the death of her son as a result of shots at camp. In England, so many outraged parents sued the government for vaccine damages to their sons in the military services, that the government abolished compulsory vaccination in both the military and civilian life. (See the chapter on WHAT VACCINATIONS DID TO OUR SOLDIERS.)

HOW WILL OUR NEW PRESIDENT CARTER HANDLE THE SWINE FLU SWINDLE?

Last Spring (1976) the epidemic makers were in a frantic rush to get President Ford to give them the full payment of \$135,000,000 immediately, with no questions asked, no guarantee of safety and with no swine flu epidemic pending, not a case in the world, and they didn't even have any effective vaccine.

Why the big rush we wondered. The only obvious answer was that the November Presidential election might remove their "pigeon." They knew Ford was easy to manipulate and they wanted to "use him" while they had him on a string. A new president might take a second look and refuse to support their private money making racket.

Now, the election is over and our new President Carter is left with the ragged ends to clean up, left from Ford's term. We are wondering how he will handle "Ford's Folly" and if he will investigate the vaccine scandal and require the guilty ones to repair their damages and return our money they took under false pretences

We are hoping that President Carter will not be swayed and dominated by the powerful medical and drug lobby. But one blotch on his past record makes us wonder. We heard that he let himself be controlled by the *fluoride promoters* and paid them to poison the entire state water system of Georgia. If he is a man for the people why didn't he investigate the other side, not just the false sales propaganda? Chemists report that "fluoride compounds rank along with cyanide and arsenic in toxicity." Sodium fluoride or hydrofluosilicic acid is the form which is used to poison the public water supplies. Most water supplies already contain calcium fluoride which is also poisonous, but sodium fluoride is 15 times more poisonous than calcium fluoride. A few states such as Texas are working to filter out all the fluoride even the calcium fluoride because they have found by tests that all fluoride is too dangerous for them.

Sodium fluoride is a cheap by-product of the aluminium and fertilizer companies. About the only thing it is good for is rat poison. But their promotion man conceived the idea of selling it to the politicians to dump in the public water supplies. Enough City Council members were "on the take" or weak minded enough to buy the sales propaganda and consequently quite a number of cities and a few states were fluoridated. However, hundreds of them have abandoned the program when it was found, after years of use, that the fluoride was not only expensive, it was damaging to the health and to the water pipes and all equipment that came in contact with the poisoned water.

Their main selling point is that it (fluoride) prevents cavities in children. This is false. Fluorides deteriorate the bony structure of the entire body and make the tooth enamel brittle, thus causing more dental trouble in later years.

FLUORIDATED TOOTH PASTE DANGEROUS

TV commercials saying that fluoridated tooth paste has 20 tests proving that said tooth paste prevents cavities, should be investigated. Some dental associations have been

"procured" by the fluoride promoters, and they try to get all the dentists under their influence to endorse fluoridation. But those who dare to tell the truth say fluoride is damaging to the teeth and the general health. The membrane of the mouth is very porous and the poison fluoride in the tooth paste enters the blood almost immediately and causes kidney disease and all kinds of diseases of body poisoning. (See the chapter on FLUORIDATION.)

MEDICINE — ON THE WAY OUT

The study of medicine has never been a science. It creates far more illness than healing. Recovery occurs in spite of the drug treatment because of the internal healing forces within all living organisms which struggle to survive.

Books on the newer knowledge of "nature cure", teaching the underlying fundamentals of health and healing will soon be available to the general public and they will read them and be able to follow the rules and avoid disease. Those who are already ill will be able to "cure" their ailments better than the established medical methods. This will make medicine obsolete — out of date and unpopular.

In closing this chapter I should like to state that all medical men are not guilty of the crimes exposed in this booklet. A few doctors are sincere in their efforts to help their patients. Their weakness is that they are badly trained and dominated by an organization which leads them away from their avowed purpose. There is hope for those who want to learn better ways and help the sick get well. If they don't try to catch up with the modern "health doctors" and "natural methods" of healing, their patients will outstrip them in knowledge and ability and leave them trailing in the dust.

A BETTER CAMPAIGN

The swine flu vaccine campaign was such an obvious fraud, with no epidemic, not even one authentic case of swine flu anywhere in the world, it makes us wonder about the sanity of the promoters. If they really wanted to combat a growing health disaster why don't they work against something that is killing millions, such as SMOKING? Tobacco and its smoke contains over 30 poisons, three of which are cancer causing. Over 300,000 people in the United States alone, die from the effects of poisons in tobacco. The great number of cases of tobacco heart, lung cancer, Burgher's disease (gangrene of the feet caused by smoking), and many other diseases of tobacco poisoning, make smoking the number one killer of today. Smoking kills more in one year than were killed in all our wars from the American Revolution on down to the late Vietnam war, and hardly anyone is trying to stop it. Our government subsidizes the killer tobacco industry because it brings in around \$8 billion in revenue. But the damages and disasters caused by smoking (fires, death, disease, etc.) cost this country over \$24,000,000,000 (billion) every year.

Ford and our government gave \$135 million to support a fake swine flu epidemic which killed and paralyzed hundreds (maybe thousands if we had the "un-doctored" records), so why not bring that money back from the medical swindlers and put it into a campaign to get rid of the real killer of men, women and even children. Many children die of tobacco heart because they have to breathe the poison fumes from their smoking parents; also, they learn to smoke early because they see it all the time and think it is all right because their parents smoke. (Read my book, ANSWERS FOR THE WORRIED SMOKER, which tells how to quit without the "cold turkey" method, which is harmful and not too effective. Write to E. McBean, Box 55278 — L.A., Calif. \$5.00, postage and tax paid. Deluxe edition.)

Some people are wondering if Chicago's famous Mayor Daily also got a wrong dose of the flu and suddenly died, the same as hundreds of others within hours after their flu shots.

If anyone knows for sure if Mayor Daily had a swine flu shot, please write and give me the such as time, place, who gave the shot, etc.

Thank you, E .McBean

THE SPANISH INFLUENZA EPIDEMIC OF 1918 WAS CAUSED BY VACCINATIONS

Chapter 2 from the book Swine Flu Expose by Eleanora I. McBean, Ph.D., N.D.,
Published in 1977

As has been stated before, all medical and non-medical authorities on vaccination agree that vaccines are designed to cause a mild case of the diseases they are supposed to prevent. But they also know and admit that there is no way whatsoever to predict whether the case will be mild or severe - even deadly. With this much uncertainty in dealing with the very lives of people, it is very unscientific and extremely dangerous to use such a questionable procedure as vaccination.

Many vaccines also cause other diseases besides the one for which they are given. For instance, smallpox vaccine often causes syphilis, paralysis, leprosy, and cancer. (See the chapters on smallpox and plagues.) Polio shots, diphtheria toxin-antitoxin, typhoid vaccine, as well as measles, tetanus and all other shots often cause various other stages of disease such as post-vaccinal encephalitis (inflammation of the brain,) paralysis, spinal meningitis, blindness, cancer (sometimes within two years,) tuberculosis, (two to twenty years after the shot,) arthritis, kidney disease, heart disease (heart failure sometimes within minutes after the shot and sometimes several hours later.) Nerve damage and many other serious conditions also follow the injections.

When several shots are given (different vaccines) within a few days or a few weeks apart, they often trigger intensified cases of all the diseases at once, because the body cannot handle such a large amount of deadly poison being injected directly into the bloodstream. The doctors call it a new disease and proceed to suppress the symptoms.

When poison is taken by the mouth, the internal defence system has a chance to quickly eject some of it by vomiting, but when the poisons are shot directly into the body, bypassing all the natural safeguards, these dangerous poisons circulate immediately throughout the entire body in a matter of seconds and keep on circulating until all the cells are poisoned.

I heard that *seven men dropped dead in a doctor's office after being vaccinated*. This was in an army camp, so I wrote to the Government for verification. They sent me the report of U.S. Secretary of War, Henry L. Stimson. The report not only verified the report of the seven who dropped dead from the vaccines, but it stated that there had been 63 deaths and 28,585 cases of hepatitis as a direct result of the yellow fever vaccine during only 6 months of the war. That was only one of the 14 to 25 shots given the soldiers. We can imagine the damage that all these shots did to the men. (See the chapter on What Vaccinations Did to Our Soldiers.)

The first World War was of a short duration, so the vaccine makers were unable to use up all their vaccines. As they were (and still are) in business for profit, they decided to sell it to the rest of the population. So they drummed up the largest vaccination campaign in U.S. history. There were no epidemics to justify it so they used other tricks. Their propaganda claimed the soldiers were coming home from foreign countries with all kinds of diseases and that everyone must have all the shots on the market.

The people believed them because, first of all, they wanted to believe their doctors, and second, the returning soldiers certainly had been sick. They didn't know it was from doctor-made vaccine diseases, as the army doctors don't tell them things like that.

Many of the returned soldiers were disabled for life by these drug-induced diseases. Many were insane from post-vaccinal encephalitis, but the doctors called it *shell shock*, even though many had never left American soil.

The conglomerate disease brought on by the many poison vaccines baffled the doctors, as they never had a vaccination spree before which used so many different vaccines. The new disease they had created had symptoms of all the diseases they had injected into the man. There was the high fever, extreme weakness, abdominal rash and intestinal disturbance characteristic of typhoid. The diphtheria vaccine caused lung congestion, chills and fever, swollen, sore throat clogged with the false membrane, and the choking suffocation because of difficulty in breathing followed by gasping and death, after which the body turned black from stagnant blood that had been deprived of oxygen in the suffocation stages. In early days they called it Black Death. The other vaccines cause their own reactions — paralysis, brain damage, lockjaw, etc.

When doctors had tried to suppress the symptoms of the typhoid with a stronger vaccine, it caused a worse form of typhoid which they named *paratyphoid*. But when they concocted a stronger and more dangerous vaccine to suppress that one, they created an even worse disease which they didn't have a name for. What should they call it? They didn't want to tell the people what it really was — their own Frankenstein monster which they had created with their vaccines and suppressive medicines. They wanted to direct the blame away from themselves, so they called it *Spanish Influenza*. It was certainly not of Spanish origin, and the Spanish people resented the implication that the world-wide scourge of that day should be blamed on them. But the name stuck and American medical doctors and vaccine makers were not suspected of the crime of this widespread devastation — the *1918 Flu Epidemic*. It is only in recent years that researchers have been digging up the facts and laying the blame where it belongs.

Some of the soldiers may have been in Spain before coming home, but their diseases originated in their own home-based U.S. Army Camps. Our medical men still use that same dodge. When their own vaccines (required for travel) cause vaccine diseases abroad they use this as grounds for a scare campaign to stampede people into the vaccination centers. Do you remember the Hong Kong Flu and the Asian Flu and the London Flu scares? These were all medically-made epidemics mixed with the usual common colds which people have every year.

Now (1976) we are being worked on again by the vaccine -epidemic makers in their effort to force another multi million dollar vaccine sale caper. Their con men have already talked President Ford into handing over \$135 million dollars to start their vaccine racket. Even the insurance companies refused to become involved with such an obviously dangerous and crooked scheme. So, again the medical and drug con men induced the appropriate government officials to guarantee insurance against the, possible billions of dollars in law suits which could be brought against the vaccine promoters if the vaccine campaign is carried out as planned. It's a good thing Ford was voted out of office. It's too bad he wasn't "dumped" before he paid the *poison squad* the MONEY' to poison the whole population. However, we don't yet know if President Carter will be any better. Will he be held in the grip of the medical and drug dictatorship? Or will he investigate — learn the truth — reverse the decisions and make the vaccine makers return the money taken from the taxpayers under false pretences?

The statement of the swine flu vaccine promoters to the effect that the vaccine is harmless, is false, and the statement that it will protect against flu is false. Fifty-six people died after the shots, some within 48 hours. There is confusion and disagreement among the doctors about all aspects of the vaccine, from the safety and effectiveness to the necessity for it, who should have it and who should be warned against it.

Their scare-head campaign cry is that the swine flu is like the 1918 flu which killed 20,000,000 people. They don't have any usable and provable blood samples from the 1918 flu epidemic to prove it. That was 58 years ago, and the doctors were just as

confused and inefficient then as now. **However, one thing is certain — the 1918 Spanish Influenza was a vaccine-induced disease caused by extreme body poisoning from the conglomeration of many different vaccines. The soldiers at Fort Dix who were said to have had Swine Flu had been injected with a large variety of vaccines like the vaccines which caused the 1918 flu epidemic. The flu epidemic at Fort Dix was in no way related to swine.** There were no swine at camp (unless we want to sarcastically call the vaccine promoters who caused the diseases -"swine.")

To add to the confusion, the doctors tell the people that there are a lot of various kinds of flu; the one which the soldiers at Fort Dix had was A Victoria flu, there are other strains of flu virus, and also, that the swine flu vaccine which so many people have taken already will not protect them against the many other types of flu. **This will be used as an "out" in case of law suits later on when more casualties begin to show up. The doctors will say that the vaccine failed because it was the wrong kind of flu for the vaccine.** Of course, no one can prove it one way or the other because viruses are illusive, invisible organisms which are unstable and unpredictable. One dictionary definition of virus is "a morbid poison." The vaccines injected into the body are poison and cause the typical poison reactions. Virus (poison) does not fly around and attack people.

Therefore, there will be no swine flu epidemic unless the vaccine promoters make one like they did in the 1918 flu epidemic. It will not kill 20,000,000 people unless the people submit to the disease-producing shots. There are also, **other causes of disease besides vaccines, such as bad food, which has been devitalized and contaminated with poison preservatives and artificial drug concoctions.** There are many more causes of disease but no diseases are contagious(See the chapter on the germ theory).

Vaccine drives come and go as often as the vaccine promoters can cook up the slightest pretence of a reason. Back in 1957 they were trying to stir up a vaccination campaign for what they decided to call Asiatic flu. An editorial in the Herald and Express for August 29, 1957 was captioned, **"Fear of Flu Propaganda."** Part of the piece is as follows:

"What a tempest in a teapot has been blown up over the probability that this country will experience an epidemic of the Asiatic flu in the fall and winter months ahead.

"Even the United States Department of Health is stooge for the panic — and has issued statements which are frightening the public, rather than reassuring them by pointing out that this epidemic, while widespread, gives no indication of being any more dangerous than our usual flood of influenza-like colds when winter comes on.

"Those who read between the lines even wonder whether the whole thing might not be a bit of super salesmanship on the part of those who are making and selling the vaccines which are being prepared.. . ."

I WAS AN ON-THE-SPOT OBSERVER OF THE 1918 INFLUENZA EPIDEMIC

All the doctors and people who were living at the time of the 1918 Spanish Influenza epidemic say it was the most terrible disease the world has ever had. Strong men, hale and hearty, one day would be dead the next. The disease had the characteristics of the black death added to typhoid, diphtheria, pneumonia, smallpox, paralysis and all the diseases the people had been vaccinated with immediately following World War 1. Practically the entire population had been injected "seeded" with a dozen or more diseases — or toxic serums. When all those doctor-made diseases started breaking out all at once it was tragic.

That pandemic dragged on for two years, kept alive with the addition of more poison drugs administered by the doctors who tried to suppress the symptoms. As far as I could find out, the flu hit only the vaccinated. Those who had refused the shots escaped the flu. My family had refused all the vaccinations so we remained well all the time. We knew from the health teachings of Graham, Trail, Tilden and others, that people cannot contaminate the body with poisons without causing disease.

When the flu was at its peak, all the stores were closed as well as the schools, businesses — even the hospital, as the doctors and nurses had been vaccinated too and were down with the flu. No one was on the streets. It was like a ghost town. We seemed to be the only family which didn't get the flu; so my parents went from house to house doing what they could to look after the sick, as it was impossible to get a doctor then. If it were possible for germs, bacteria, virus, or bacilli to cause disease, they had plenty of opportunity to attack my parents when they were spending many hours a day in the sick rooms. But they didn't get the flu and they didn't bring any germs home to attack us children and cause anything. None of our family had the flu — not even a sniffle— and it was in the winter with deep snow on the ground.

When I see people cringe when someone near them sneezes or coughs, I wonder how long it will take them to find out that they can't catch it — whatever it is. The only way they can get a disease is to develop it themselves by wrong eating, drinking, smoking or doing some other things which cause internal poisoning and lowered vitality. All diseases are preventable and most of them are curable with the right methods, not known to medical doctors, and not all drugless doctors know them either.

It has been said that the 1918 flu epidemic killed 20,000,000 people throughout the world. But, actually, the doctors killed them with their crude and deadly treatments and drugs. This is a harsh accusation but it is nevertheless true, judging by the success of the drugless doctors in comparison with that of the medical doctors.

While the medical men and medical hospitals were losing 33% of their flu cases, the non-medical hospitals such as BATTLE CREEK, KELLOGG and MACFADDEN'S HEALTH-RESTORIUM were getting almost 100% healings with their water cure, baths, enemas, etc., fasting and certain other simple healing methods, followed by carefully worked out diets of natural foods. One health doctor didn't lose a patient in eight years. The very successful health treatment of one of those drugless doctors who didn't lose any patients will be given in the other part of this book, titled VACCINATION CONDEMNED, to be published a little later.

If the medical doctors had been as advanced as the drugless doctors, there would not have been those 20 million deaths from the medical flu treatment.

There was seven times more disease among the vaccinated soldiers than among the unvaccinated civilians, and the diseases were those they had been vaccinated against. One soldier who had returned from overseas in 1912 told me that the army hospitals were filled with cases of *infantile* paralysis and he wondered why grown men should have an infant disease. Now, we know that paralysis is a common after-effect of vaccine poisoning. Those at home didn't get the paralysis until after the world-wide vaccination campaign in 1918.

CHAPTER 4

MEDICALLY-MADE EPIDEMICS---COURT CASES

Drug sales are big business, whether it is marijuana, heroin, tobacco, vaccines, or the misnamed "miracle" drugs, antibiotics, etc. They all cause cell destruction and eventual death — delayed reaction in most cases — although some deaths are sudden, as in penicillin and vaccines which often cause death within 20 minutes.

Vaccine campaigns have been carried on periodically for many years, and it is one of the most lucrative of drug sales, and not illegal such as for heroin and marijuana. The sales propaganda is so deceptive that most of the people believe it, and the medical

and drug businesses have enough control over the news media to conceal or distort the reports of deaths and disasters from vaccines to keep the people in the dark as to the hazards of their popularized poisons. The Better Business Bureau is better for business but not for the people. That agency is instructed (by the medical and drug concerns) to forbid the newspapers from selling any advertising space to writers of anti-medical books and articles. I wouldn't make this statement unless I had proof and legal papers to back it. (This is discussed in more detail in another chapter.) It is a form of medical dictatorship — and that is against the law.

Most of the medically-made epidemics get by without being exposed and prosecuted, but a few occurred in cities which had some alert and concerned health groups which took the vaccine promoters to court and got convictions. Two of these court cases are briefly outlined below:

COURT CASES OF SMALLPOX EPIDEMICS DECLARED WHEN THERE WAS NO SMALLPOX

(Report from THE ADVERTISER'S PROTECTIVE BUREAU of Kansas City)

"In the fall of 1921 the health of the city was unusually good, but dull for the doctors. So the **Jackson Medical Society met and resolved to make an epidemic in the city.**

According to the record:

"MOTION WAS MADE AND SECONDED THAT A RECOMMENDATION BE MADE BY THE COMMITTEE TO THE BOARD OF HEALTH THAT AN EPIDEMIC OF SMALLPOX BE DECLARED TO EXIST IN THE CITY AT THE PRESENT TIME.

"MOVED AND SECONDED THAT A DAY BE SET ASIDE TO BE TERMED *VACCINATION DAY*, ON WHICH PHYSICIANS WILL BE STATIONED AT ALL SCHOOLS, CLINICS, PUBLIC BUILDINGS AND HOSPITALS ... TO VACCINATE, FREE OF CHARGE. (No shots are free. The taxpayers are charged for them.)

"It is further recommended that wide publicity be given, stating that vaccination is a preventative of smallpox and **urging the absolute necessity of vaccination for every man, woman and child in the city.**

Those who investigated this fake, doctor-made epidemic searched for cases of smallpox to justify this vaccination drive, but could not find one case in the city.

The scare-head vaccination propaganda showed a picture of a child covered with sores (probably from empetigo, psoriasis or congenital syphilis), and called it smallpox. People are easily frightened when public officials tell them a disease is contagious and is in their midst. The fear vanishes when people learn the truth. Smallpox is not contagious, and compulsory vaccination is illegal. (See the chapter on smallpox for information on tests which proved smallpox and other diseases are not contagious, and can be avoided with the right knowledge and application of that knowledge, given in the big book, "**VACCINATION CONDEMNED BY COMPETENT DOCTORS.**")

Most people do not question the decision of their doctors and public officials so they trustingly put their lives and the lives of their children into the hands of the unprincipled drug vendors. The results were disastrous for the people but good for the doctors. The hospitals were soon filled with vaccine poisoned people and the doctors had business all winter.

According to the record, the doctors made \$500,000 from that Kansas City vaccination spree, not counting the millions of dollars from the hospital cases.

ANOTHER MEDICALLY-MADE EPIDEMIC IN PITTSBURGH IN 1924

The same procedure was carried out as for Kansas. The doctors called a meeting and moved and seconded that an epidemic be declared in the city. As usual, they spread their scare propaganda far-and-wide and herded the people into the vaccination centers.

When the vaccination campaign was at its height, the report showed the death-rate rose 22% in three months, from July 1 to Sept. 30. These deaths were all among the recently vaccinated. Were the doctors and pharmaceutical companies **charged with murder** and given the death sentence? No. They "got by with murder;" they usually do.

This doctor-made epidemic never would have been brought to public attention if it had not been for an active, and well informed group of non-medical, health-minded citizens known as THE PITTSBURGH HEALTH CLUB. They, and their legal aid investigated this manufactured epidemic and brought the instigators to trial.

According to the Health Club's attorney:

"THE DIRECT MONEY LOSS TO THE CITY OF PITTSBURGH IN THIS VACCINATION RAID in 1924 was \$3,096,616 of which the doctors took \$2,000,000. .

"This does not represent the indirect losses such as deaths, permanent injury, business loss from work, etc."

Every city and town today should have an active, capable, and well prepared NON-MEDICAL health group such as those in Pittsburgh and Kansas City to warn the people against the many questionable practices of the medical doctors, because they continue to stage deadly vaccination campaigns, both large and small in all cities across the country every year, but most of them are not investigated or questioned.

We are in the middle of one of these medically-made epidemics right now. It is the SWINE FLU VACCINE epidemic. There was not a certified case of swine flu in the world when they planned it in 1976, but this multi-million dollar vaccine campaign was foisted on the people anyway, and now three months after it started there are 113 reported deaths and many more cases of paralysis from the shots. All these "murders" forced the public officials to halt the vaccinations. However, the doctors and vaccine makers have stated in the papers that they will try to lift the ban and continue the vaccinations — poisoning and killing more people and refusing to take the blame, because it is profitable.

That is why this book has been rushed into production — unfinished — to warn the people and prevent more disasters from the vaccines. The chapter on swine flu and a few others are included in this advance edition, and the rest will be available later, for those who send for them.

POLIO VACCINE EXPOSE' BLOCKED BY AMA

After reading of the above court cases in Pittsburgh and Kansas City people may say, "That happened way back in 1921 and 1924; that couldn't apply to us now in 1977." Oh, yes it can; it's being done right now again with the swine flu racket. They — the vaccine promoters — should be investigated, prosecuted and stopped permanently.

In 1954 when the vaccine promoters were building up their nation-wide polio vaccine campaign, I wrote a book of facts trying to warn the people against the Salk, Sabin, and Cutter vaccines which were bound to cause widespread death, paralysis and financial loss to the taxpayers. The Better Business Bureau — arm of the medical and drug trusts— blocked me from getting any advertising notices in the papers, radio, TV, etc. But I got some of the books out to as many people as I could anyway. But the "medical dictatorship" decided they were not going to let me tell any more people about things they had kept suppressed, including the court cases. You didn't read of those investigated and prosecuted medical rackets in the papers did you? I had to "dig" for that information. In order to stop my book and put it out of circulation, they had it barred from the mails —without any legal grounds. I had taken it (the manuscript before printing) to a lawyer and had him examine it to see if it was legal. He said, "It is all in order — nothing against the law — but it is dynamite."

I then took it to the Post Office in Los Angeles and had them go over it to see if anything was against their regulations. They said, "It is all in order and not against our rules, not libellous, not obscene, not anti-American, not fraudulent."

So, I had it printed and distributed until the medical "dictatorship" issued orders to the Post Office to bar the book from the mails. This they did, although they had told me it was all in order and legal for the mails.

It's hard to believe that one branch of the business (medical) in this country is so powerful that they can force the Post Office to break the law and bar a book they have approved — a book which is designed to save lives.

In the hearing, the opposition said they barred my book from the mails because it disagreed with accepted medical opinion.

It seems I was the only one with a "fighting book" out to condemn the polio vaccinations, so when it was eliminated and I was threatened if I sold it, distributed it, or even gave it away, the medical poisoners had a clear field to sell their poison vaccines without hindrance. So they continued selling polio vaccine and are still at it, even though it has killed and paralyzed thousands. Many law suits were filed against the vaccine makers and won, and they, the vaccine promoters, had to pay millions of dollars in damages, but they make more in sales than they have to pay out in damage suits so they consider it a good business venture anyway. This is the reason why people rarely hear anything against vaccination; those who raise a voice against it are silenced.

The "Bird Flu" HOAX is only one part of an enormous plan to allow a select few to Rule the World and enslave or annihilate the rest!
