THIS LITTLE BOOK IS INTENDED TO FURNISH A BACKGROUND study of the history of the U.S., the history of the political and industrial freedom in England, from the invasion of Julius Caesar to the death of Queen Victoria. The author tries to use language familiar to pupils in the 7th year of the course of study in our Elementary schools.

Introduction: The white people who first came to this country were Europeans. Those who settled on the Atlantic coast from Maine to Florida were Englishmen. The ancestors of those English were Germans, who lived north of the Elbe river, in Germany, and near the coast of the North Sea. If we call the English our Grandfathers, then we must claim those early German people as our great grandfathers. From this it is evident that the American, the English and the German were all members of one great family or race, known as the Germanic family, in history as the Teutonic race.

Many of the inhabitants of Ireland, Wales, and Scotland have ancestors called the Britons. And there before the Germans were called the Celtic race. However they were related to the Germans.

The sun shall be darkened and the moon shall give no light. History books printed before 1900 told about the dark day, on May 19, 1780, All across the Eastern United States and Western Europe, it became dark from 10 A.M. on. And after sundown, the darkness was very dark. The moon was

also dark and the sun was eclipsed. The darkness lasted till after 10 P.M. For a non-luminous body had come between the sun and the earth.

On the 20th of August, 1930, in the Amazon region, three huge meteorites fell from the sky. Upon impact, their heat set the forest ablaze which burned for months. The sun became blood red in a dark sky caused by the red of the meteorites.

In December 1920, in China, occurred the greatest of earthquakes the world has ever yet known. It shook the whole earth and one million people died.

Now, the LORD is warning that great upheavals will be closer together before Jesus comes in His Glory.
