QUESTION: This teleportation, some claim they can do this?

ANSWER: You mean disappear here and arrive there? Well! I don't buy much of it, the only area where this seems to function is in Occultism. And generally it is familiar spirits and whether they ever came from there or were here all the time is questionable. There is a high system of communication in all Celestial realms, and in other realms as well, and of course the Luciferian system is pretty well organized in their many orders, so communication is rather bad in many areas. In many Celestial realms teleportation is used if you want to use that term. We have been told that Christ can be here instantly when summoned or be there, can cross intervene miles by just instantly appearing here and disappearing over there. But there is no Biblical evidence of this. I know nothing about such happenings. So teleportation if it works would seem a more practical way to transit crossing the distance of space. But strangely enough when we have Biblical record of Christ coming to earth as He did when He brought the law to Mount Sinai, He came with 10,000 of His Saints, Administering Spirits, and His Hosts out of the Heavens. And they came in vast fleets, came over Paran and Sinai and came down, Deuteronomy 33, came throwing great search lights down over Paran. Then circled around and came down over Sinai. We know that when Christ ascended He went up on a Mount and a big cloud, hiding something without a doubt, and as Jesus was received into the cloud they didn't see Him anymore but two men stepped out. This wasn't something dangling out of space, this was just a cloud sitting on a hill. You couldn't see what was in the cloud but Jesus stepped into it and two men stepped out saying: why are you looking into the cloud? He will return as you saw him go. Then these men stepped back in the cloud and it went away. You will note in the Old Testament the abiding presence of God is with them whether it be embodied or in Celestial realms. You will note that a great cloud travelled with Israel and it says YAHWEH was in the cloud. This was as though a fire by night, and a radiant Shekinah cloud by day. All this was covering, shielding something they couldn't see. We keep hearing about the chari-

ots of the MOST HIGH, we find in the writings of patriots like Enoch who had travelled from here to the Pleiades and back, he travelled in a craft able to make a fast trip from here out to the Pleiades and came back to finish his book he was writing. So they didn't have to wait on slow transportation, it was fast, but it was also transportation.

Now; this teleportation facet, I don't see to much of this actually supported Biblically so I do not feel inclined to accept too much of it. Moses and Elijah stepped out of spirit and were visible on the Mount of Transfiguration. They had shape and form and the disciples could hear them talking with Jesus. And finally they stepped back into spirit and were not visible anymore. Where they went and how is not discussed but we do know that the Celestial plane surrounds the physical plane. That Celestial beings can materialize until they are visible in this plane but still you would not be able to touch them. Whether or not you can step into that plane of spirit depends on certain abilities you may or may not have developed, and wouldn't be in possession of.

The fact that Christ was spirit, soul, and body but also the fullness of God dwelling bodily could step into the dimension of spirit and be invisible, and walk right out through the wall, and then step back into the physical on the outside was most upsetting to the kikes in His time. When they wanted to stone Him down in the Treasury building He just disappeared. They looked under the tables and behind doors but couldn't find a target for all those stones they had brought down there. But outside Jesus was talking to people. This is not teleportation, this is an inter-dimensional ability to move from one dimension into another from one plane to another. The firmness of planes are determined by the firmness of the substance of which they consist. For instance, all the walls of this room are made up of particles of electricity. So therefore they are so well solidified here by the law of ionisation, and their atomic structure that it is a solid wall to you because your body also exists in this same plane. But if you could accelerate the electrons in your body as they go around the nucleus of the molecular masses then you could walk right through that wall, and it wouldn't hinder you one bit, if you moved within enough frequency of wavelength of change. This is the matter of the speed of those electrons. If we could speed up the electrons of the human body we could speed them to the point where decay or disintegration was impossi-

ble, or until the breaking down of the atoms of substance until the whole balance of the body would be perfect. This was also hinted in the Greek, and of course the Apostle Paul tells us in the Book of Romans written in Latin that if the spirit of Christ dwells in you it shall quicken your mortal bodies, and they won't die. In fact if the body is broken down the speeding up of the electrons, the reactivation of the substances would produce the synthesis of power and light.

Then he goes further and says: if the Spirit of Christ dwells in you it shall quicken your mortal body. But actually in the Greek this was: It shall speed up the motion in the atoms of its substance. So in the atom of your being it speeds up the electronic structure, the velocity around it and therefore would be synthesized, be beyond the area of decay or breakdown. It would have a healing body. All these are within the realm and with in the facets of the subject you are asking about, see. Actually the ability to set here and project yourself from here to Europe, this is only done in Occult circles, and is pagan spiritism. It is not a spiritual achievement, it is not something which is taught in Christianity. I do know of one or two people who got involved in this area of witchcraft in France. And there is a lot of areas where they have Temples to the Darkness, and a Black Mass is celebrated in them. And also there are missionaries to various areas of occult quite active around Paris, and I have known of people who got mixed up in this, they were told it was spiritual but it isn't, it is Satanism. They have had the experience of having their consciousness outside their body capable of looking at their bodies from the outside. And for a short time they have gotten out of their bodies and travelled even to distant places as far as their consciousness was concerned while their body was still home. And in a moment of consciousness they find themselves drifting back and re-entering their bodies. As far as their consciousness is concerned this is their experience. Then their body comes up as though from a trance and stands up. This is the only time teleportation can be witnessed to as a sort of psychic phenomena, an occult phenomena if you will. Sometimes however peoples bodies seem to die in those moments and then they can't get back into the body. Then they are like the demons Christ cast out of the mans body in the cemetery, and they are disembodied and have to walk the empty dry places until the judgment because there was no way back in. or back and forth. I have known one or two people in my time that were in this occult practice and

they became frightened when some ones body died and they couldn't get back in so they got out of the group. But the fact is that this was 100% demon operated, and this again did not teleport the body, only the consciousness went out and came back.

Now: as far as spiritual areas of revelation are concerned, the consciousness can be carried into far distant periods of time and it could be carried over the pattern of events that God synthesized to do. The Synthesization of your spirit and His are one and the same substance, your soul consciousness can draw out of the spirit and sometimes it gathers all its inspiration, guidance, and inspiration from that area. But there are times when it might be given a prophetic patter, especially if you have been given the gift of prophecy, or if God has given you this responsible area of forecast, for some purpose, therefore you would have the experience like John had who was meditating on the LORD'S DAY and a door opened in the dimension of spirit. And he heard a voice say: 'come hither', and John went right through a wall in the plane of space into the Celestial realm. But he was now in a light dimension, although it could have been a soul dimension as well were it not that Celestial planes were involved. His consciousness was in his Celestial being alright, and he travelled forward and back on the thought plane of God's purpose. He saw people, he ate food, he travelled and he had to do it in the Celestial plane.

Now; whether his body had actually gone from the Isle of Patmos through the dimension that his consciousness passed through I don't know. But I will say that the Apostle Paul said he could not tell. In his experience he said whether in the spirit or the body he didn't know, only God knew, but he went into the plane of spirit and into the different dimensions of heaven. What happened was that he was shown many things about things which happened before he came to earth. He was told that he was the son of the MOST HIGH and was called to be an Apostle. Was brought up there to be shown thing which would quicken his consciousness, and then he would go back and finish the things he was supposed to do. So the Apostle Paul was transported to the second, third and fourth heavens, and he could not tell the difference as to whether he was in the spirit or in the body. So it doesn't make much difference if the consciousness doesn't know any difference. And if you can think, touch, eat, and travel, all these things, then it doesn't make any difference. Many people have sort of an

owlsh idea that living is so much different in the Celestial plane, so much different than the living in the physical plane, and that there is nothing in common with it. But according to the Apostle Paul's experience he couldn't tell whether in the body or out of it. So living in either plane isn't to much different other than there is no suffering or disintegration in the plane of spirit. It would be quite possible for an individual to travel to a far out realm of space, and be ushered into the very heart of the spiritual dominion, and be permitted to walk into Celestial planes by the quickening of his body, and he would walk in, intact. Enoch did this, he locked his house, closed the shutters and said good-by to his children then stepped into a space craft and went out into space over the North Pole. Took a quick pass inside the earth and then out, went up out through the largest Star of Pleaides and was ushered into the outer Universe, and then into the great chamber of Light, the great Palace of Light. Then he was caught into the higher levels of this and taken into planes of revelation. So Enoch left here in a body, rode there in a ship and then was carried from one pattern to another, and whether his body went through all these routes I can't tell you, but he thought he did and he remembered what he saw and wrote them in a Book. Then he finished a great Ministry and left in a chariot and went back and never tasted death.

Now; all of these are evidences that this can happen. But if any little group gets over in a corner and starts practicing and then tells you that they are doing this, I don't buy one bit of it unless it is the occult side of the negative influence. And then I stay away from it because teleportation is not for us at this moment. If it were in the area of vision to travel with your consciousness for the purpose of God, what He has willed to show you then this is different. This is a division or a revelation and this experience is being carried into spiritual planes to perceive it, and then the things will come to pass. Things will happen and the spirit will bear witness that this is true. Generally with any of these things you find that they harmonize with what we do possess. And whenever someone comes back, whether they went off in a space craft or travelled out and back some way, and they have a big story to tell me that doesn't agree with anything in God's blueprint, then I don't buy any of it. If they have been gone and then come back, then they were with the devil, not with God. And if they travelled out there in a hypnotic trance which someone conned them into I don't want to buy the content. But I am not sceptic, I

am a true believer, I believe all things are possible, I believe that demon power can do all kinds of things, and God can do all kinds of things. But God doesn't do everything the devil does just because he can do it. Because with God there has to be a purpose in it, not just demonstration. Again, teleportation to be able to swish yourself from one place to another on the wings of thought, you can do this and never leave your chair. You can travel to the east coast or the west and never leave your chair. But you travelled on the wings of remembrance, you never left your chair. You could travel on the wings of foreknowledge on the consciousness of God's Spirit and never leave your chair. This is not true teleportation. I have never had any evidence of this except when Enoch walked out, got into a craft and rode away. Just as Christ went out and got into a craft and went away. Oh, He could through the wall or do anything He wanted to do. But that walking through walls is not teleportation. He was still right there on the other side of the wall, just stepped into another dimension and then out again.

Does that answer your question? I could take you into my library and start pulling out volumes, some are very interesting and some are seemingly tremendous experiences but they are malarkey. They have been written to sell to Americans. They say oh, but this is from India, this is from the Himalayas, this is something from the Masters. But it was all printed in South America. If we wanted to evangelise India we would translate what we believe into a book that is in their language, only we would tell them the truth, and what they are telling us is not truth except where as they are dealing with demon temples.

QUESTION: Is this story of Enoch in the Apocrypha?

ANSWER: Some of it, only the story of Enoch is bigger, much bigger than that. No man was more of a prophetic writer than Enoch. He wrote books called The Towers of Enoch, The Secrets of Enoch, and The Wisdom of Enoch. These were the sum total of his experiences and revelations. He wrote 365 books and each one was about the size of a good thick pamphlet or a thick scroll. If bound together they would be almost as big as the Bible itself.

First, remember how old Enoch was and remember he traveled out in space and back. He was one of the greatest residents of Ancient Orusalem (Jerusalem), long before the Israelites entered the land at a much later time and built the City of Jerusalem. He was there long before the Canaanites came in after he and Job and their great company went into Egypt. He helped build the Pyramid Giza. Irrespective of what you may read today, the building of On and the Pyramid were under the guidance of Enoch and Job. Irrespective of these so called authorities today the Great Pyramid was there about 5000 years before Christ. The others came later, and if you want to trace back the great lore and antiquity of this you want to read the works of Plato and pick up the works of the Greeks who spent much time in Egypt. Of course after Alexander the Great conquered Egypt and built the City of Alexandria and this is where that great Library was built. That Library became filled with more books, more knowledge, probably more information than any library in the Ancient world. Everywhere that Alexander went he took scrolls from every area, from Scotia, from Babylon, from Ray, from way over in the Crimea and beyond, and far out in Ithaiia. He brought them back before the time of Christ, and he packed this Library with more scrolls, more tablets, more material than was ever put in any one place before. And in this Library was the record of the Tall White Manu, or Aryans, as to how they had come down into the land later called Palestine. And having settled there later their Wise Savants went down into Egypt there building the City of On and erecting the Pyramid. And of course they were Aryans, coming out of the High Steppes of Asia, and they carried the symbol 'The Winged Orb' with them. You still see this 'Winged Orb', it was still prevalent in the days of Darius and Exerxes for the Persians of that time were Aryans and they carried 'The Winged Orb'. Persia of today is not as it was in the days when Persia was ruled by tall white Aryans. But the records and the timing show that the antiquity with which the knowledge of the things Enoch writes about, and his experiences are all contemporary with white mans experiences 5000 years before Christ. They in turn also knew all about Enoch. For instance, in the Library of Alexandria and the Pre-period before Christ they talked about Enoch, about him being the greatest of the Pho-Hancok. You see the children of Enoch were the Phoenicians, and the Phoenicians before they went to sea travelled over the lands as well, but this was the name they gave to one of the Schools for tall white men who were Savants and city builders and enterprise builders, and Job was of course

one of the co-builders with Enoch, and his genealogy comes down through those Patriarchal ages. You don't start picking up a specific line of this seed until you come down and start talking about Abraham, because you are starting in the upper Tarim Basin and coming on down. The flood came long after the building of the Pyramid, and long after Enoch's journey. So all Enoch's writings were all pre-flood.

QUESTION: How do you get those books now?

ANSWER: Well, you can hope, you can get an Oxford edition if you are lucky. I think there was 5000 of them printed the last time. The Oxford edition of Enoch is 35% accurate, and the rest of it has been effected by translation. In other words, the Catholics did not want the book to be printed in its entirety because it didn't have any purgatory, or limbo or any of these things. So therefore they tried to put it in, and they retranslated Enoch to make it acceptable for Catholic use. This wasn't done until 400 or 500 years after Christ extensively, and they put in terrible flames and had Enoch walking through the fire and all this kind of stuff. And they did the same thing with the Apocalypse of Paul, they did a terrible job on that one. But they had Enoch writing about perdition and hells and all those things. So the trouble is that the Episcopal edition carries on from the Catholic edition, and Ezra Charles translation of the Book of Enoch has a lot of commentary in it, but it is pretty well Romanized. Every once in a while you can find one which is like that used back in the time of Calvin, printed from that used by the early church, and they don't have the same story. They have all that is in this one, but a whole lot more. The Secrets of Enoch, and The Towers of Enoch are separate from the Book of Enoch and are sometimes called The Wisdom of Enoch. So you get the stories of his experiences, all the books tell of his going out and coming back, but some don't always tell you as others. After all, there were not too many men who were so right in their thinking, so in tune with God that there was no need for him to die. He just took him away, so if you get that smart you are smart enough to teach anyone.

QUESTION: Why will not people accept what you are telling us?

ANSWER: I cannot tell you why people do not accept things. I have talked to many people in many denominations, mainly they have never

been exposed to this. Some times people think things just because their fathers did. If their fathers don't think much then neither do they.

QUESTION: Were the people who built Tyre, Sidon, and Carthage called Phoenicians at a later day?

ANSWER: They did not built Tyre and Sidon, this is an error in Harold Lambs writings, the people who built those cities were not Phoenicians. Though there might have been some fusion of early Sethite blood into this live. The ships of Phoenicia used those ports before they at a later day became those cities. In fact they used the great rock of lower Tyre to draw up their ships and scrape the bottoms. In fact they do this today but the city of Tyre is not there, it is just a rock now and it was just a rock when they used it in the old days. We can trace genealogy of Tyre back to Sodom and Gomorrah, pre-Adamic and mutations and all of that. During the reign of one king who overthrew Tyre and ruled over it for a while had a better society, for a while. His kingdom was very strong and he was a friend of David who had befriended him, but the fact is that India had sent a lot of ships in trade and finally took over this kingdom of Tyre with false priests, and pagan philosophies which they absorbed. And all these Ancient kingdoms were pretty well filled with pagan religions. They didn't want to insult anyone so they had a Temple to Amen-Ray, and one to Babel, one later to Hercules, and on to Ashtar. This way they thought they would not insult anyone, but some of their philosophers knew that some gods came later than others so they would search for the path of the gods. The Greeks being Aryans, Sythians, and great philosophers, and having been deep students down in Alexandria, Egypt at the Great Library, they probed and studied more than others and knew the backgrounds of these people better than others. For instance all of the Tribe of Simeon who are the Spanish people, as well as the Tribe of Dan were quite sea going people. And this Israel stock travelled on the ships of their Sethite kindred that had been at sea for years, and they were also called Phoenician. The earlier settlers inside of Britain came down from the Aryan Steppe people, and formed the Celts, and Northern Sythians were actually Sethites who did not come out of the Abraham line of the family, the Israel route as such, but were joined with the Israel seed coming later into Britain. They were called Celts, but actually there were older Celts who came over from the Persian Gulf, but the Pho-Hanoch, was one of

the great Schools of Wisdom and was called 'The Sons of Enoch'. This was one of the names first given to the Masters of the Rose Cross. Later the sons of Enoch became infiltrated, in fact about the time that the Jews were trying to gain control of The Temple of Jerusalem and all of its thinking after Nehemiah had returned to oversee the building of the Temple, this was beginning. So Rosicrucian is a deterioration from what it was in the days of Enoch. The occult came in and took it over just like they came into Masonry. This is what confuses the issue, but they called most of the High Seed in the Wisdom Schools, The Sons of Enoch. And then called them Phoenicians also, but some were Astronomers, and Navigators, and so forth, a brilliant people.

QUESTION: Who were the Picks of England who are called wild people by some, they said that they had massive noses?

ANSWER: That didn't have anything to do with it. The Picks were forced into a Nomadic life, they had come on over from Persia, were Aryans and they had moved all over those Isles. They actually were a pretty strong white strain so don't confuse them with some strain which came in from southern Europe during the Roman Empire influence over Ireland, Scotland, and Wales. You see Rome built roads all over the British Isles. The Britons would retreat in the areas where they wanted roads and the Romans would build roads for their armies, then the Britons would come out and pay some tribute and the Romans would go home. Then when they went home the Britons would quit paying taxes. It wasn't long before quite a few Romans from the Tribe of Gad would be settled in Britain to see that they paid the taxes. Well, either they were absorbed by the British who married them or they were assassinated. So the Tribe of God did have a larger nose than some, this was called a Roman nose. But a Jew nose is not necessarily a Roman nose, it is more like a hooked beak. The Indian has a Roman nose, lots of them. But actually it was the Gadites who sowed the big nose into Britain.

QUESTION: Do we think that God would let astronauts land on the moon, or on Mars or Saturn. The question being framed on the understanding that the Angelic Hosts have driven Lucifer and his hosts to earth and that he is earth bound at this time. So would God take a chance by

letting astronauts get out to any of these other planets and maybe sowing some transgression into these other planets where they don't have any?

ANSWER: I don't think you have to worry about that at the moment as a hindering factor. Because Lucifer was driven out of Saturn once, and Mars. These were two areas of the Solar System that he had used in his battle against Michael who had already driven him out of the upper Heavens. For some time there was no question as to whether or not Saturn and Mars forces were not still in league with the Netherworld. And there is little doubt as far as the moon is concerned, we have craft flying around the world today who are spacecraft not of earth. Many of these are actually piloted and navigated by the Celestial Hosts of the MOST HIGH GOD. There is one great satellite also which circles the earth that belongs to the MOST HIGH GOD. Because the Scripture talks about this craft circling the earth. Enoch wrote about the Watchers of the Earth. We know that there has always been a watcher circling the earth, not an asteroid but a great space vehicle of unprecedented size. In fact they photographed it over Australia. It was over New York at one time about 18 to 20 miles high. It was pursued by our fastest jets. Our radar tracks it once in awhile as it goes around the equator, and when it goes somewhere else then they get excited. But crafts like this are under control of Angelic Hosts. We have great fleets of THE MOST HIGH GOD who come and go through-out space. And we know that we have been told of thousands times ten thousands, times thousands and thousands. Then they tell us about ten thousand very special streams of fire, of chariots of the MOST HIGH that served or moved out from His presence as messengers. Then in Daniel he multiplies this so we know there are all kinds of crafts of THE MOST HIGH travelling in space.

Now; we also know that all the crafts flying are not good, they are under evil influences, some of them, and they may well qualify for these hosts who come out of the Netherworld, whose crafts are described in Revelations whose Commander is Appoloyon or Abaddon, or Lucifer. And he goes forth to make war but God does not permit him to hurt the children of God until the time of the end and then when he strikes against them he has to tangle with the Hosts of THE MOST HIGH GOD and is defeated. But remember they have the power to go out, prophecy is being fulfilled.

These great monsters, there is no doubt of people seeing and smelling them. Then there are those who have been witnessed by our aircraft. Some of our own pilots have told this, one pilot was a witness to something which caused his hair to turn grey after he got back. The chilling fear of what he saw in that cockpit of the great craft travelling along side of him aged him pre-maturely, it was so strange and hideous. This didn't come from our side.

As far as the moon is concerned, I think the Luciferian forces have been back and forth to the moon, I don't think this is any great problem. I think the moon is inhabited, that the inside of the moon is very much inhabited. That there are great cavern systems from the surface of the moon I am sure. I don't however think that God is keeping the astronauts from going to the moon because any place Lucifer has been, well, there is nothing new under the sun really, see? And not necessarily that the American astronauts wouldn't be on good behaviour. If you are making a trip like that then you better be since you are planning on coming back. Ha. There is nothing in Scripture that says God would not let us make the trip if we knew how, but He could of course forbid it.

QUESTION: This space craft which is to get to Mars next week. They said the reason they wouldn't land there is because it might contaminate it.

ANSWER: Well this is the idea we have become inhibited with, to protect ourselves from germs. But they have worried too much about bringing in people from other countries who have things we never had before. I don't see why they get so excited about the Mars inhabitants.

QUESTION: could you give us the history of the Khazars?

ANSWER: yes.

QUESTION: Well, did they migrate from old Assyria?

ANSWER: They were old Assyrians and Kurds, mixed together. And I will say this much, the Kazzars had a bunch of demon witchcraft before and they worshipped the devils of the sky much like the Mongols did of

outer Mongolia. Their Priests were Asiatic Jews who worshiped devils. And interestingly enough, Babylon was south of Khazzars land and the Babylonian Jews controlled the Priesthood, and the Babylonian Talmud came from Babylon and follows the Jews everywhere showing the affinity of their organization. So they had no problem making converts out of the Kazzars, they just switched them from one kind of devil worship to another. They were actually being monitored by Satan's own children. So Kazzar Jews of today are actually Asiatic round-headed, bullet headed Jews, Mr. Begin for instance. They are intermingled, mongrelised Jews. And today because of their strength in Asiatic Jewry and their financial strength then you find them scattered all over. People don't realize the tremendous power and affluence of the Ancient world and the millions and millions of units of gold under various values which existed in all of the great cities and states of Babylon and Kuah and all these places. When a battle was fought for a city maybe there would have been 20 million drachmas of gold if that would be what they wanted it to be called. Maybe they would call it Greek owls of gold because these were about 10 to our pound as against our ounce. All these Ancient Empires inter-traded with this gold, unless they cheated with it and mixed it with copper then it was pure. The one way to get yourself discounted was to cheat so the Emperors used to strike their faces on the gold coin. Whether by Darius, Alexander, or by an Emperor from China, whenever his face was on the gold this was his honour and they traded with these coins, and it was always the right amount.

Now the Kurd Khazzars were Jew traders and they were called Ashkenazim and they did two things, they traded in gold, and in horses. And their horses numbered in the thousands and they carried their loot on these horses. Of course they were good open targets for the Mongols or anyone else, but I think anyone should be a target when travelling with these great bags of gold. Then finally they came into Europe but now they are called Gypsies. And they were Ashkenazim Jews from the Steppes. They were swept up by the hoards of Genghis Khan and for a while many of them were fighting with the forces of Genghis Khan, as they came against Christianity. And they warred against the Czar of Russia, and became the sort of resistance to Orthodoxy of Christianity in white Russia. This is their background and they were not good before they were converted to Judaism in which they perverted some of the Old Testament, twisted into

Babylonian Talmudism. And the Babylonian Talmud is the whole basis of the Jewish religion of today, and has nothing to do with the Bible as we know it. But a Baalism of Satan worship is woven and twisted in which they seek to project as, Satan as God, and God as the devil, this is their strategy.

QUESTION: The Book of the 'Upright' and the Book of 'The Wars of the Lord', where are they found in the Lost books, or where?

ANSWER: Do you mean are they in the Apocrypha?

QUESTION: I just don't know.

ANSWER: Well, one of the books of 'The Wars of the Lord' is also a part of the Dead Sea Scrolls. It is the 'Battle of the Sons of Light and the Sons of Darkness' which climaxes in the victory of the Children of Christ over the Anti-Christ at Armageddon. This is still prophetic, and in the Syrian versions there is several titles to these books. I can't tell you without seeing these volumes whether they are good Apocrypha or not, for that just means hidden, that's all, it doesn't mean all hidden scrolls are good. But hidden scriptures not canonized were just called apocrypha because the church wouldn't see to the publishing of anything not canonized. The Priests of Baal were cannibals, eaters of human flesh and that is where we get the word, Cannon from.

QUESTION: The Tree of Good and Evil.

ANSWER: It is a Family Tree. It has intelligence because to have both good and evil you have to have intelligence. Therefore you have to have a soul. To know both good and evil you have to have experienced in your background both good and evil, or you would only know one or the other. So the Trees in the Garden were many, for fruit and food, but there were already racial trees on earth of all kinds. It tells you of these in the Book of Ezekiel chapter 31. It tells you how the Assyrian tree was all over the earth, and that the Egyptian tree was also an Empire. But the Assyrian branches were all over the earth when God put Adam and Eve on earth. So when Adam was placed here he was the first white man, an Aryan man,

but he wasn't the first man if you are talking about everything that runs around walking upright.

Now; these countries were all under the fall of Lucifer and had some areas of darkness, so of none of these races was Adam permitted to marry with. So the Adamic race was told not to have anything to do with Lucifer either, or any of his race, or with any of the fallen races of earth like the Tungus people who were the original people, because they had been seduced and mongrelized and mutated. This is why Adam had been told he was not to have anything to do with these people, after he had given names to everything in earth, he knew there was no woman of earth he could mingle with, no race from which he could take a helpmate. The old Hebrew uses the mysteries of all the trees for food of which you can eat, but this Tree of Good and Evil is not a food tree. This was a race tree without life. 'The day ye eat of the tree ye shall surely die'. It was not poison food Adam would eat, it was a mutation of seed which could not bare Light, it would be cohabitating with darkness.

So, Eve was seduced by Lucifer, and Cain was the son of Lucifer, then after being seduced then Eve went to Adam and said: I have received this son from the lord, and the word is just translated Lord, it was actually Baalie (he being Lord of the earth). Then she introduced Adam to Lillith the Serpent Woman, or the beautiful consort of Lucifer, called the mother of the Ganges or Kali in Hinduism today. This first connection with the darkness was made by Eve whom Lucifer seduced. He said: did God tell you not to mingle or associate with us? Well, He just doesn't want you to become as gods, and be greater than He is. You will be just like we are, just like God, if you will join with us. We will show you all kinds of pleasures, all kinds of things you have never seen before, and Eve fell for this. She then came running to Adam and she said: I have mixed with these people, and I have had new experiences and see I am not dead. I want you to come and meet them. So she introduced Adam to Lillith. Well, Adam knew Lillith and sowed some of the Adamic seed into India through this consort of Lucifer. They have this in their theology in India today that some of them descended from Adam and Lillith, the mother of the Ganges. This is why Adam was co-responsible with Eve for this violation of law. Among the foremost things Adam and Eve were told, was not to mix the Holy Seed. You were put down here to build His

Kingdom and it could not be done that way. But God knew they would make this mistake, He had told them so before the foundation of the world. And they said: not us, but they did. So when god comes to talk to them then Adam knows he has done wrong and he is hiding. He knows that he has assumed the cloak of Lucifer. It says he made a covering for himself of fig leaves, but this is symbolic. Lucifer's Kingdom has the symbol of the Fig Leaf. And Adam was now wearing the Temple finery of the golden fig leaf. So when he came out to meet God then here is this beautiful coat covered with fig leaves. God stripped them off of Adam and Eve and made coats of skin of animals for them, and the blood ran from these animals from whence the coats were made as symbols. Then God told them that He would redeem them and put enmity between the seed of Adam and the seed of the Serpent forever because of what happened. In the Luciferian Kingdom, Lucifer was known as the Great Exalted Serpent, the Dragon is Satan's chief symbol as far as his personal authority, and his signet seal is concerned and his religious system carried the seal and identity of the Fig leaf. This is the reason why Jesus cursed the Fig tree because these Jews had control of the Temples religion, and they were serpent seed. This is also why you read in Revelation 12., that Lucifer is also known as the serpent, the dragon and Satan. Jesus said to these Jews who had clothes on and were walking around that they were the people; 'ye are the generations of the viper' thus they had descended from the Serpent Seed. So the Tree of Good and Evil was the Luciferian tree which had descended from those who rebelled against God. A tree which had both intellect and intelligence, but also evil.

QUESTION: Is this then that evil is to be a contrast with good?

ANSWER: You are getting philosophical. In this instance you are saying that God permitted evil because the positive always precludes the fact that there has to be a negative even though it never came into being? But Lucifer is on a string, he can only go so far and then God pulls him back. He has invested an Archangel in this and He will get the Archangel back. And he will cease to be the devil, and once more be an Archangel. But evil is not good even though evil may contrast righteousness. In other words you appreciate righteousness when you contrast it with evil but you might be better off not to have as much contrast. I think we have more contrast right now than we need.

QUESTION: following this same thought is there a difference in good and evil in positive and negative?

ANSWER: Well, if there were no difference between positive and negative it would be impossible to designate between them.

QUESTION: No, I don't mean that, not in conduct. I have been confronted by people who thought that when all evil is wiped out that there won't be any challenge. So I wondered if there would always be a positive and negative force, but not in the same people.

ANSWER: Well, it doesn't require negation free, for in having existed, and having been defeated then for it to be, shall we say, forcibly imprisoned, because the overthrow of Lucifer, the defeat of the powers of darkness and then the ruling that such evil shall not take place, still the law remains stable, can hold it always in non-existence but just as a knowledgeable experience, as a conquest of God over all opposition. But wouldn't become an active participant and revelation in the human mind. You see Omniscience precludes evil, and if an individual possessed perfect knowledge they would know that evil disintegrates and destroys. Therefore perfect knowledge will never permit anything against its interest to destroy it. If it is permitted then the knowledge isn't perfect, it hasn't an evaluation of the values as yet.

So if you knew that a certain set of laws would give you health, vitality, strength, security, development of kinship with God, if you understood this and perceived it in every phase and your seeing this in all areas of law, as to what you ate, how you performed, that it would cause sickness and death in your body, that it would end up in destruction, if you could perceive this then you would never do evil. If this were not true then God is all wrong because He says that anyone who has perfect perception will never do evil. So it is only in imperfect perception that a person might follow areas of what they considered as pleasure when it would not be pleasure, when the law of sowing and reaping was applied. Then if they were to compare it with positive patterns of the same law they would never consider the negative at all.

So, the sin question is the violation of Divine Law. The sin question as far as the guilt question is concerned was paid for at Calvary. The utter emancipation of the world from the bondage of sin will come with great spiritual revelation, totally unveiling to man until they think as God thinks, and as you think as He thinks you will act as God does, and that will be good enough.

Now if your worried about getting bored, I haven't fished all the streams out yet on earth so I won't get bored for quite a while, to say nothing of the solar system. I haven't gone through all the mountains here on earth. I haven't done all the things I want to do. There is none on the face of the earth like the Sons of God who want to go into everything. Let us say that when we have finished this battle here on earth and brought this planet back under our Father, and reigned here for say 100 years and I know people sing of reigning for 10,000 years, but that is not in the Bible, it is just a song. But there may be some Island Universes out there somewhere and God wants some work done there. Could even be some new devils out there we don't know about, or maybe some tracks he has left which we have to fix up. But of one thing I can assure you; God won't let you get bored. 'Eye hasn't seen nor ear heard what God has planned for those who love him'. I don't know how far Lucifer has gone or what tracks he has left that have to be straightened up, I just know what we have to do here, and that Lucifer was driven here, and when we get this out of the way, our first job, then we may find out about some other trouble spot.

QUESTION: You say the Negroes have been here for 73,000 years?

ANSWER: No, I said they have been burying them in Africa for 73,000 years.

QUESTION: I was trying to tie this in with Lucifer being driven out of the heavens, was he only driven out 73,000 years ago?

ANSWER: that is about right for being driven to earth.

QUESTION: then what about the civilizations on earth a million years ago?

ANSWER: there wasn't anything wrong with them when created.

QUESTION: Well then when did Lucifer start to integrate and mongrelise the people of earth?

ANSWER: Oh, I would think at least 75,000 years ago. The utter evil that was sweeping Atlantis and Lemuria, dropped those continents about 14,000 years ago. The last pieces to break off was about 11,000 years ago.

QUESTION: What about the medical insignia?

ANSWER: Well, it shows you that this is inter-related to our race. But they used to tell you that it was a sign of Wisdom, this serpent incorporated here. Some doctors may think so, but that wasn't the reason. You remember when the children of Israel were out in the wilderness, and they began to murmur that the sun was too hot and the food was the same all the time? They only had honey and quail from heaven everyday, but they wanted some garlic and roast pork from Egypt. And they were listening to some of the mixed multitude who came along and they were unhappy, as there was wild orgies over the hill and they thought they were missing something. So God sent Serpents among them, and these serpents were much like our copperheads only they had a bad bite, so they would soon swell up and die. So those who murmured against God got bit. Then after they were bitten they called for Moses to call on god to intervene. So Moses went out and he said: Oh, YAHWEH save this people. So God said: alright you get some brass and make a serpent of it, and take a stick, actually it was a cross, and you wind this serpent around it, then go stand this serpent up in this community and those who look upon this serpent, and you, shall be healed of the snake bites. But this is by Grace of YAHWEH who they had been murmuring against. In the Zohar it says: I also shall be lifted up to destroy the bite of the serpent, or the way of the Great Serpent. So the serpent on the staff was a sign of healing, and was historic and it came on down. But over in Venice they wanted a sign of the healing practice of all the doctors who came to this convention, and there were all kinds of doctors, even herbalists and so forth there and they weren't quite as hostile to each other in those days, so they gathered together in this and produced the symbol, the entwined serpents on a stick. As Moses lifted up the serpent in the wilderness on a stick, so also the

doctors were to provide healing. So this is how this came about and they decided they wanted two serpents so there is two of them.

QUESTION: If there are different Celestial planes, did each of us who are different come from different planes? could this maybe account for different abilities that we have here?

ANSWER: No.

QUESTION: Did we come from different Celestial planes?

ANSWER: The differences in people are determined by the components. It isn't Celestial components as much as physical components. Because you are the sum total of all your ancestors, and all their conduct, and all their experiences have been added to the making up of your soul nature, and the obedience and disobedience of the soul strength. These are the components that mark the differences. I would say that there are natural tendencies that are related to you because of the time of the year when you are born. Someone said, why is that? Well because the gestation period being 9 months during that time when you were growing and developing in your mothers womb, and she was inhaling the atmosphere and feeding on the food of the earth through its cycles, and all the vibrations of our Universe as our earth was making its trip, was exposed to you through the air she breathed, the food she ate, which came unto you the developing embryo. So when you were born you were 3 months incomplete from one solar revolution through space. So, when you were born you were three months incomplete from one solar revolution through space, and there are 612 major luminaries from the first to the seventh magnitude which are visible, these were listed in the Temple of On, and over in China in the great sky chart you find these 612 listed. We are not talking about the planets which wander. Now, you divide this by the stellar lines such as the equinox at the equator, intersect the equinoxes and you get 153 stars in each quarter. Now the strange thing is you can bisect the rotation and still end up with 153 in each corner. So the Ancient realized thinking was that every man was short and that all the big stars were equally dispersed in their fields. So 9 is the number of judgment, in our race to begin with, and in the seduction of Eve it put us under the laws of the Beast System. And instead of cosmic conception and ease of birth,

spiritual forces that emerged into embodiment in birth were entirely by a different process. So this was the curse of Adam, birth under the fall, and it was a nine month gestation and it was short of the influence of the 153 luminaries. This was why Jesus told the disciples to put the net down by the ship, then told them to count the fish and there was 153. Again this is the displacement factor of the Great Pyramid, so this is an important number. The Pyramid is an astrolabe of unprecedented size, it measured the course of the processions of the equinox, it measured the course of all the wanderers. It also showed our progression because the passage looked on Dragonis at the time the measures were to begin. And they knew exactly that they were building the Pyramid under the measures of the judgment of God on Dragonis the Dragon Star, or the North Star.

Now; when I say this again, the natural man in the physical is incomplete, in the gestation and the 3 month judgment. Therefore Christ is the completer, He is the cap stone of the Pyramid, and seals all of you in. 'You are lively stones who grow into a Holy Temple unto God', and HE is the chief corner stone. So He is the completer and anything you lack then Christ completes. He quickens by the impact of His Spirit upon you. There He quickens your mortal consciousness. And though His sons carry the spiritual seed, and this passes from generation to generation because as they cohabit with their own race they pass on this spiritual seed. But the Holy Spirit of God quickens this spiritual seed for a re-activation of its Celestial perfection. Because a spirit being was not a 9 month child, it was perfection. And it was spirit of HE who holds the whole Universe together. So the regeneration of an individual is to reactivate them, He renews the mind. And this renewing of the mind is a spiritual input which comes recharging and re-balancing the whole Adam-man, back to his Celestial Sonship position so that he no longer is limited.

Now; this can get into something quite involved and the pattern of death is involved in this. And the pattern of your ability to perceive what has been restored and to break the barriers, has a great influence on the impact of the death ideas, and the death control over the thermostats of the body. And the spirit can eventually stop this, and we shall break through into full perception of what the Atonement paid for, and death will no more have power over us. Its already paid for, the price is paid, there is nothing to be added to it. If we could have perceived Israel would not have died.

God said: why do you die like common men Psalm 82. Alright so you have to break through this, only Christ can set men free, can break through the barrier. The fact is that the last enemy to be put down is death. This is the last most powerful expectation force that you have to conquer. Because the expectation factor is sown in the chromatin that you have inherited from your ancestors. Everyone sort of gets the idea that they will live three score years, maybe you expect to die at 60 years and this is what you are looking for. There is more to this but its all I want to say on tape unless I can start early and roll through this on the point of law. Because otherwise it would be incomplete as the tape goes out to minds which would think this is fantastic. But this is one of the most vital triumphs which is going to be manifested in Christianity. This is one of the great sensational acts of the sons of God, this triumph over death, masters of Eternal Life. They are going to glow like the sun, and the restoration of their Light and aura is a part of their Destiny. That enveloping Light itself is immunization against sickness, disease, and death. It is like a wall about you, but it is also a spiritual force. It is the aura activated to its full, and that aura would be far more active if up here in this third eye, this terminal centre, if we didn't block off any of the truth of the things which God has empowered to be done, until every part of our mental being was now charged with the physical factors not complete. The Apostle Paul said; I don't want to die, I want to put on my Celestial house. Even though I know that to be absent from this body is to be present with the LORD, I still want to put on my Celestial house, my house of LIGHT. Then he said: I comprehend this but I haven't as yet apprehended it. This comes from *apropos*, so go back to the Greek and there is the words which have far more meaning that he had full perspective of the tremendous things which were entailed, but he hadn't the process of his consciousness working out until he wouldn't die. But he wasn't going to let go, he struggled on and kept alive quite a ministry, and even though his eyes were somewhat dim from cataracts, he carried on. Then he began to think about his age, and he said: after I am gone tell them about these things and he was gone. Paul never lasted but a few days after he wrote that last Epistle, 'Tell them these things after I am gone'.

So much was this true that fathers like Clemens discussed this until forbidden by the church. I guess there were forces who were afraid people would learn to much.

QUESTION: what was the thorn in Paul's side?

ANSWER: I have the tendency to say that it was his eyes. I totally repudiate the Methodist church recent statement that Paul was not a natural man, that he was a deviate, and his love of God fought against this at all times. The Methodist church says this about Paul to justify their taking in all the perverts and queers and so forth. This is not true, they thought this because the Apostle Paul did not marry and he said men shouldn't marry. But I would make this modification, this is ecclesiastical license which has effected this. Paul said that in the dangerous time when he was called to be an Apostle it would be better for a man to be unmarried, free, so he could expend himself in the work of God. Wished all young ministers of his day were like he was so they could do the work of the Lord without fearing for their families, or having their families to support. This is what Paul was talking about, nothing more or less. It would have been foolish for him to have said he wished all the males of the kingdom of God would not marry. Pretty soon there wouldn't be any kingdom, see? Anytime someone says that then you would know they were off their rocker, this was not Paul's position.

Now; Paul as he got older, he was very disturbed by some of the practices moving into the churches of the Aegean Sea area. They had all the impact of Asia on those churches in that area. So in some of these churches these transgressions would be enumerated as quite high even in a puritan church. But the Apostle Paul said: if you were saved from that you would do that which was good. But if you will note as you read here, the older Paul became then the larger his letters became as he wrote. And if his letters appeared large to them it was because of his failing sight.

Now; some people thought he wasn't a very good looking fellow, some said he was a gnarled up dwarf, and one silly preacher said he was a hunchback. But I can prove all these are lies. In the first place when Paul and Silas came to Corinth who did they say was coming? Appolo, and Zeus, and Mercury. So just go take a look at Zeus and Mercury, the pictures of these two showed an excellent physic and good health. Brilliant of mind also, and could stand up on Mars Hill and hold a discourse with all those philosophers, so he had to be sharp to do that because they had the knowledge coming in from the four corners of the

world. The Apostle Paul could talk in Greek, Latin, Aramaic, and Hebrew, he could talk to them about Plato and could quote to them from Plato's writings. So if Paul had short comings it wasn't what the Methodists are thinking of him. Paul wasn't always right, he said: now I am talking as a man, and he was battling a kind of stoic philosopher, for Paul was a stoic you see all along. I mean he was full of Grace, but also full of Sovereignty and Destiny, he was a pre-destinarian and this is good for God is a pre-destinarian that is the way He runs His Universe, that is His job. There is no ifs nor ans, God is, Paul knew this so he talked about sovereignty, grace, pre-destination, all of those things.

Then Paul would speak as a philosopher and would say: why do I do the things I do? The things I should not do, I do, and those I should do, I do not, terrible wretched man that I am, why do I do all these things, and he gets himself all wrapped up in a knot. Then he has to come out of the knot with his Faith and he says: he knows he has triumphed through Christ and he isn't going to worry about this. One moment he says: don't let the violations of the law disturb you in your mind as to whether you have the Grace of God, and all those things. Then the next moment he is worrying about the law, that the law of sin and death has given him lots of trouble and now he is thankful that he is set free of the law (of sin and death) through Grace, but still he wasn't trying to get people to disobey the law. But people don't understand this because when these ecclesiastical translators translate these areas as philosophic discussion and discourse, so in the light of their theology, which is limited, cannot be compared to Paul's revelation.

We don't have the time to go into all the Epistles of Paul, but I can tell you this, you don't see Paul until you see him without the theologians interpretations who try to interpret Paul for their own churches position.

QUESTION: What are the seven thunders?

ANSWER: Seven big noises. Ha. They are the seven big, tremendous vibratory forces that are heard throughout the solar system, and the earth is to be rocked by its sound. Its the triumph, the trumpets of Archangels, its the sounding peal of a tremendous force. Maybe they are the sounds and the impact on the consciousness of men, or upon the history of men.

Maybe not so much as a noise in our ears as much as they are a great impact upon time. However there is coming a day when you will hear a sound like you have never heard before. You will note that the seven thunders are like the breaking of the seven seals, and the next Angel then sounded, then these things happen.

QUESTION: Why, when he ate the book was it sweet and then it became bitter?

ANSWER: I don't think we have time to go into that tonight but it has something to do with its content. This is symbolic of his devouring TRUTH, and some of these things were bitter that still involved areas of the kingdom and the household. Remember involved in this was martyrdom for some. Whole churches were liquidated in the fights against Anti-Christ. When is it going to happen? Well, it has been happening. Look at what happened in the days of Genghis Khan. Look what the powers of darkness continue to do behind the Iron Curtain today. So you realize how many millions and millions of people have been put to death by communism for the testimony of Jesus the Christ. We have cause to take up the sword against communism and never lay it down. I don't believe that any Christian should cease war against communism as long as one communist stands up on a soap-box any- where in the world.

QUESTION: Is the end of the age if the battle is Armageddon, and why is everyone wanting Peace and Love, that is what most ministers are selling, isn't it?

ANSWER: I don't speak for ministers who want Peace and Love. I am going to tell you this though, we want peace with our own people, we want the brotherhood of the household, but we don't desire Peace with the devil. But there are a lot of fellows that want peace with the devil because everything bothers them and they don't want to be bothered with anything. In fact they have reached the point where they don't know the difference between good and evil anyhow. So with this position I don't have to justify or explain why Satan has been able to delude ministers until they do the things they do. The Scripture says that being ministers of Satan they will appear as Angels of Light. They are actually ministers of darkness, they deny his virgin birth, they deny the atonement, they deny

the kingdom, they deny the segregation of the races. I could tell you something, they can make it plausible when you don't take up the BOOK and see what it says. It is only plausible when you know who you are and what you are here for. I think it is a waste of time to try to go through mental gymnastics of one of Satan's children, just ignore them. There will come a time when you will no longer call them ministers, anymore than you will call a con-man a banker.

QUESTION: We seem to be building up to the situation where Ezekiel says: they will come over against us. Doesn't something have to stop us from sending our fighting men away from home so they won't be here when they come? (remember this was in 1965)

ANSWER: The battle isn't going to be over there. It is not however wrong to fight communism in the Viet Cong, but it is wrong not to fight it anyway with our boys. The difference in battles today and those 2000 years ago is the speed of transportation and the peculiar technology of the weapons, you are just as dead then as now. Remember the Alamo? That was pretty bloody and it was done with relative unimproved weapons. And when Genghis Khan and his hoards moved they would number 7000 to 8000 men in a Cavalry unit. They would hit a city and wipe it out. Today the difference is that we get there faster and with modern weapons, but we don't kill as many. This may seem strange but its true, except when they hit the cities of Germany and England, then we saw the killing of women and children but this was different, we were killing our own people, for a cause. We sent wave after wave of bombs against the cities of Germany, no one protested. But today God has given you a sharp threshing instrument and it would be far better to use our weapons then our manpower in Asia.

Armageddon is all over the world, but in the massive assaults against the kingdom they will come against us seeking to wipe us out here at home. Europe has had war but America has never had war from the outside. We have won every outside war but this Castro deal and it was sowed in here from the inside. Never forget that communism is the Jews today and it is right here on the inside.

(End of this Message)

THE NEW CHRISTIAN CRUSADE CHURCH

CALLING THE PEOPLE OF BRITAIN

At last the bible makes sense!

At last we know its meaning.

Its the book of the RACE
