### GLOBAL WARMING

#### **E**NVIRONMENTALISTS WARNINGS MAY BE BUILT ON 'HOT AIR', AND THE COST OF THEIR PROGRAMS WILL RUIN THE INDUSTRIAL BASE OF OUR NATION.

This is the consensus of the experts, as we watch these people scream and cry about different things. For instance: take this scare about 'Asbestos' the truth of the matter is that Asbestos is better left alone in the school buildings. It is considered less of a threat than if it is torn out at a tremendous cost. Then there will be more in the air, and there will be a much greater risk of fire which the children will face. Actually, much of this hue and cry is all a part of the new age tactics, to bring you to the worship of 'Mother Earth' instead of God Almighty.

A North Carolina Judge, H. William Constangy is being sued by the American Civil Liberties Union, on behalf of five Attorneys, because he opens his Courtroom each session with these words which they call a Prayer: 'Let Truth be heard, and wisdom reflected.' They call this a violation of Church and State. How ridiculous can you be? The Supreme Court opens its Sessions with these words: 'God save this honourable Court.' Will they try to change this also?

Now: Lithuania was forcibly incorporated into the Soviet Union in 1940, and this was an illegal act, but now Gorbachev is trying to force this little nation to remain under this doctrine which says: 'What is mine remains mine, and what is yours is up for grabs'. This was the old Brezhnev doctrine, when any nation forced into a different role tries to move toward restoration of what they once were then you see the rise of concern of any Communist nation because they only know about the use of force to maintain themselves. However the little nation of the Baltic states is forcing the Western press has been so enamoured with. The Soviet Union does not want a unified Germany, if Germany remains in NATO because

that organization is considered a part of the Western World. Peace at this time is then far from being assured in any of the nations behind the Iron Curtain. As they struggle to be free this same Satanic influence rises to try to stop them, which is simply this same old struggle which has been going on for so long.

### **FROM HISTORICAL REVIEW**

The Myth of the extermination of Jews by the Germans in WWII., is now tottering. But these far out stories have lasted for all these years. For instance at the trials at Nuremburg for Instance: an American investigator Kirschbaum, introduced a witness by the name of Einstein to prove that this certain German Officer on trial had murdered Einstein's brother, yet the brother was actually sitting in the Court room. The Prosecutor scolded Einstein saying: 'How can we bring this pig to the Gallows if you are so stupid as to bring your brother into court?' And yet this German Officer was convicted and killed.

The truth of the Katyn Massacre is now admitted by the Soviets. It is now in the papers and on TV, and there is a good discussion of this in the 'Readers Digest', however the total truth has not as yet come out, although some of the commentators have admitted that the Western World knew this massacre was not the work of the Germans. The United States President was so informed but he would not try to stop the killing of the Germans for this crime, because his advisors did not want to disturb our good relations with the Soviet Union: and our involvement with Joseph Stalin at that time. The complete story has yet to come out

Profiles of Deception, how the news media is deceiving the American people. Two years ago a group of moderate Black Clergymen from South Africa came to the U.S. to oppose the 'Sanctions Legislation'. They could get no publicity on Network TV., or in the major Newspapers. These Ministers claimed to represent million of Black South Africans, far more than does Archbishop Desmond Tutu, who regularly appears on American TV.

Twice last April and in May ABC's World News Tonight featured an Oregon business man named Richard Brenneke implicating the top aide to Vice President Bush in arms and drug smuggling deals. He claimed he had flown arms to Nicaraguan Freedom Fighters and then drugs back into the U.S. That he took orders from Donald Gregg, who was at that time the National Security Advisor for Vice President Bush. ABC put Brenneke on the air twice and he gave a sworn deposition to a Senate Committee headed by Senator John Kerry of Massachusetts on the matter. Most journalists knew that Brenneke's stories did not hold water.

Accuracy in Media protested but the excuse for using the story was that Brenneke had given a sworn deposition to a Senate Sub Committee. Two years later Senator Kerry admitted his staff had been unable to verify Brennek's charges. However ABC TV. News refuses to issue a correction. In 1989 on May 15., a Federal Grand Jury in Denver Colorado indicted Richard Brenneke for perjury, for having lied under oath in making his wild charges against George Bush. (Wonder who paid him to do that?)

On May 17, 1989 Bryan Gumbel, NBC's Today Show Host talked with Randall Robinson, head of the Lobbying Group, 'Trans Africa', which is pushing for immediate Black Rule in South Africa. However the methods this group and even of Archbishop Tutu do not reflect the wishes of South African Blacks. Bryant Gumbel did not ask about the poll released by the South African affiliate of Gallup International, where in 82% of the Black's polled had said that Sanctions were a bad idea. 55% rated unemployment as one of the most serious problems facing South Africa compared to only 21% that sited Apartheid. These Blacks realize that South Africa has the highest standard of living, and highest Black per capita Income of any African Nation. But the eagerness of our media to give the impression that Tutu is the foremost spokesman for South African Blacks was demonstrated by the treatment he was given by ABC's Ted Koppel, on 'Nightline'.

Now: as to this worship of Nelson Mandela, he was in England but would not meet with Mrs. Thatcher until he had been shown on T.V. as being greeted by great crowds of Britons. But last year when the South African Government reported the 172 lynchings of Blacks in three months, the

Press screamed as steps were taken to halt the killings by a Nation Emergency measure. They also failed to report that Mrs. Mandela had encouraged this lynching. On April 13, 1986., she is reported to have had said: according to an AFP Dispatch: 'Together, hand in hand with our boxes of Matches and our necklaces (lynching tools) we shall liberate this country.' This was also not sited when she was given an honorary degree by the John Jay College of Criminal Justice in New York City.

**Pat Buchanan:** After spending 20 million dollars, federal prosecutors managed to persuade 12 political illiterates in a jury box that Admiral Poindexter misled Congress about what the White House was doing to keep the Contras alive and to win the hostage's release. As communism is rolled back then history is close to a verdict that Ronald Reagan was the true hero of the cold war, this the left does not want.

The heart of the doctrine was the Contras, keeping them alive when the Congress sought to ditch them as it ditched the brave army of South Vietnam. Reaganites maintained the force that with 100 million dollars in military aid in 1986 would keep pressure on Daniel Ortega until he would accept the free elections which brought down his reign. Poindexter was not charged with violating the Boland Amendment because this was a Civil matter, not a criminal statute, and it did not apply to the National Security Council. History thus repeats itself, what the left by use of the Iran Contra Affair tried to do to President Reagan is what it did to President Nixon using the Water Gate Affair.

This was to break a President it could not defeat at the ballot box. This Trial of North, and Poindexter was purely political, to cover the 'Sell out' of Central America. We will see more of these show trials until Republican Presidents learn to defend the Office from the Political assaults of an embittered left that has no other way of overturning a Conservative Mandate. Special Prosecutor Lawrence Walsh is under extreme pressure to recall to the Grand Jury all Reagan officials connected to Iran Contra, including the ex- security advisor to then Vice President Bush, the purpose is to smear if possible the President of the United States, one more time.

Cicero (quote) Those who have no knowledge of the past must remain children.

The Israeli's have as yet not killed John Demjanjuk the 70 year old American who is supposed to die for operating the diesel engine which was said to have supplied lethal gas to the Treblinka 'gas chamber'. On Feb. 25, 1990 CBS on the program 60 Minutes devoted a segment to this case and reported that certain people had been prevented from testifying at this trial that Demjanjuk was not the man, 'Ivan the Terrible'. One was the woman who had been on intimate terms with the man, Ivan the Terrible and she stated that Demjanjuk was not the man. The case against this man is groundless and a travesty of American and Israeli Justice if there is such a thing.

On Feb. 26, 1990 on the Jerry Williams show, Boston Mass., 2 IHR members squared off against Michael Slovich (JDL) as they proved that so far no evidence had been produced to prove that there was an extermination of Europe's Jews, and that the losses of such during WWII., has been highly exaggerated by modern historians. The JDL man rummaged desperately through his prepared notes to produce something, as 100,000 viewers took it in from live Prime TV. The IHR also has a VHS copy of the Telecast.

Until Next Time. May Yahweh Bless E.M
