**I** HAD PROMISED TO TALK A BIT ABOUT THE PURPOSE OF THE TV SERIES "AMERIKA" but it like so many things are thrown at the viewing public hoping that a certain message will stick, the message here was resistance is useless and then other things come along so fast that you think of something else but that message is registered in your subconscious, and you never forget it.

Events are moving fast here in early 1987, it is hard to keep abreast of the News and to sort out which is authentic and which is simply to distract you from something you should know. I see these many things coming to pass, and I also see the hand of **YAHWEH** as he balances out the events so that his nation, his people are not quite overrun.

For instance, this great Big Monetary Collapse which has been talked about and written about for some years. But different dates have come and gone and no collapse. What happened to Mexico, Brazil, Bolivia, even the Chrysler Corp. of this nation, all were bankrupt entities. All third world countries had to be refinanced, were the big Banks going down in domino effect as in 1929? Well, they didn't, did they. What then was this monetary system established after WWII which prevented this great disaster??

Would you be surprised if we tell you that no big Bank will ever go bankrupt under this system established after **WWII AND NOW PERFECTED**. Oh! the little Banks will go, and the debts will continue to climb, but we are talking about the big International Banks, those which scripture outlines as a part of Mystery Babylon. We saw how this system worked in 1982 A few powerful men called in the big Bankers and demanded they write off Mexico's monetary Crisis as a loss, and give Mexico 5 Billion dollars in their credit line so Mexico could borrow more money to pay their Interest (Usury) on their old debts and any new debts

they would acquire. There were 800 banks involved in this manoeuvre and those banks soon invented new tricks to take fees and so forth from millions of small savings, credit cards, and so forth to pay the bill. While blood is being sucked from the American farmers, treating them like the enemy, still Mexico was saved so that the "**USURY**" system goes on. The people of the western world are paying for the corruption, and inability of countries around the world to support themselves, and we do it without being asked or a law passed. But the Mega-Bankers can sleep again, for no Big Bank will collapse, no countries economy will collapse no matter how hopeless it is. The Bankers will save them with your money while they destroy the heartland of America that is the program outlined from the beginning.

Now; do you see why the World Bank was created, the IMF (International Monetary Fund) was created? they are a part of this World Banking Society which our blind politicians try to make work. We already have this Great Global Economic system, it already exists and it works. We as a nation and as individuals are caught in this Global, **ONE WORLD TRAP**, and we have to pay its way without even being asked. We are thus further along in this great conspiracy than we realized. The International planners are not worrying about debts, or poverty, or foreclosure of farms. They are only interested in keeping this system of **USURY** running smoothly, and it takes credit and interest to make it work. Debts are a means of control, the aim then is to use this control as an arm of their one world Dictatorship.

Henry Kissinger outlined this as he said: 'The aims of the International monetary system has to be adjusted to political realities.' We tell you that there are men behind the scenes that manipulate the government and try to keep things running in their direction and program. Did you notice that Jimmy Carter is now in the Mid-East and will go even to Syria, remember that he is Co-Chairman of Global 2000, so why is he over there and interested in the hostages?? He like the IMF, the World Bank, is just a tool in the hands of a small tight knit group of men who plan to rule the world. World trade, world economy are just more tools to bring all nations into line, to rob them of their heritage, their culture, to destroy their independence, and freedom, to make them helpless victims of total

exploitations. Now; Economy is not a science to be studied, it is a dirty trick to be exposed. As long as America and her people play the game of these Bankers, trying to live off borrowed money, there is no way to escape their dictatorship. Only when we stop borrowing money at Usury is their power broken. Debts are chains for a nation, for individuals both small and large.

Over the years we have heard people say: Keep your credit good by showing that you can pay your interest. But this turns out to be a call to enslavement, where as the refusal to make a debt is the road to freedom. Don't wait for this **ONE WORLD SYSTEM** to collapse while you borrow your way to wealth, it never will. The path to freedom laid out in the bible tells you that the borrower is the slave to the lender (Prov 22:7) Thus the understanding of this Economic system is what will make us free. The way that Great Babylon, as though a great millstone from around your neck, is to be thrown down is for God's people to quit borrowing money from these Great International Bankers, thus "Come out from among them and be ye separate, "And if you do that, if every nation would cancel their debt and make no more they would collapse.

Now; this Iran-Reagan - Contra affair is all just a part of the drama being played out in our world today. Henry Kissinger is again one of the stooges used to bring down America to the point where America can be merged with the Soviet Union under this one World Dictatorship.

It doesn't matter whether you like President Reagan or not, he was slated to be destroyed the first time he moved contrary to this One World Plan. He was almost a prisoner of the CFR-Trilateral from the first. The real secret government, the real power behind the scenes according to Dr. Coleman is the headquarters in Harold Pratt House in NY. Here it is decided what is to be allowed. and when the President came up with the SDI program the word went out, this President must go, and the Kissinger plan was activated. According to Dr. Coleman then McFarlane was to be the 'Deepthroat' of the plot against President Reagan, just as Al Haige filled that post under President Nixon. We would say that McFarlane perhaps was used by the **MAN** up stairs to carry the Bible to the Arabs, don't think that was in the program and according to Dr. Coleman, as

President Reagan failed to bow to the Soviets and cancel the SDI program then the Kissinger plot to destroy the Reagan Presidency was stepped up. As for this selling of arms to Iran, this has been going on for years before the Reagan Presidency, it was just continued under this President. McFarlane knew this and perhaps this was something else which troubled his conscience as he tried to serve two masters. Many of the Israel men who belong to the CFR and Trilateral organizations have been schooled to accept this program as being in the best interest of America. This perhaps explains their blindness in part, as their ego is fed, and they obey unseen masters, and never look beyond their place in power.

Now; that the Iran affair has produced a weakened Presidency we see that the Soviets are ready for an Arms agreement, interesting isn't it? And we don't even have to give up the SDI program to reach an agreement????? We are now at a national crisis, if the President does not step down, he will see one crisis after another until the country is in chaos. And we believe that if Reagan does fall the enemy within our gates will have scored a great triumph for with Reagan will go SD and the protection of our **NATIONAL** sovereignty

. As to why the press has turned on Mrs. Reagan, those behind the scene tell me that Mrs. Reagan is urging the President not to bow to the CFR-Trilateralists and not to compromise on SDI. We want you to remember that the Man Upstairs has more power than those men behind the scenes who think they are getting ready to rule the World, after their highly paid stooge has brought down another President. Remember this Henry Kissinger is the same man who after betraying President Nixon had the audacity to kneel in prayer with a distraught President Nixon in the Oval Office. When will men of Israel ever learn that such men do not think like we think?

Another reason why the Soviets are now ready to get rid of their older weapons facing Europe, and why Gorbachev is trying to draw attention to Nuclear disarmament, he is doing this while completely ignoring the more deadly and dangerous chemical and bacteriological armaments in the Soviet arsenal, which is now ready for use. Lets be frank, this secret and invisible government of the U.S. has been cooperating with the USSR

from the days of the Bolshevik revolution. Neither the USSR nor the Secret government of America has ever had any intention of destroying each others assets. Nuclear was is very costly, but chemical warfare is cheap, easy to manage and contains, and is very effective. The Soviets have a vast chemical and biological weapon. The majority of SS 20 missiles adjacent to European cities are not tipped with nuclear warheads, they carry chemical warheads, particularly thickened methane gas, and bacteriological warhead such as with plague, smallpox, and a host of new disease bacteria. No wonder Gorbachev wants to deflect attention from this arsenal which would quickly incapacitate the NATO nations and their forces.

Now; as you've seen from this last press conference, no matter what the President says, it won't make any difference, but I still do not believe that he will be hounded from office as was President Nixon. I believe that the man upstairs has more to say about that then the enemy. So let's see what happens. If the affair gets to close to Israeli participation you will see the press cut and run. As for the spy Pollard, I look for him to be sent to Israeli before he spends to much time here in prison.

Until next time we remember that the power behind us is much greater than those that would enslave us. I don't say it will be easy the next few years, but I don't think we are going down the drain either. I am counting on our destiny.
