

The Germ Theory Fraud

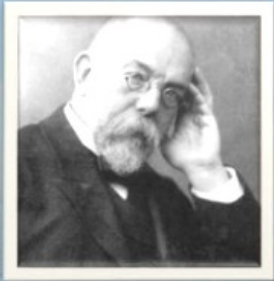

Dr. Bernarr, D.C., DD.

The Germ Theory Fraud

Germ Theory of Disease

- Proposed by Robert Koch and Louis Pasteur.
- Every human disease is caused by a microbe or germ, which is specific for that disease and one must be able to isolate the microbe from the diseased human being.

ROBERT KOCH

LOUIS PASTEUR

The underlying scam behind this criminal medical cartel taking over the planet is Germ Theory. It is false and **MUST BE EXPOSED**. Make the world understand this and the Covid / vaccine fraud falls apart.

Some quotations that refute the Germ Theory:-

“Medical doctors are working on the germ theory of disease... But the germ theory is already weakening and is due for being thrown aside. Dr. Fraser of Canada and Dr. Powell of California have experimented with billions of germs of all varieties, but they have been unable to produce a single disease by the introduction of germs into human subjects. Dr. Waite tried for years to prove the germ theory, but he could not do so. During the World War an experiment was conducted at Gallop's Island Massachusetts, in which millions of influenza germs were injected into over one hundred men at the Government hospital, and no one got the flu.

The Germ Theory Fraud

Germens are scavengers.” -- *Principles and Practice of Naturopathy*. - E.W. Cordingley, M.D., N.D., A.M.

“We said before that so-called “germs” are ubiquitous. They are ever present, in many varying forms in both healthy and sick people. These microbes kick into what modern scientists call ‘pathogens’, when the media is toxic and conducive to clean up. When you enter into a healing crisis, and your body is throwing off toxins, these “germs” appear out of your very substance, to help eliminate, process and break down these toxins. Germs have absolutely no causal relationship to disease. But germs do appear to help you clean out, because put quite simply, your disease is your cure!” – Dr. William P. Trebing – **Good-Bye Germ Theory** – p.154

“... Viruses are simply the excretions of a toxic cell. Viruses are pieces of DNA or RNA, with a few other proteins. They butt out from the cell. They happen when the cell is poisoned. They are not the cause of anything.” - Thomas Cowan MD on Rudolf Steiner's insights.

“The entire fabric of the germ theory of disease rests upon assumptions which not only have not been proved, but which are incapable of proof, and many of them can be proved to be the reverse of truth. The basic one of the unproven assumptions, wholly due to Pasteur, is the hypothesis that all the so-called infections and contagious disorders are caused by germs.” - M.L. Levenson, M.D.

“If the Germ Theory were true, no one would be alive to believe it.” B J Palmer, D.C.

“Three criteria are, according to the scientific method needed to properly identify a virus. It must be isolated from a host cell. As of 2016 this has never been accomplished in humans. It must be photographed and its diameter measured. As of 2016 this has never been accomplished in humans. It must be bio chemically characterized. As of 2016 this has never been accomplished in humans. This has never been done with any virus (herpes, hepatitis, h1n1, bird flu, swine flu, influenza, polio, measles) let alone HIV, HPV, SARS, Zika or Ebola.”- Viruses. How Much is that Dogma in the Window? – New Medicine Online

The Germ Theory Fraud

“We agree with those members of the profession who hold that no germ causes tuberculosis. Germs do not cause any disease. Further, we agree that there is more harm in the fear of germs than there is in the germs themselves.” -- *Timely Truths on Human Health* - Simon Louis Katzoff, M.D. 1921

“The general public have been told that we do not become ill except when germs penetrate into from without. The germ theory of disease is ridiculous.” -- *Bechamp or Pasteur, A lost chapter in the History of Biology* - E. Douglas Hume

"You're working under a wrong premise to begin with and you're never going to find the answer if you do that. Viruses have no digestive system. Viruses are not alive. That's like saying soap is alive. They're not alive. They are solvents. They are soaps. However, more accurately, they are enzymes to fractionate tissue for waste elimination." - Aajonus Vonderplanitz

"We must infer that at least some and probably all three of those Russian peasants died because of Pasteur's vaccine, as did uncounted people later on—Only one thing is sure: ever since Pasteur developed his "vaccine," the cases of death from rabies have increased, not diminished." - Hans Ruesch

"Had it not been for the mass selling of vaccines, Pasteur's germ theory of disease would have collapsed into obscurity." --- E. Douglas Hume

“In 1915, another medical doctor wrote an article for the top British medical journal Lancet. Dr. Montais studied 21 cases of tetanus, each of whom had received Pasteurian inoculation.

The conclusion of the article, which appeared in the 23 Oct 1915 issue, was that in every case, the tetanus had been caused by the inoculation. Dr. Montais said that "Pasteur had created a new form of disease." -- The Post-Antibiotic Age: Germ Theory by Tim O'Shea

“The culprit however, is not the microbe. It is the level of toxicity you

have in your own blood stream.” -- Good-Bye Germ Theory, Dr. William P. Trebing 2006

“In all that I have witnessed inside and outside of laboratories, there is only one cause of disease: Industrial pollution in medication, food, air, soil and water. Strengthening a body’s constitution and lymphatic system is the first step to reversing/curing disease” - Aajonus Vonderplantiz.

"Germs cannot be the cause of disease, because disease germs are also found in healthy bodies." -- *Nature Cure* H. Lindlahr, M.D.

"What’s happening is, like I said, we have colds, which are mainly bacterial, which go feed on toxic tissue that’s been damaged – we don’t eat well enough, we don’t eat all raw and therefore we accumulate toxicity. So bacteria have to come in and eat that waste product because we can’t keep up with all the waste. OK. So that’s what a cold is.

Flu is mainly viral. Some bacteria may be active during flu. Some areas of our bodies may not be so contaminated that bacteria - the natural way that we cleanse with bacteria when we’re overloaded with toxicity or waste products, will help us. But when we are so toxic that the bacteria are poisoned by the tissue, from chemical inundation, then we have to make solvents.

Each cell makes a solvent. Each cell makes a soap to help clean itself. And it’s a union. It’s like a factory. All the particular cells get together and say, “Let’s make this to help clean ourselves.” So they make enzymes which we will call soap to do that. So there’s nothing dormant about it. It’s just that when the accumulation of industrially contaminated waste is so great and you can’t use microbes then the cells make solvents, that is, viruses we call flu." - Aajonus Vonderplanitz

"Any kind of flu is the same thing. When the climate and temperature are right, certain tissues will cleanse. They may have a 7-years cycle. They may have a 6-months cycle. It depends upon the tissue and how contaminated it is. If certain tissue needs to cleanse every two years, our bodies will create, if waste tissue is too toxic for microbes, our bodies will

The Germ Theory Fraud

create a solvent (a virus) that fractionates and cleanses that particular tissue every two years, every 6 months, every 3 months, every 7 years, every 12 years, depending upon that tissue and how contaminated it is. The myth that herpes is contagious is pharmaceutical industry fiction to scare you into taking medication." - Aajonus Vonderplanitz

"Rudolph Virchow, a great German scientist, repudiated the germ theory of disease. He said that disease brought on germs rather than the germs caused disease. Claude Bernard, Bechamp and Tissot - great French scientists - all disproved the germ theory of disease. In Hans Selye's book *Stress of Life* (Page 205), an account is recorded that Louis Pasteur, inventor of the germ theory of disease, admitted he was wrong. Sanitation is the only factor that has reduced the spread of the old-time scourges. If the germ theory were founded on facts, there would be no living being to read what is here in written, for germs are ubiquitous - they exist everywhere. In many diseases supposedly caused by a specific germ, that germ is not present. Contrariwise, specific germs said to cause a specific disease are present in huge proportions without the specific disease manifesting itself.
