THE BRITISH

FASCIST OPINION.

THE SURRENDER OF AN EMPIRE

By

Sir Michael O'Dwyer, G.C.I.E., K.C.S.I.

late Governor of the Punjab

THE British people by superhuman efforts saved the Empire in the Great War; since then our Statesmen have been busily engaged in surrendering it. Ireland has under the treaty of 1921 become a hostile republic, in fact if not in name; Egypt and Iraq, standing on our Sea and Air routes to the East, are fast slipping away from our legitimate influence, though we rescued the first from the Dervishes and the second from Turkish tyranny; the great island colony of Ceylon whose prosperity has been built up by British enterprise and capital and which is protected by the British Army and Navy, free of charge, has in the last few years been given a pseudo-democratic constitution which enables the local political cliques to set at nought British Authority, strangle British trade and squeeze out

the British Officials.

India still remains, but our position in India and our responsibility for the welfare of its 350 million people are now being abandoned. If that insane policy inherited from the Socialist Government and embodied in the White Paper, is carried through, and the present Government are straining every nerve to carry it through, India will be lost to the British Empire "after a period of transition". (to quote the Prime Minister's words).

With it the British Empire will go down. For as that great Viceroy, Lord Curzon, said 30 years - ago, "India is the pivot of our Empire. If this Empire loses any other part of its Dominions, we can survive. But if we lose India the Sun of our Empire will have set."

Editorial Notes

That is the great issue with which the British people are to-day confronted. Fortunately they are waking up to the fact that the Government without any mandate from the Constituencies are flinging away the glorious heritage for which our fore fathers shed their blood. The surrender of our position in India would be even more disastrous to the peoples of India whom we have rescued from anarchy, civil war, invasion, famine and pestilence, that to the millions in this country whose livelihood depends on the trade—£200 million per annum--which British enterprise and capital have built up to the advantage of Great Britain and India. The surrender which the White Paper contemplates would in the words of Mr. Lloyd George be the greatest betrayal: in history. It can only be averted by prompt and vigorous action on the part of the British people: They have the last word. Let them speak it.

HITHERTO the public have been very badly misinformed about British Fascism, by the Press and the Party Politicians. The reason is not far to seek. The old political parties dread the advent of Fascism as a political factor in the life of our Country and the Press, which is a Reflex of the various sectional and party interests, always- presents Fascism under the worst possible light.

However, we British Fascists are not very much concerned with what the yellow press and the Old Gang Parties may do or say. Our task is to enlighten the British public, to show the people that Fascism will mean the amelioration of the conditions of every man, woman and child in the country. We want the public to understand that British Fascism has become a social and political power with which to be reckoned, and that the Fascists are out to capture the control of the British State in order to erect the Fascist Corporate System and eliminate the present chaotic and vicious party system which is mainly responsible for our present ills and which is dragging the Country and our People down the steep slope of Ruin, Misery and Despair.

**BRITONS! YOU CAN
PREVENT THIS
SURRENDER BY
JOINING THE BRITISH
FASCISTS & FORMING
THE PATRIOTIC
UNITED FRONT
AGAINST EMPIRE
DISRUPTION**

British Fascism shall be one of our Voices which will rally the people of Britain into a United body whose principal purpose will be the prosperity and well-being of our People and Country.

Great Britain has been deceived and misled long enough by the specious promises and unfulfilled pledges of our so-called statesmen. To-day the country has to face some very bitter facts. Over three millions of our fellow Britons are out of work and on the Labour exchange Registers, drugs on a labour market

that cannot absorb them, liabilities on the National Exchequer. Another million more are in receipt of relief and are struggling on a bare subsistence level, badgered by the bumbleclom of present day officialism. Our industries are closing down because our manufacturers cannot sell the goods they produce, as there is very little money to spend amongst the people.

Taxation is still rising, agriculture is moribund! Yet the Chancellor of the Exchequer declares that unemployment cannot be solved for at least another ten years, while the country can still afford to finance foreign loans to Poland, Austria, etc! Our Prime Minister can dash here, there, and everywhere, talk largely about international settlements, hut the internal plight of the country apparently does not interest him. Our politicians have muddled enough. They have pledged the manhood of this country to support every Continental quarrel. They have whittled down the armed forces of the Nation and yet may plunge us into another European War! India, Ireland, and parts of the Empire are being sold and sacrificed by those nit-witted and weak-kneed statesmen for party expediency and to retain the sacrosanct vote.

While our streets are littered with beggars, maimed ex-soldiers, and unemployed Britishers on whose behalf no voice is raised, all our -party politicians, Conservative, Liberal, Socialist, etc., can find time to shed crocodile tears on behalf of the poor persecuted Jews in Germany, embroil us quite cheerfully with a friendly Power, and waste British money and time holding indignation meetings.

The misery and appalling condition of things are providing a fertile ground for Communist propaganda. The alien agitator, taking advantage of our people's plight, is using this opportunity to disseminates his false doctrines and secure our men as his cannon fodder in his disruptive attack on the British race and nation.

A cry of anguish is rising throughout the land and we British Fascists cannot remain deaf or indifferent to the voice of our people in distress.

The British Fascists have a firm belief in the innate qualities of the British people, in the great traditions of our country and Empire, and therefore we come forward to rally the scattered units and sections and weld them together into a National Mass which will fight for Britain's life. In all loyalty to King, people, and country, British Fascism raises the standard of revolt against the enemies of the country, which are:--the Party System, the International Banker, the profiteer and monopolist, the stock exchange gambler, the Socialist and Communist wreckers, the Jew trader who undercuts prices and who is obtaining- a strangle hold on some of the key industries and trades.

We call on the British people to rally to our-banners and enter with us the political and social fight for the re-conquest of Britain. Our appeal goes out .equally to the working class men and woman, to the small trader, to the industrialist, merchant and manufacturer to all classes and creeds of the British Community. We are fighting for the country's life; for a higher standard of life, a higher social conception; for greater productivity in industry and agriculture, for a high standard of labour and efficiency; for a fair deal to every Briton in Britain!

Away with class hatred! Away with false economic doctrines! Out with the traitor and profiteer! Let the British people regain their confidence. Let us move forward in an irresistible mass of nationally conscious people, proud of our country and traditions, determined to see that "come what may, Britain still shall stand."

The British Fascists are out to build the Corporate State. Fascism demands order, discipline, character, merit. Those are the qualities the Fascist State requires and rewards.

Finance, industry, trade, press, people must realise that the State has to exercise its proper function of control, and responsibility, and therefore we seek a system which will mean, "All within, none against the State."

The hour is striking, Fascism moves forward! What will you do?

The Repudiation of British Finance and Enterprise Abroad

The recent trial of Metro-Vickers' employees in Russia, is an example of the kind of treatment meted out to British Companies who during recent years have ventured to carry out commercial and constructive contracts for Foreign Governments. Owing to the half-hearted retaliatory methods employed by our spineless pro-alien Parliament, any British Company, operating outside the precincts of our Empire is entirely under the heel of the Foreigner who has only to frame a case against it in order to evade all financial liabilities that are involved. Russia is not the only country that has defaulted. In 1924, a British concern the Anglo-Spanish Construction Co., was granted a lease of ninety-nine years in which to carry out Railway construction, maintenance and General Engineering for the Spanish Cortes, who placed large contracts with the Company which have been duly executed.

Now, the Republican Commission of Responsibility has repudiated a debt of 56,000 pesetas owing to the company, and reports that the concern is illegal, prejudicial to the Spanish State, and that the contracts were obtained by irregular methods.

British Fascists will safeguard the interests of the British Nation, by taking firm counter-action against such dishonest measures. Enrol in the British Fascists and take a firm stance for England. We Honour our Debts, make the Foreigner do likewise. **H. G. P. W.**

HEADQUARTER ORDERS

Orders of the Fasces:—

The under-mentioned, having ceased to be members of the British Fascists and having failed to live up to their Fascist undertakings are deprived of the Order of the Fasces, bestowed on them by the Organisation, by order of the Executive Committee:—

N. Francis-Hawkins, Mr. Hirst, Mrs. Fitzroy Clarke, E. G. Mandeville Roe, Miss I. N. G. Ray, Mrs. Swinburne, Mrs. Passy, Miss P. Chancy, Mrs. R. C. Lucas, Capt. E. Smith, Miss Clare, Miss C. N. Kirby, Mr. Knight, Miss Pridmore.

Attached Section— Country members visiting London are requested to register their names on the Headquarter attached section list. This will enable them to keep in touch with the activities of the Organisation

Monthly Meeting

All members are notified that a Monthly Meeting of members is held in H.Q., the first Wednesday in every month and all who are able to do so are requested to attend.

Circular Orders

London and Country. local Commanders are notified that the Organisation is in process of re-organisation. All District, Area, and County Commanders are requested to communicate with Headquarters and make their requirements known as regards badges, uniforms, etc. Circular Orders at regular intervals will be issued, commencing with July 3rd.

Country Open Air Meetings

A campaign is being inaugurated for a wide Country-Propaganda. Special notification will be sent to Areas-affected.

THE INDIA QUESTION

ALTHOUGH the British Fascists have nothing in common with the general policy of the Conservative Party, they extend their congratulations to that section which is resisting the attempt of the National Government's surrender in India.

Although as a patriotic Organisation our application for membership of the India Defence League was refused and our membership cheque returned we are consistent with the policy of putting Country and Empire before Party and Section.

Therefore we advise all patriots who are disgusted with the Government's policy over India to apply for membership of the India Defence League an organisation which is arousing, the country to resist the passing of the White Paper.

We share their views on India to the full, and perhaps in our Fascist way, would go much further than this rebel section of the Conservative Party. On our side we are doing all we can to combat the National Government on the India question by public and indoor meetings. People of Britain fight your hardest to keep the Empire whole! Under present circumstances membership of the India Defence League Will help towards this end:—

Apply for literature and particulars of the India Defence League to the Chief Organiser, India Defence League 48, Broadway, Westminster, or to these Headquarters.

THE UNJUST STEWARDS

IN the old days the three aims of an Englishman's life were to serve his God, his King and his Country; in one word, he was patriotic. If, for instance, he was called upon to fight for his country, he would do so cheerfully whether he liked it or not, and if he heard someone saying anything disloyal to his King or his God, he would most probably fight him for it. This patriotic Englishman was no uncommon character in the last century, as public opinion had not then, as it has now, succumbed to the coma of egotism which is caused by the excessive "softness" of conditions.

The above quotation is taken from an essay on "Patriotism" written by one of our schoolboy members, one of those whose Fascism stands between him and the dry rot which is steadily permeating all grades of our schools throughout the Empire.

Across the essay is written the following comment by the master, "I should say that modern life has definitely cut God out of its scope. The trouble is to reconcile God with King and Country."

This in a public school, and one moreover, where more than half the boys are sons of Army, Navy or Air Force fathers, and the parents of the remainder are serving their King and Country in some administrative service in various parts of our far-flung Empire.

Granted the master in question may have been indulging in a pedagogue's "leg pull," for British Fascists, like the early Christians, are frequently "reviled of all men," but why should he try to put doubt into young minds' and cast a slur upon the old and well-tried faiths which made the Briton respected all over the world?

Only yesterday a working woman member said to me. "I dread the time when my children are old enough to go to school, what kind of a teacher will they get, will the faith the their father and I have taught them be swept away by Communist ideas?"

There you have two parents, one paying for her son at a public school, the other about to send hers to a school paid for by the state, yet neither of them could be sure that their children's belief in God, King and Country would not be upset by those paid to teach their children to be good and useful citizens of the British Empire!

In a Fascist State such a situation would be impossible, is it then any wonder that we Fascists no matter what our circumstances may be, look upon Fascism, not as a political condition of thought, but as a creed amounting almost to a religion.

Karl Leibnicht once said, "Who has the Youth has the future," and the future of British youth lies in the hands of their school teachers. Parents, be they never so conscientious, can only plant the seeds of knowledge. They have work to do, or are, very probably, not sufficiently well-educated to teach their own children, since education has advanced so much during the last generation, therefore the young plant must be left in the hands of experts, and how are those experts carrying out their trust? Not too well, if one is to judge by some of the results emerging from our educational establishments, whether: they be from Council Schools or Universities.

"I should say that modern life has definitely left God out of its scope," says the public school master. "God is the dope with which Capitalism drugs the workers," says the State School teacher. These two represent opposite ends of the educational world and in between are the countless secondary and minor private schools wherein the same type of thing is taking place.

A school master is necessarily a trustee of the future. He undertakes certain obligations, and should he wish to enlarge his private disloyal views on the rising generation, he should make the fact perfectly plain to the parents of his pupils in order that they may expose their children to these influences at their own risk. When a parent or guardian sends a child to a school which has service traditions, they should at least be sure that he or she will not be in any danger of hearing anti-God or anti-Imperialistic views; equally the loyal working class parent has a right to the same patriotic teaching for his children, and the rate-payers' money should not be used to educate a rising generation of young revolutionaries.

Wake up, parents, investigate what is happening in your childrens' schools, and bring the unjust stewards- to ac-count. The past is yours, the future is your children's and you owe it to your country that they grow up strong in the old essential ideals, Fear God, Honour the King, Love the Brotherhood.

By means of Red Sunday Schools, Young Communist League, Kibbo Kift Kindred, and countless other subversive movements the Red menace is obtaining a strangle-hold on British youth, while loyal parents stand idly by and allow their children to absorb so-called modern "thought".

The child of today is the citizen of tomorrow, on him depends the future welfare of our beloved country and we-parents have a great responsibility. Because our sons and daughters have gone to school our responsibility does not cease with paying their school fees or seeing they wash behind their ears. Of our own free will we have brought into the world a British citizen, a thinking entity, a force for good or evil, a patriot or a revolutionary. When the boy grows up he is

captain of his soul, and if he wishes to go up to heaven or down to hell, we cannot stop him, but we can at least teach him straight navigation, warn him of the rocks and whirlpools, and equip him for the hard sailing which is before him.

The goal of each human life is aptly expressed by John Masefield:—"All I need is a tall ship, and a star to steer her by," and we must see to it that we provide our sons and daughters with the star, without which each barque must undoubtedly be wrecked.

Only by looking to the star of un-questioning-faith in the three great essentials, God, King, and Country, did our forefathers build up the greatest Empire that the world has ever known, and only by a -return to those beliefs will our children carry on their work.

The intellectual who toys with Communism as "some new thing" is no use to this country or any other, let us see to it that he does not corrupt the clean youth -of this Empire. Let us bring up our children on the Bible and Kipling, and we will soon find that the much talked of "decadence" of modern youth will be a thing of the past. **D. G. H.**

RECENT ACTIVITIES OF THE BRITISH FASCISTS

DURING the last two months meetings have been held daily in the London Area and the results have been most satisfactory. Large crowds have attended our open-air meetings, and recruits have been enrolled at every one of these public gatherings. Opposition except from small groups of Socialists, and Communists and from Jewish quarters, has been practically nil. Only at our Islington meetings has the situation looked ugly at times. Organised attempts of Communist anti-Fascists to wreck these meetings have been countered successfully and vigorously. Open air meetings are being held regularly once a week at Nevern Place, Earl's Court, Manor Street, Chelsea, South Kensington, Lime Grove, Shepherd's Bush; Defoe Road, Stoke Newington; Gillingham Street, Victoria; St. John's Road, Battersea, Streatham Common, Norwood, Woolwich, and the Clock Tower

Highbury. Further places are being opened up.

Swearing-in Ceremony at Public School

Fifteen new members of the Imperial Service College Company, British Fascists, under the command of Troop Leader Harnett were sworn in by County Commander Webster, on Sunday, May 28th, at Windsor. The Company, on whose discipline and smartness T L Harnett and Unit Leader Schofield are to be congratulated, paraded in the Common Room, which, by the Courtesy of the House Master, was reserved for British Fascists for the afternoon. By special permission of the Founder, the Consecrated Colours were permitted to be used for the ceremony, the King's Colour being carried by Area Commander Whitmore and guarded by Co Officer Eyre, the Fascist. Colour bearer being County Commander Harnett (Women's Units), guard, Area Commander Smith, O.C. London Special Patrol. After the ceremony, tea was provided for the visiting officers by the Company. This is the first Public School Company to have a swearing-in ceremony during term-time, and we are indebted to the Camperdown House Master for his patriotism and courtesy in giving us permission.

New Branch Headquarters

A new branch Headquarters has been opened at 6, Upper Street, Islington under the leadership of Company Officer K. R. Crum. In a very short time this officer has worked up his Company from a mere handful into a formidable body of excellent men, young and enthusiastic. Company Officer Crum will welcome recruits, and communications should be addressed to him at Upper Street or through General Headquarters.

Another branch Headquarters has been opened at "The Shop," Cargreen Road, Croydon. Fascist Laxton is in residence there, and will welcome anyone interested in the Movement in that district. Pamphlets and information may be obtained on application.

Debates

Excellent debates, held by the invitation of various societies of all shades of opinions have taken place, the British Fascist speakers being, County Commander Webster, Area Commander Whitmore, Fascist Radcliff, Co. Officers Crum and Eyre. Our future engagements are many, and societies wishing to invite British Fascist speakers are advised to do so without delay.

Meeting at Pinner War Memorial

A well-attended outdoor meeting was held at Pinner War Memorial on Friday evening, June 16th, arranged by District Organiser Bailey. The speakers were Area Commander Whitmore and Company Officer Crum, Mr. Bailey. A satisfactory number of recruits have been secured as a result of this meeting.

By-Election in Burrage Ward Plumstead

Mr. Wright, local organiser for the Woolwich Branch of the British Fascists is contesting this Ward on the British Fascist Political Programme. This Borough Council election will be first contested by a British Fascist and all members in London area are asked to communicate with Headquarter. at once, in order that Mr. Wright may be helped to victory. Cars will be needed for speakers and on Polling day.

GERMANY AND THE JEWISH QUESTION **By Cyril G. Philipoff** **Special Correspondent in Berlin**

THE Jewish problem is International. Wherever the Jews are found—and they are found in every part of the world—we see a determined struggle for political and economic supremacy between a resolute, organised and unscrupulous Jewish minority and the main body of the people totally unconscious of their real danger; in Germany the Jewish problem is particularly acute.

During the middle ages and in modern times—up to 1848—the German Empire, Princes and Municipalities did not emancipate the Jews, as they were fully aware that such emancipation would result in the enslavement of their people by these cunning Oriental merchants as the Jewish National character has remained unchanged throughout the ages. In 1848, when Liberalism seemed triumphant, most laws concerning the Jews were repealed, merely the unwritten laws remaining which prevented the Jews from joining the Army or to hold offices under the State. What were the results?

Not only did all Banks fall in Jewish hands, but the Jews secured the control in wholesale trade, the learned professions and all other branches of economic activity to which the Jewish mind was particularly adapted. By this controlling interest, 600,000 Jews were able to enmesh, as in a net, a population of 60,000,000 people. Pre-War official statistics show that 70 per cent of the doctors in Germany were Jews, 50 per cent of the lawyers also, and large numbers of Jews had been baptised or become apostates and were not included in these figures. If a German enlisted the aid of the law against a Jew, he seldom obtained redress, since lawyers and judges were usually Jews. When he read a news-paper, he only read what the Jews saw fit to publish, most newspapers and news agencies being controlled or owned by Jews. The same thing applied to books. The National and racial consciousness of the German people had to be lulled, therefore subtle poison was infected into the minds of the Goyim (Hebrew for non-Jew) under the treacherous disguise of humanity and progress. The film industry had become exclusively a happy hunting ground for the Hebrews, wherein the Goyim could only obtain work as actors, whilst all the profits flowed into the coffers of the Chosen Race, whose members used the cinema as a vehicle for their own propaganda. Every sphere of economic activity became Jewish, insofar as it appealed to the Jewish National Character—the salient feature of this being that Hebrews never work productively, they are pre-eminent in Banking and wholesale trades, where enormous sums can be earned without actually producing anything new. The

German must do the spade work, the Jew reap the harvest! From childhood, the Jews are imbued with the teaching of the Talmud, that colossal encyclopaedia of sophisticated Jewish tenets and thought which trains them in the application of their law and suits them to work in the interests of their Race.

The vast influence of the Jews in the affairs of State in pre-war and contemporary Germany is well-known.

The famous "Court Jews" Baffin, Bleichroeder, Rathenau and others were prominent militarists; they knew that in the War, the toll of Hebrew lives would be small, that the War was productive of excellent business opportunities and that War and Revolution would result in complete economic and political power for Jewry. As they foresaw, so did events prove. Practically all the military supplies were engineered by Jews, and they raked in millions of shekels, whilst millions of Gentiles were slaughtered defending these blood-suckers as well as their own compatriots. Then followed the Revolution, in which the majority of the leaders were Jewish. Every National institution was persecuted. Internationalism became the slogan. Only Nationalism can oppose Jewish usurpation and oppression, whereas Internationalism encourages the Jewish bid for supremacy. It would have been difficult to find a more favourable forcing house for Hebrew interests than the Revolution and subsequent Republic in Germany.

During the inflation, when currency had lost all value, Jews flocked from Russia and Poland to take their share of the profits; these Eastern or Galician Jews.—Ostjuden—very soon became wealthy, though the Germans lost their money. Thanks to the energy of the lawyers and the pressure of public opinion, the famous legal actions of Katzenellenbogen, Barmat and Kutisker, Skaarek Bros. and others, brought to light the sources of the fortunes of these Jews—Bribery and chicanery were their principal weapons and it might also be mentioned that the Socialist and Liberal parties were financed by these rascals.

What are the reasons for the amazing success of the Jews during the last hundred years? The pro-semites answer that it is due to Jewish intelligence. This is not the case, the Jews have become powerful, because of their Internationalism, through their scattering amongst the Nations of the world, although they have remained more closely knit than any people with a National Home. The Gentile works, the Jew reaps. The Goyim fights and the Chosen Race gathers coin from all belligerents. The Key organisation of Jewry all over the world, is the "*Alliance Universelle Israelite*" in Paris. Its sub-organisations being the secret Order "Bnei-Brith" the "Grand Orient Lodge" in Paris and other Masonic Lodges. Through these powerful International Organisations, the Jews can regulate the economies of the whole world; depreciation, inflation, fluctuating markets on the Stock Exchanges, even political rule in various Countries are the embodiments of the Jewish struggle for supremacy. It is a widely known fact that the Jews are unscrupulous in their dealings, and to substantiate this point, one has merely to read the Old Testament in which it is affirmed that crime is not a crime if committed against a non-Jew, and is merely a question of studying the biographies of leading figures of Jewry.

It was a foregone conclusion that the arrogance of the Jews and their ruthless struggle for economic and political power in Germany would result in active opposition. Eugen Duhring the eminent philosopher was the first to warn Germany of the Jewish Danger. Theodor• Fritsch, the greatest German anti-Semite has been warning Germany as to this danger for the last 50 years, and in recent years, Houston Stewart Chamberlain, brought Out for the first time the racial factor of the Jewish problem into prominence.

On May 18th, 1919, the National Socialist German Workers' party was founded in Munich by Adolf Hitler an ex-lance Corporal of a Bavarian Regiment. One of the main items of his programme was and still is, the liberation of the German people from the Jewish yoke. What are his aims? Does he wish to cause "pogroms" and exterminate the Jew

as Jewry loudly proclaims throughout the world. Of course not!

In his programme and in first book "*My Struggle*," Adolf Hitler states "A citizen can only be one who is bound by racial bonds to the people."

Jews belong to another race, they are alien and therefore can in no wise be citizens. He states that as they are aliens they cannot fill any State office, and that their preponderance in political and social life must be broken.

No more than one per cent can be allowed to be lawyers, doctors, professors or students. This is in proportion to the number of Jews living amongst the German people, exemption, however, is granted to those who were on active service at the front. German law is distorted by Jewish lawyers, public health is menaced by a race who is hostile to the majority of Germans and holds most of the threads of the medical profession. Aryan civilisation is corrupted when the Jews are allowed to hold leading positions in intellectual circles. There are enough unemployed of Teutonic blood to occupy the places now held by Jews.

After the failure of the Hitler revolution of the 9th November, 1923 which nevertheless prevented Germany from being seized by the Communists the Nazi party was banned for two years. As soon as Hitler was released from prison in 1925; the Party started its triumphant march towards power. In 1930, Hitler received 8 million votes, in 1933, these had increased to 20 million! More than half of the Nation approves his programme the lesser half is divided amongst Communists, Social Democrats and the followers of the older parties. The Reichstag empowered him through a majority of more than 80 per cent to bring his programme into being.

Therefore why should not Hitler now realise his aims in respect to the Jewish question, when he is the champion not only of his own ideas, but also of those of the majority of the German people?

The first steps against Jewish preponderance of power in Germany, were taken by certain local officials of the National Socialist Party.

At the beginning of March, 1933, the Governor of Silesia; Heines, advised Hebraic lawyers not to attend the Courts of Justice. During the same month, an international Campaign was inaugurated by the Jewry of the world.

Until then, the Jews had denied the existence of a powerful International Organisation. Now the fact is obvious to all. In every country fantastic stories of Jewish persecution have been spread and believed. Not in vain do Jewish hands hold the controlling levers of the greater part of the world's Press! What was the fundamental reason for these lies? Propaganda. The Jews throughout the world speedily realised that Germany was the first great country to awaken to the danger, and to oppose the Hebrew yoke. By means of a boycott of German goods, by slandering the Nazi Government, the Jews shot their last bolt to consolidate their power. The triumph of anti-Semite and Fascist ideals in Germany is the first knock out against the Inter-national Jew.

The Staff of the Nazi Movement issued an ultimatum to World Jewry, and worked to stop their lying assertions. As the Jews continued to spread their propaganda and to boycott German goods abroad, the Nazi Party ordered a one day boycott last April. This was not a Government measure, hut a gesture by the Party, and it was hacked by the voluntary collaboration of the Storm Troops.

It was no very serious matter to the Jews that their shops were closed or empty that Saturday, but, a far heavier blow, from which the Jews will scarcely recover, is the fact that now every German knows where the Jews hide. It is now known what shops are Jew owned, which newspapers and banks, factories, professional men, lawyers and doctors, are Jewish, and how they may be avoided in the future. The necessary investigations for these facts were made by the Nazi cells which exist in every important undertaking, and by Local Groups.

The first Government measure against Jews was the discharge of all Jewish officials, except for those who had fought in the War or who had been appointed by the late Imperial Government. Jewish lawyers, again

excepting ex-soldiers—were forbidden to plead in the Courts and most of the Professors were removed from the teaching staffs of the high schools. Moreover some of the Nazi cells succeeded in arranging that some of the posts on the board of Directors should be filled by Germans in lieu of the former Jewish occupants in the great chain stores E.P.A., in the newspaper publishing house of Allstein.

What is the position of the Jews in present day Germany? The days of their domination in Germany are over—let us hope for ever. The fact of being a Jew is no longer a passport for the children of Israel, whether they are the orthodox Jews from Poland or the cosmopolitan Jews of Berlin and Frankfort. The Jews are allowed to do productive work, but as that has always been anathema to members of the Jewish race, they are slowly drifting to other countries where their brethren, still wielding power and influence must help them as they themselves helped the Eastern Jews after the German Revolution.

Hitler has a powerful friend and Ally—TIME. Three years ago, when he was accused of fomenting a revolution he answered his judges thus:— “Why, I am still young I have time yet.” And his day dawned sooner than any of his enemies anticipated.

The same thing applies to the alleged persecution of the Jews. It is beginning to be perceived abroad now that these tales are simply a great Jewish bluff which is now being exposed in its true colours. That in fact not a hair on the head of either a so-called German or Eastern Jew has been touched, and that at any rate until now the Jews have been relegated to their proper place according to their numbers in the Country.

Notice

The British Fascists wish it to be made quite clear that their Organisation, the original Fascist movement in Great Britain **has no connection whatever** with Sir. Oswald Mosley's ex New Party, renamed at the end of last year the "**British Union of Fascists.**"

Adolf Hitler's struggle is the first stride towards the liberation of the whole of the Aryan race from the yoke of the hook-nosed sons of Israel!

THE POLITICAL PROGRAMME OF THE BRITISH FASCISTS

The Political Department of the British Fascists issues the following statement of policy for General information.

British Fascism is working in order that it may capture the political power of the State. In the opinion of the British Fascists the Party System has become obsolete and totally inadequate for the conditions of the 20th century.

There are only two alternative systems of Government to choose from:—Fascism with its realist and National policy, or Communism with its international outlook, its class war tenets and its fallacious economic doctrines.

Every Briton must thoroughly realise that the time is at hand when the Party system will be thrust aside and the fight for power restricted between Fascism and Social Communism.

This is an age of change, in which the old ideas and values no longer apply. Fascism is the only sure and sane way out because it is the way of progress, order, discipline and well-being for all classes of the Community.

Shortly, every Briton must belong to one of the two Camps and therefore the British Fascist Political Department puts forward these 24 points of its programme as they are fundamental points on which the Fascist State will be erected in Great Britain.

1.—The maintenance of the Monarchy, which is the link binding country and Empire together.

2.—The abolition of the Party System and its replacement by the Corporate State, formed through the Guilds and Corporations of workers, traders, employers and owners.

3.—The State to be above all sections classes and interests. All to be within, none against the State.

4.—Destruction of class barriers. Merit, character and work to be the only passports of the new aristocracy.

5.—Compulsory abolition of lockouts and strikes. State arbitration. Courts to be set up.

6.—Equality of opportunity in education for all British children.

7.—Slum clearance, town planning and wider Social services. Revision of the present Rent Act. Rigid control over rents.

8.—Adequate measures regarding unemployment. Work or full maintenance for Britons.

9.—Preference to British and Colonial goods, products and labour through-out the Empire, employers to be compelled to employ British Labour in the Home Country. Adequate protection for the British shopkeeper and trader against foreign infiltration and competition.

10.—The British Mercantile Marine to be staffed by British Sailors.

11.—Encouragement of individual enterprise, protection of the small trader and shopkeeper against combines, trusts and cartels.

12.—Compulsory prevention of stock exchange gambling in the commodities of -the people. Control of the Banking system and the elimination of the international Financier in the affairs of State.

13.—Protection of individual property when used in the interests of the Nation. Prevention of profiteering, cornering commodities or otherwise sabotaging the Community.

14.—Industrial reorganisation--intensified production through the use of machinery. Intensified consumption by the payment of high wages. A high standard of labour with reduced working hours.

15.—Agricultural reform Organisation of the agricultural resources of the Country.

Landowners to be compelled to put all suitable land under cultivation. Direct sales of produce and suitable wage reforms for agricultural workers.

16.—The abandonment of the Gold Standard and the basing of currency upon a Goods standard.

17.—The tightening up of Naturalisation Laws.

18.—Only men and women of British race to hold Parliamentary and Official positions.

19.—Members of the Jewish race to be classified as aliens, to be debarred from holding official positions in the State, from voting and from controlling the financial, political industrial and cultural interests of the British people.

20.—Stringent laws against fake burglaries, fake fires, fake bankruptcies, white slave traffic, drug traffic, selling stolen goods at cut prices, and other oriental-commercial practices.

21.—A law penalising coloured men cohabiting with white women in this country.

22.—Defence :—The armed forces of the state to be adequate for the defence of country and Empire.

23.—Foreign Policy :—Insistence upon the merits and rights of our own Nation and Empire. Friendly relations with all well-disposed nations. Repudiation of all treaties which bind the country to armed intervention on behalf of other powers. Policy of benevolent neutrality to all Nations. Withdrawal from the League of Nations

24. Colonial policy:—the creation of an Imperial political and Economic board. The Home Country to be the senior partner and director of the imperial destinies. A firm hand in India and Ireland. The State to maintain the dignity, justice and power of the British name throughout His Majesty's colonies and dominions.

MACHINERY & UNEMPLOYMENT

John Radcliff

I address some half-dozen street-corner meetings every week and find that a large body of opinion in my audiences blames machinery for un-employment.

These enemies of the machine Name, in effect, the vast increases in our productive power that Science continually puts at our disposal. Every time they see a new machine installed, they see men thrown out of work and in consequence they blame the machine.

Glutted Markets

The apologists of the machine urge that any increase in Man's power to produce the things he lacks is surely a blessing, but the enemies of the machine sneer in answer that there is too much production, that the markets are glutted with a superfluity of goods.

The British Fascist gets angry when he hears this cry of "too much production." Is there, he asks, too great a production of coal? How can there be when the boot-operatives of Northampton shiver through the winter before empty fire-grates.

The boot-operatives, of course, cannot buy coal because they cannot get work at making boots. And the enemies of the machine, with their cry of "too much production," say that the hoot operatives cannot get work because machinery -produces too many boots.

Miners Without Boots

But this only angers the British Fascist further. The miners of Durham, he retorts, tramp through the winter rain in worn out boots that are fit only for the dustbin; can the miners of Durham believe there are too many boots?

The British Fascist with his habit of getting to grips with realities sees that improved methods of production cannot be the cause of unemployment. If we clear our minds of befogging abstractions and generalizations,

take a simple, concrete illustration of increased production, and think the matter out, we also shall see the innocence of machinery.

Suppose there is a man who makes hats and another who makes shoes. And suppose that the hat maker sells his hats at £1 each and buys every year one pair of shoes for £1. What takes place here is that the hat maker exchanges one of his hats every year for a pair of shoes. (All trade is an exchange of goods or services for other goods or services, but we often fail to realize it because we use money as an exchange medium.)

Hats for Shoes

Now, suppose that improvements in machinery enable the hat maker to produce twice the number of hats that he produced before, and the shoemaker to produce twice the number of shoes that he produced before. Should not the hat maker now be able to exchange two hats for two pairs of shoes where before he exchanged one hat for one pair of shoes?

If he exchanged hats directly for shoes this would be possible, and both hat maker and shoemaker would be able to go on increasing their production until no more hats and shoes were wanted. But the hats are not exchanged directly for shoes. The exchange takes place through the medium of money. The hats are exchanged first for money and then the money is exchanged for shoes.

£1 Hat for 10/-

The hat maker started by exchanging each hat for £1, but when he doubled his production of hats there--was no corresponding increase in the production of £1's, so that the ratio in which hats and £1's exchanged altered. If the quantity of hats doubles and the quantity of £1's remains the same, twice the number of hats has to exchange for the same number of £1's. The hat maker has to sell his hats at two for a £1 instead of one for a £1. In other words the price of hats drops from £1 to 10/-.

Now, when there is a general increase of production, an increase spread over all trades, and there is no increase in the production of

money, there is obviously bound to be a general price drop. And a general price drop chokes trade and causes unemployment.

Reluctant Buyers

When prices are dropping everybody stops buying. If you were going to buy a new wireless set this month but heard that the price was coming down next month you would obviously put up with the old one until then. And a shopkeeper hearing that prices were coming down would put off ordering goods from his wholesaler, fearing that if he bought goods at this month's high prices, he would have to sell them at next month's low prices and thus lose money. His wholesaler in consequence, would pass on smaller orders to the factory. And the factory owner, faced with a falling off in business, would lay off men. The men laid off; having no wages to spend in the shops, would cause a further shrinking in shopkeepers' orders to wholesalers, wholesalers' orders to factories, and factories' employment of men. The process of less spending power; smaller orders; less employment, would start all over again, and the snow-ball of depression would keep rolling and growing until things became so bad that nobody had the confidence to attempt anything. And all because of a general price drop.

The Remedy

The general price drop, we have seen, is caused by the production of goods outstripping the production of money. What is the remedy? We can either put a stop to all further improvements in production, or substitute for our present money system a system under which supplies of money increase at the same rate as supplies of the goods for which the money is to act as an exchange medium.

British Fascism would set its face against restriction in the production of more wealth, holding that such restriction would condemn the workers to remain forever at their present unsatisfactory standard of British Fascism would therefore ruthlessly scrap the present money system under which the production of money is limited by the production of gold,

and would substitute a "Goods Standard" system.

There are many schemes for basing currency upon a "Goods Standard" but the British Fascist does not tie himself to any one of them. In a British Fascist State the details of currency reform would not be pronounced upon by amateurs but by experts. Sufficient for me, therefore, is the indication of general policy.

THE VIEWPOINT OF YOUTH

The young men and women of to-day, about to step into the activities of the Community, are looking anxiously at the drab political and economic panorama that opens before them.

What does the future hold for us young Britons, while millions of the Nations' workers are unemployed, while we are faced with wage cuts and declining world markets? Is the energy and willingness of young Britain to be stultified and squandered by the senile politicians we have at the helm?

How long is the Nation's life to be impeded by the petty squabbles of the Lloyd Georges, Baldwins, MacDonalds? What have the governments of these "fine old men" done for us? They have saddled the younger generation with unemployment, taxation, stagnation. And are we to stand idly by and be complacently thrust on the industrial scrap heap?

What alternative can we have to this antiquated system which is strangling the life of the Nation?

We, the youth of the Country, revolting against the ineffective political and economic system now in being, can only look two ways. We must embrace either Communism or Fascism as a possible way out of the impasse.

We young people hold the future of the country in our hands and we must decide how best our energies may be directed to secure the well-being of the Nation and the people.

Are we to work for a Communist State, with its crazy economics, its Nation-splitting class

war, its hatred and insane persecution of patriotism and religion, and its system which denies the full expression of individuality?

NO! we can only tread the path to Fascism. Its reality and ideals make of Fascism the only 20th century policy capable of dealing with present day problems.

British Fascism comes as a liberator breaking the chains that bind us to class and party jealousy. It comes to unite the people into a National Mass working for the regeneration of the State and to lead our people back to sanity, prosperity and security.

In a few years, we, the youth of to-day, will have the full responsibility of the country on our shoulders. We must prepare now to become fit trustees of the heritage of our forefathers.

We must harness the discontent of Youth to the cause of Fascism and march now against the enemy, and struggle to bring about the Corporate Fascist State in which every individual and every National asset will be used for the common good of our race. We must build up that character which is an essential in Fascism and through British Fascism make our Country the pattern of the world. **K. Richmond Crum.**

CORRESPONDENCE

The Editor, *British Fascism*

Sir,---I sent the "Blackshirt" a letter, with full name and address pointing to the injustice of its criticism of the British Fascists. It was not printed.

It seems to me that it should publicly pointed out that the propaganda of the British Union of Fascists is merely a Socialistic attack on capitalism, under the name of Fascism. It is an extraordinary perversion, Fascism is National and Patriotic but the B.U.F. is International and Pacifist. The only people whom Mosley does not attack are the Jews.

The truth is that most of Mosley's highly respectable candidates in 1931, were out-at-elbows members of the I.L.P. He has practically staffed the B.U.F. with these

persons, who have brought their I.L.P. propaganda with them. He seems to have awarded a sort of consolation prize by employing them.

Mosley does not realise that it is his money and nothing else; which keeps the B.U.F. alive. It has no other appeal. Yours faithfully,
R.H.G. Carleton Road, Tufnell Park, N,

ADVERTISEMENTS

Chauffeur and Handy man urgently requires work. Honest, reliable Fascist, ex-Serviceman, first class references. Apply---, Drake, 22, Stanhope Gardens, S.W.7.

TO
ALL SUBSCRIBERS &
SUPPORTERS-
SPECIAL APPEAL,**

WE beg to enclose herewith a copy of the Special Summer Propaganda Number of British Fascism and trust that its policy and general make up will meet with your approval, we have to announce that our Paper is now under new Editorship and management and that commencing from August let it will appear regularly every 1st of the month at the old price of 1d per copy.

Our Paper can now play an important part in the questions of the day and influence public opinion towards the future Fascist State. We are securing a series of articles on important questions by leading and famous public men and women, and our policy henceforward will be one of Patriotic endeavour. Our purpose is to break up the Communist, Socialist and subversive attack on the life of our Country and to lead our people back towards Sanity, Unity and Prosperity.

We require the support of all our subscribers if the Paper is to achieve its purpose. We must ensure that it appears regularly and that its circulation increases with every number. To do this additional finance is urgently needed. If the Paper is to appear regularly and if it is to be diffused throughout Country and Empire a Supporting Fund is needed. We ask our subscribers and supporters to help us raise 1000 for this purpose. This will put the paper on its feet definitely and will enable us to run on for a full year free of debt or fear of suspension of publication. Thousands of complimentary copies are required with every issue. Street sales are being tackled properly and encouraging results are already apparent.

Will you please do your best to subscribe to this Fund? Contributions however small will help us. A list of supporters and subscribers will be duly published in each issue. Help as make the Paper a National Voice and a rallying point for Patriots.

With heartfelt thanks for your past support and future effort,

DEG. HARNETT & G. E. EYRE
