Shock: 1954 Photos Show Stonehenge Being Built

THIS RUSSIAN WEBSITE SHOWS STUNNING PHOTOS OF WHAT APPEARS TO BE STONEHENGE BEING BUILT. The author provides a detailed information about how the British government/military built this new age cult site and speculates the fact that it may have actually built from scratch or at least remodelled. The author also contends it may be a replica of the original. The pictures are stunning nonetheless.

Below is a rough Google translation of the author's analysis.

Note: I suggest you save a copy of these photos "just in case" they disappear or the website gets conveniently shut down. **You never know...**

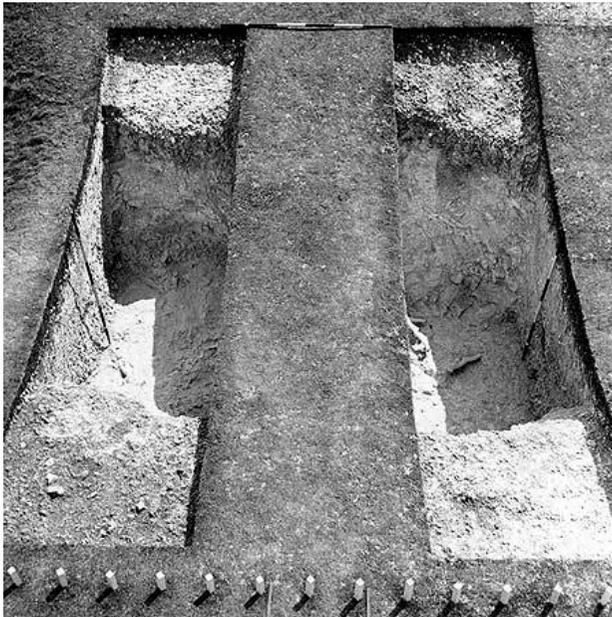

Stonehenge. Filming 1954-1958

At all times, all governments agencies (and especially external private Interests) engaged in forgery. Pictures of 1954 and 1958.

More on Past Stonehenge Renovations

The first reaction of some readers who continue to say something about the “recess”, “restoration”, “replacement”, “ancient megaliths”, convinced that without explanation did not do. In the early photos, ranging from the 1st, which is higher than you see white circles denoting the space for future “megalith”. This is the “scope of work” for builders. Layout object from the customer, made with lime in the wells of the blue, pristine hewed. “Megaliths” not pulled out as carrots, leaving no trace of this procedure.

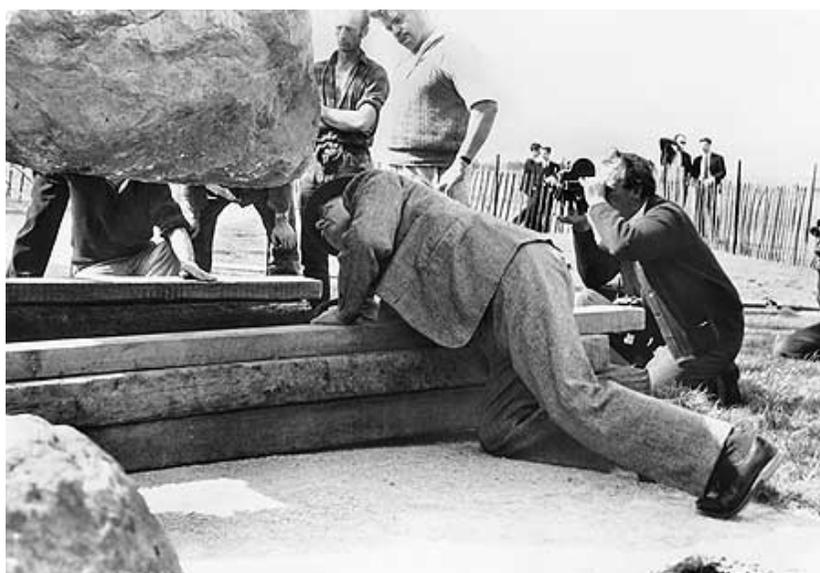

Next, if you consider the pictures closely, you will find both military and barbed wire in the area, and other details, saying that at a certain point in the future “cyclopean building” ancient Druid atlanto – asura- siriyanto – Aryans was protected sensitive sites. See “customer representatives” who are not officials, builders, workers, the surrounding residents. Has “initiated” with some of my bookmarks and equipment. Stonehenge – “Space Portal”, “energy crystals”, etc., etc. played an important role in the presentation associated with the “apocalyptic”, “irregular” and the rest, took care of that during the construction causing biological and spiritual contamination thereof. Which are illustrated by modern photographs as follows:-

The author even provides some , as he calls them “little known facts”:

1. First near Stonehenge military exercises were held in 1898.
- 2 . From that time until the Second World War, the Ministry of Defence bought up large tracts of land in the area.
- 3 . Currently, the Ministry of Defence owns 390 square kilometres (!) In the vicinity of Stonehenge , some of which are closed permanently to other access is severely limited. (Wikipedia –The border of the nearest military base is only a mile to the north from these stones and the military airstrip – 5 kilometres to the south- east).
4. In the past, in the vicinity of Stonehenge was a branch railway line and airport, both were subsequently removed (there are other sources that say the military airfield was much closer, at a distance of one mile from Stonehenge)
5. In 1943 the village of Imber (15 kilometres from Stonehenge) and the villagers of Par Hinton were evicted . In an article about Imber it says that to this day the village is under the control of the military
6. 2 kilometres to the north of Stonehenge is located the Royal Artillery School, which conducts live shooting 340 days per year!
7. 9 kilometres to the south-east is the military airfield, in which is located a Defence, Science and Technology Laboratory , whose work is primarily classified as secret.
8. Another 17 kilometers to the west of Stonehenge is a military base and the Air combat helicopter airport “Apaches”.
9. In the area of Stonehenge no agricultural activities are permitted because of the danger of live ammunition that has accumulated over many decades. Because of this, green meadows around Stonehenge acquired scientific value (Site of Special Scientific Interest) as are designated by UK law.

So, To summarize

Stonehenge for over 100 years has been a closed area, guarded by the military and patrolled by military aircraft and helicopters, with daily artillery exercises on the periphery. Local residents were evicted during the Second World War, under the pretext of exercises. These villages have been under military control ever since. There is military activity over large areas of Salisbury plain and the near vicinity of Stonehenge during which public entry is prohibited.

On the military controlled area of Salisbury was an infrastructure that included airports, railway lines etc., but these were later abolished as being unnecessary. Perhaps a more suitable place for the construction of Stonehenge was hard to find ... “

In other words, everything is clear. On the territory protected by the British War Department, consciously and purposefully been erected this “centre of ancient civilization”, a heritage of Great Britain’s ancestors, “A Monument of Humanity”, which became (not by itself, but was clearly put there) the most important ancient religious centre of Britain which at least deliberately inculcated “spirituality”.

This was a colossal restoration, not just a re-erection of 2 fallen upright stones and Lintels as the public was led to believe.

PS. So, what in your opinion of what is shown in the photos – the restoration or construction of a Stonehenge twin?
